DANCING FROCK

A dainty frock for a little girl is seen in the sketch. This is made of cream-colored mull batiste and cut with full long-waist and short gathered skirt. A deep yoke and part of the sleeves is cut from all-over eyelet embroidery and through the bottom of this, through slashes cut in the embroidery a broad band of ribbon is run. Down the center front is a narrow panel composed of the finely tucked batiste flanked on either side by lace insertion. The skirt is trimmed with one row of lace insertion between two groups of tucks. A ribbon sash run through broad beading of the embroidery marks the waist.

LIVE WIRES HEAR APPEAL FOR BRIDGE

There was a lively conference between committees representing the Live Wires, Barton and Eagle Creek Tuesday evening regarding the building of a bridge across the Clackamas river. The meeting was held in the parlors of the Commercial Club and about fifty persons were present. Speeches were made by Messrs. Kirschner of Logan, James Tracey, of Oregon City and several others. Mr. Tracey said that although he owned property at Eagle Creek, that was not the proper place to build the bridge. It was announced that the residents of Barton and vicinity were willing to give the rights of way for the approach of a bridge and will build the road leading to it. The Eagle Creek people want the county to build the road leading to the proposed bridge in that place. More roads, it was said, lead to the proposed site of the Barton bridge than the one proposed for Eagle Creek. The Live Wire Committee decided to go to Barton and Eagle Creek to make a further investigation.

DEMOCRATS ARE ELECTED BY WIRES

(Continued from page 1)

row Wilson's victory in the Baltimore convention, the Live Wires of the Oregon City Commercial Club adjourned Tuesday until the first Tuesday in September, when the regular weekly luncheons which have been productive of so much good to the professional and business men of the city, will be resumed.

After the Wires had been filled full of chicken and ice cream an announcement was made by the Main Trunk Wire, O. D. Eby, himself a Democrat of no mean proportions, that Woodrow Wilson had been nominated for President on the 46th ballot. The eight Democrats present cheered wildly, and when Mr. Eby declared nominations open for new officers, the following were chosen by acclamation, the Republican members of the organization voting solidly with the Democrats:

Main Trunk Line—M. D. Latour ette.

Sub-Trunk Line—Harry E. Draper.

Transmission Wire—Gilbert L. Hedges.

Guy Wire—John W. Loder.

Feed Wire—Joseph E. Hedges.

William Sheahan made a statement of the cost of operating and maintaining a public swimming pool, but no definite action was taken, and J. E. Hedges, secretary of the Board of Water Commissioners, outlined the position of the commission.

John W. Loder introduced a resolution commending Governor West for his activity in seeking to destroy vice in the road houses of Clackamas and Multnomah Counties, and after a very brief discussion, the resolution was adopted.

The Live Wires have had an enjoyable year. Through their efforts much has been done along civic lines, the live membership has been increased and the Wires are looking forward eagerly to the work of next winter.

CHERRY CROP IS INJURED BY RAINS

As a result of the wet weather the past few days the market was practically bare of cherries Tuesday and to what extent that fruit will figure in the market from this time on is a matter of conjecture. In the valley orchards, where rain has been falling more or less steadily for three days, most of the Bings, Royal Annes and other varieties that were ripening are said to have been ruined, which will mean a serious loss to many of the growers.

Fortunately a considerable portion of the crop of the early sorts had been marketed before the latest wet spell set in, and dealers say there is still some hope for the Lamberts, which are the latest of the standard sorts. In some of the Valley districts the Lambert crop was nearing maturity when the rains started, and there the chances are that a good deal of damage has been done. In other sections, where the fruit matures a little later, the prospect is said to be more favorable. Generally, however, the rains are believed to have worked havoc to the cherry crop.
