## FORUM OF THE PEOPLE

That Anti Single Tax Report. Canby, Ore., June 7.

Editor of the Enterprise:-Being aware of the prejudice existing among the farmers against single tax, and knowing that this same feeling was being systematically fostered, it was hardly to be expected that the State Grange would do other than report adversely on this measure, yet, it was somewhat of a surprise that, in so doing,, a body usually deliberative should allow themselves to be drawn into the endorsement of a set of resolutions so reeking with venom, misstatements and half-truths as reported in the the "Enterprise" of May 24th. It savors more of the personal animus of some individual than the calm judgment of a thoughtful assembly. Bro. Gill's letters, however, state that "the biting preamble" was later expunged from the record. The delegates were certainly justified in being ashamed of the report. To openly and honestly oppose the single tax movement is legitimate warfare, but to attempt to create the impression that it is a "bold attempt of the Standard Oil Co." is not only slanderous, but positively silly. Any one conversant with single tax literature, especially with that weekly evangel of freedom, "The Public," so long and ably edited by Louis F. Post, knows that nowhere has predatory wealth and the special possible been more critically portrayed and the remedies suggested. But in the case of this particular resolu-Mr. Ogle, of Molalla, was in this tion, the Standard Oil Company, by its infamous notoriety, is made to do service as the "goblin that's going get you if you don't look out."

The array of "denounces" and "con-

denmns" range the whole gamut, from

the hoary "unconstitutional," the fav-

orite anthem of the pro-slavery sympa-

thizers of the 60's to the ordinary cap-

italistic exploiter's "confiscation" and 'impair the obligation contracts" song, but the bright particular star in the ill for the past ten days, is improv- galaxy is No. 5, where after the usual "condemn" and the statement that "single tax can in no way increase the wages of the laborer," is blazoned forth this gem of economic thought; that wages can only be increased by the increase of capital; the increase in the efficiency of labor, or a decrease in the number of laborers." There you have it, the whole comforted into one sentence. What a shock this must be to the Socialists; to see the whole theory of "surplus value." 80 painstakinly elaborated by Karl Marx, through hundreds of pages, from historical and statistical data, demolished by mere "be it resolved" or "we condemn," and the question definitely settled that labor is receiving the highest possible reward under present conditions. A study of the "cost All the boys and girls are laying in of production" tables of the census reports will tell a different story, but it is not necessary to go into statistics to prove the fallacy of the position Mrs. H. Krager and son, Dewey, of taken in No. 5, for one word will sufstrike has seen an increase of wages without "an increase of capital, increase in the efficency of labor or derease in the number of laborers." In the face of such expressions of a wage fund theory, it might be well not to take too seriously the final conclusion that the adoption of single tax "would mean ruin to the farmers of Oregon. the partial application of this principle in some of the Canadian provinces ap-

there by the thousands. The graduated feature of the land tax (which for some reason was not thlamet Wash, returned to their home specifically "denounced") has been for twenty years in operation in New Zealand; was enacted with the avowed intention of breaking up the large holdings and in spite of the usual cry Hubbard accompanied by their young of "confiscation," and within recent years many of the municipalities have by local option vote, adopted a yet nearer approximate to single tax. Evidently the majority there do not fear

pears to have no terrors for the actual

producer and homeseeker, even the

American ones, who have emigrated

As a granger I had fondly hoped that the Enterprise account may have been inaccurately reported but as several weeks have elapsed and no corrections were made it is evident that the grange must have "fallen" for the whole thing.

Campaign Urging Oregonians To Give Preference To Home Made Products Is Effective

A perusal of the "Made in Oregon" page ad will be a revelation to all who read it. It will be an eye-opener as to the wide scope of Oregon manportion of the things in daily use. That, other things being equal, Oregonians should give the preferance to Oregon made goods is so self-evident that any argument as to the great good it will accomplish is an insult to intelligence. Heretofore we have in the uncompleted page ads, and now take occasion to call attention to those firms and products added today.

