BLUE TAFFETA

A pretty frock on rather severe lines is the blue chiffon taffeta sketched above. The blouse of this costume is almost entirely concealed beneath the large revers and hugs round collar at the back. A distinctive touch is given by the facing of one revers with corded white silk and the other with lace, the latter continuing as the collar facing in the back. The space occupied by the shield is filled with little pieces of salmon colored silk trimmed in buttons and a bit of white silk embroidered in gilt thread. The skirt has a seam directly down the front and slopes away near the foot, displaying a wedge-shaped piece composed of the lace and silk.

A Correction Oregon City, June 26. Editor Enterprise: I would like to make a correction of the item in the Tuesday Daily Enterprise about Basil Meindl being bitten by a rat. The item in Tuesday's paper says there was a large hole eaten under the lad's left eye, which is a mistake and also as his mother being at work in the kitchen, and it also stated the boy was 4 years old. His wounds were not dressed at H. S. Clyde's store, as stated in items.

MRS. O. E. MEINDL.

FIRM TONE PREVAILS IN WOOL MARKET

A very firm tone continues to rule all through the wool trade. Everywhere in the country trading is at the extreme mark. While the volume of business is small, this is due entirely to the more limited offering.

A late Boston mail advice says of the market: "Trading is still of rather moderate proportions in the local wool market, but if there has been no increase in the actual transactions, there is a greater inquiry than there was recently. The continued strength of the primary markets is beginning to be reflected in local prices and fears of a material advance in the near future seem to be wakening the interest of the manufacturers in the market. The early shorn new clips are being picked up about as fast as they come in and there is little doubt that sales would be larger if the supply was better. Remaining supplies of old domestic wools are being carefully looked over and trading in foreign wools is restricted only because they are so well sold up.

"In the west matters are as excited as ever, and the new clips are passing from first hands rapidly and at steadily rising prices. In Montana several million pounds of wool have changed hands at 20 @ 21c for average clips, while 22c has been the general going price for clips running well to medium, and it was said that there was a sale of this kind of stock at Miles City as high as 22 1/2c. It is conservatively estimated that fully two-thirds of the wools of that state are now out of first hands. At the Shanika, Or., sales this week about 1,500,000 pounds of wool were moved at prices that meant a clean cost laid down in Boston of from 57c for the average clip up to 62c for those running well to staple."

American League Cleveland 4, Detroit 3. Philadelphia 4, New York 0. Washington 8, Boston 4.

DON'T BE BILIOUS

We Guarantee This Pleasant and Effective Treatment for Biliousness And Blues

When you are bilious your liver is out of order and the poisons in your system are not being properly removed. Instead of being expelled from the body, they are carried by the blood to the stomach, the brain, the kidneys, the muscles, clogging and hampering every organ, making it impossible for you to work, or think or enjoy yourself as you ought to.

Perhaps you have the blues, or are rheumatic, or gouty, or suffer from dizziness, indigestion, heartburn, nausea, or are constipated, have a bad breath, or kidney trouble, or a blotchy and impure skin.

Your liver is not doing its work properly. Waste products—poisons—that should have been eliminated, are remaining in the system. Or the liver is not secreting enough bile, thus hindering that part of the digestion that takes place in the bowels.

Rexall Liver Salts contains certain salts commonly found in the celebrated mineral waters at Baden Baden and other famous resorts to which travelers travel thousands of miles to partake of the waters. You can stay at home and get similar treatment. Rexall Liver Salts contains Bicarbonate of Potash, Sulphate and Chloride of Sodium, Lithium Carbonate, Potassium Sulphate. It is agreeable, pleasant, effervescent, gently laxative—not violently purgative—cleansing the intestinal tract without any but the most beneficial and grateful effect.

We know what Rexall Liver Salts is made of. We know it is good for the liver and for derangements caused by or contributed to by an unhealthy liver. We guarantee it to the fullest extent—giving you your money back if not effective. We know you will be pleased with the results—25c and 50c. Sold in this community only at our store. The Rexall Store, Huntley Bros. Drug Co.

WACHENO TRIBE TO HAVE BIG PICNIC SUNDAY
