Alfalfa hay contains as much protein as wheat bran. When the farmer is ready to study and work for it and has learned how to grow the alfalfa plant, this protein will come to him almost free of cost except his own work.

The Pennsylvania delegation this afternoon in caucus voted 59 to 6 to oppose Judge Alton B. Parker for temporary chairman of the convention should the national committee approve his selection by the sub-comi mittee on arrangements and a fight on the floor of the convention be precipitated by Bryan.

One of the compromises discussed after the meeting of the national committee had adjourned until 7 o'clock was that Bryan himself should make the "keynote" speech as temporary chairman and Parker serve as tempo-rary chairman. The Nebraskan's supporters professed to believe that he would not consent to this, or any other compromise with the conservatives. The session was behind closed doors, and at times became heated, judging from echoes that reached the outside

Among the committeemen who spoke against Parker and urged the committee not to ratify his selection were: A. A. Jones, of New Mexico, H. L. Hall of Nebraska and J. E. Davis of Wisconsin.