Now to start the day, after you have had a good night's rest on a mattress made by the Portland Manufacturing Company, and have enjoyed breakfast in which is included "a clous Tea Garden or Golden Brand Corn Syrup that will please your palate and stay with you like a brother, you can begin your day's work, or if it is your vacation time, you can sit down and talk to your wife about that little home you are planning, and read over the Portland Manufacturing Company's long list of things that are the very best, and that can be used in home-making. Or, if you plan a trip to the mountains, just note how well the Willamette Tent and Awning Comyour needs in the way of tents, hammocks, any thing of that kind needed

in camp. If you have the "Back to the farm" idea, the Pacific Lumber & Manufacturing Company, of Portland, will supply the lumber and hardwood flooring and everything of that kind for your house. At the same time don't forget the heating arrangements, and select a warm air furnace made by the Anderson Steel Company, of Salem, and there is none better.

The Star Drilling Company of Portland can furnish the machines for drilling a deep well for you, which, of course you need, as will your neigh-But if you have a spring or stream that you can pipe into your house, and prefer that, The Portland Wood Pipe Company can fit you out to the Queen's taste.

The Multnomah Box and Lumber Company will furnish the boxes, crates and baskets for your fruit and berries when you get a-going. Then in your business, no matter what, Oremanufacturers are ready to privileges thath make such conditions furnish you anything and all you need. If you are in the saloon business, just tell the Portland Bar Fixeure Company what you want and leave it to them to make good. If you have a garage, or are in the automobile trade, or for that matter, own an auto, just examine the Economy Leather Cover made by the Economy Leather Tire Company, of Portland. indestructible and puncture proof.

Corrugated Culverts are the cheap est and best you can use at your home or in any occupation you may engage in that needs anything in that line It is made by the Coast Culvert & Flume Company, of Portland.

The Portland Iron Works make the best saw mill machinery that is made anywhere and if you are in in the mill business you are missing some thing if you do not investigate their stock and machinery before sending out of the state the good money you have made in it.

Every printer knows and patronizes the Beaver Engraving Company of Portland when he wants first class

cuts and wants them quickly. If you are a prohibitionist, water made in the snow clad mountains of Oregon is good enough, of course, Good enough any way, but if you like a good, cool ,summer drink, that cheers without irritating. Salem beer will go to the spot very near your heart and where it will do the most good. You see it is not necessary to use strong drink because if you want to get ele vated, the Portland Elevator Company can take care of you, anywhere from basement to as high as you want to go, and after you reach the top the Pacific Face Brick Company can fur nish the material to put a solid found ation under you, or build the house for your elevator to run in. Besides they can furnish the brick for your fireplaces, or any old place except

your hat. The Portland Fixture Company can fit up any saloon or drug store, soda fountain, or any thing of that kind in first class style, and the Portian Sheet Metal Works will gladly furfilsh the metal windows, fire doors and everything of that kind to make your stock and building safe.

The printer, the modern kind, with a linotype or two, can get the best of materials of the Pacific Metal Works at Portland and his wife can add to his happiness, as your wife can to yours, by putting hot biscuits before you when you come home tired, 'es pecially if they are "Lit up" with an Oregon made product, Eppley's Bak ing Powders, a Salem firm's make; while the children will surely be contented with a supply of sweets from the J. N. Matschek Candy Company

of Portland. Fry's Squirrel Poison, made in Sa lem, is pleasant to take, for the squirrels, but still they don't call for it the second time. It is good though for what it was intended for and so is Capital City Flour, the Kansas Blend and perfection, put up by L. M. Reeder, of Salem, but the two should not b mixed. The same applies to the pure cider vinegar put up by Gideon Stolz. It's good in its place, but not in your

tea or coffee or the baby's milk. If you want a show case or any kind of store fixtures, the Lutke Mah-ufacturing Company, of Portland, can furnish them, and the Pacific Stonewear Company can furnish you any thing in the line of jars, pans, churns Blumauer-Frank Drug Com pany can furnish Purola and other hold remedies as well as toilet

# **DELIGHTS CROWDS**

The 101 Wild West Show made its first appearance in Oregon City Friday and long before the parade started the streets were thronged with sev-eral thousand persons. Many came school at 10 a. m., John Sievers, supfrom the country surrounding Oregon City, although it is busy time on the farms. The farmers abandoned their rakes, hoes and plows and brought their families to this city to give them a treat. It was the best "show" that has been in his city for years. The street pageant which started from the show grounds about 10:30 was headed by Indians gaily dressed and wearing war paint. In the parade were cowgirls, cowboys, bands, seated on preftily decorated bandwagons, Scotch bagpipe players, and bringing up the rear was an old coach that had seen better days, and brought back to the memory of the old settlers the time in the West when these vehicles were used. Also noticeable was an old ufacturers, and show that our home prairie schooner hauled by six oxen, people are able to supply the greater and an exen drixen by one of the leading women riders. Three huge buffaloes on a wagon were among the chief attractions. The calliope playing the latest selections was also in line.

