GIRL'S SUMMER FROCK

There is an airy summer frock for a girl of fourteen shown today, made of cream marquisette and baby Irish lace. There is a unity of design in the application of lace on bodice and skirt, which is pleasing to the eye. The lace is applied in bib-like effect on the bodice front and two bands of it cross the shoulders on either side of a band of the embroidered material. The yoke is also of the embroidered voile. Following the lines of the waist the lace on the skirt is applied so as to form wide panels rounding at the bottom, thus forming a series of wide scallops above the bottom band of embroidery.

**GOVERNOR TO TAKE
LONG HORSEBACK TRIP**

SALEM, Or., July 10.—Governor West will start next Saturday on his horseback ride across the state and over the border to Boise Idaho, where he will attend the conference of governors to be held early in August.

"My old black mare has been brought in from the ranch," said the governor today, and his eyes twinkled with anticipated pleasure. "She is a regular iron horse, one of the best I ever rode, but I noticed she is a little lame and I may have to get another horse yet."

The black mare has been doing duty in the hop fields and the governor has not yet found out how serious is her lameness, but he is hoping she will be all right for the trip as he is planning riding her the entire distance, instead of having relays.

Just before the governor leaves he will ride in a parade at the Cherry Festival here, garbed in his cowboy accoutrements.

"A man asked me yesterday how I was going to get the horse back," said the governor, smiling. "I told him I wasn't worrying about how the horse was going to get back as I had troubles enough in seeing how the horse was going to get there."

The governor expects to make the trip his vacation and is expecting a great deal of pleasure from it. He will deliver a number of addresses en route on good roads.