The afternoon and the evening per formances were well attended. There was something doing every minute and the crowds were delighted. The mentioned the products as advertised side shows also were visited by large crowds. In one were Indian blankets which were made by the Indians that travel with the show. Beads made by them also were on exhibtion

Among those deserving of special mention were Miss Parr, who is probably one of the greatest broncho riders in the world, Princess Wenona, of stack of hots" served with the deli- Cheyenne, who is a champion shot, and also experienced horsewoman; Miss Ollie Swan with her trained six mules; Miss Ethel Perry, Miss Juanita Perry, Miss Bessie Herberg, Miss Martha Allen, Miss Lulu Parr, Mrs. D. V. Tantlenger, J. Rogers, and Wayne Beasle. The latter rides without bridle or rein; Hank Walker (fancy rope thrower) Chester Byers, (fancy rope thrower,) J. Baldwin (broncho rider) Hank Darnall (fancy rope thrower) Tom McKerhon (fancy rope thrower.) The comedians, who pany, a Portland firm, can supply all kept the audience in an uproar by their witty saying, were Joe Lewis, Dan Dix and Bill Kereas, J. Lenore, an accomplished musician, apeared during the entertainment playing five different instruments, several of which have never been played before in this city. His selections were highly appreciated and was forced to respond to encores

The 101 Wild West Show has 550 persons connected with it, and is one of the cleanest shows that ever came to this city. There are fifty Indians representing many tribes, twneyt Mexicans, four hundred horses, buffaloes etc. The band of eighty pieces played lively music during the performance. The show left this city early this morning for Portland, where it will exhibit four days during the rose carnval, and from there will go to The Dalles, Pendleton and Baker City in

# EUROPEAN BUYERS

Developments of the past 24 hours the chief reason that leading selling interests of Europe are visiting the Pacific coast at this time is to cover their reported short sales at low

Upon the visit of the foreigners here various growers, large and small were called to the office of a broker connected with the outside buyers and were introduced to the interests with the hope that contracts could be st cured immediately.

So far as known but few growers took the bait, the majority of them seeing the game and are therefore holding out for better prices than 25c pound.

Just how short the English trade is on the 1912 crop of hops none but the sellers themselves can say positively. out it is generally understood among local interests that the selling has been severe and that the sellers have ecome scared and the present visit to the Pacific coast to induce growers to let go was the result.

The fact that better prices for the 1912 crop are being offered California growers than here is an indication that the bear forces are better organ ized here and feel that they can make the growers sell at whatever price they are willing to offer.

Platinum. Platinum, one of the most useful of the metals in many ways, was named by the Spaniards on account of its silvery color, plata signifying silver. It was found in the auriferous sands of the river Pinto, in South America, and was unknown in Europe prior to 1741, when Don Antonio Ulloa announced its existence in his narrative of a voyage to Peru. It was not until 1830 that platinum was rendered malleable and ductile by a Dr. William Hyde of Wallaston. Platinum is largely employed in the manufacture of chemical utensils, owing to its immunity to the effects of heat, acid, etc.-New York American.

danger is over. Saturday was children's day at Grange; they were there ranging in ages from 6 to 60 and over. Every seat was full in the afternoon during the lecture hour. A fine program was rendered in which the children had a share.

Logan is taming the Eagle for the 4th of July and it is then we expect to have a swell time. S. E. Spence will talk to the Grangers on that day, Program begins at 10 o'clock in the park. Posters later. Mr. and Mrs. H. S. Anderson were

agreeably surprised Sunday, most when their old schoolmates and neigh bors, Mr. and Mrs. G. G. Leedy and family of Corvallis motored over from Tigardville to spend the day. Mr. Leedy is one of the board of regents of the O. A. C. and former master of the O. S. G. He has a fine onion farm at Tigardville. Mr. Leedy's son and daughter recently graduated with especial honors at the O. A. C.
