WHAT DOES THIS MEAN?

The Kentucky Klick, an organization of Multnomah County Democrats, favors the recall of Republican judges. It is not explained why the Klick draws the line here and neglects to go on record as opposing the recall of Democratic judges, but the intimation is there and is ludicrous. In a set of resolutions adopted at Portland Wednesday night the Klick has this choice bit:

"The Klick favors the recall of Republican judges; therefore it congratulates Governor West on his use of the militia to suppress vice in Clackamas County."

We may assume that the Governor found no vice in Multnomah County, where a wide open condition has existed for a long while.

We may assume that the Kentucky Klick believes that vice in Clackamas County is virtue in Multnomah County.

Finally it is a safe assumption that the Klick believes sauce for the goose is not fit food for the gander.

In Clackamas County we have Republican judges and Democratic judges, now in course of construction, also will use the New Era bridge and will not pass through Oregon City.

West Oregon City will get on the main line map and Oregon City will get off. What are we going to do about it?

Athletics Have Taken Place of Culture

By the Rev. NEWELL DWIGHT HILLIS of Brooklyn

LORD BACON once said, "Tell me what the young men in our universities are thinking about and I will tell you what the institution will be for the next generation." That is still true of some of the colleges where plain living and high thinking and old fashioned culture and solid scholarship still are cherished.

The sleeping car universities all stand for ATHLETICS AND PERSPIRATION—a few of the poorer colleges for Matthew Arnold's idea of culture and inspiration. In the old Greek days they CROWNED THE POET with acanthus leaves, being related to the intellect.

NOW THE HONOR MEN ARE ATHLETES OF THE FOOTBALL AND BASEBALL TEAMS. AND THE ONLY PROPER THING FOR THE PRESIDENT OF THE FACULTY TO DO IS TO TIE A BLUE RIBBON AROUND THE CALF OF EACH HONOR MAN'S LEG AND A LINKED SAUSAGE ABOUT HIS WAIST THAT MODERN SCHOLARSHIP MAY HAVE ITS TRUE APOTHEOSIS, ITS FULL RECOGNITION AND APPROPRIATE REWARD.

WEST SIDE RAILROADS

Work on the West side electric road of the Portland, Railway, Light & Power Company has been commenced, connecting the cities of Oswego and Oregon City. This line was extended to Bolton some time ago but further work was stopped by court proceedings. Since favorable decision was rendered crews have been put into the fields and before winter it is expected that the road will be completed into the city of iron fame, soon to be the greatest cement producing city in Oregon.

This line with connection at Oswego with the Southern Pacific should bring real estate on the West Side in great demand, the West Side being much closer to Portland's business district than Oregon City proper. Railroads build up a district quicker than any other known investment and Oregon City will receive its just dues with other communities.

Surveyors are still as thick as bees on the West Side. There are roads laid out in all directions; surveys to burn. With two West Side and one East Side road what can we expect other than rapid growth. We are destined to be one of the largest as well as the oldest city of Oregon.

CORRESPONDENCE

STONE.

The people of this place who have hay to make are busily engaged in haying, and some have already completed the task, and are now putting it away for winter's use.

There were many automobiles in this section last Sunday. The park was the destination of many of the automobile parties, and from all indications the roads need either sprinkling with water or have a good coat of oil so as to settle the dust that is made by the automobiles and teams.

The parties owning the stone quarry on the north side of the Clackamas river have sold it to Mr. Hagerman, the price being \$3,000. Mr. Hagerman has a force of men at work on the south side of the Clackamas river removing the debris out of the way, and from indications it would look like a dam is to be constructed across the Clackamas river to manufacture electricity. This is the third time that this project has been started, and this is the most favorable one so far. Parties have secured from Grant Mumpower an option for the erection of the dam on his place, and it now looks as though there is something doing.

There have been surveyors on the south side of the Clackamas river commencing at Gladstone and crossing the river two miles below the Baker's Ferry bridge and continuing up through the Lower Logan country. The parties doing this surveying have secured an option on E. Sorague's 50-acre tract of land, and these parties went out last week accompanied by a prominent capitalist from Pennsylvania.

A new steel bridge is being erected across the Clark Creek at this place which is greatly appreciated by the people of this place.

The Home Oil Well and Gas Company has commenced the drilling of a well, and will go through the hard stone. The company has secured a California well driller. Mr. Watson has been here recently, and examined the oil wells in this part of the county, and states that it looks very favorable at the present time.

CENTRAL POINT.

There will be a meeting of the young people at the Central Point church, at 8:00 P. M., next Sunday evening, for the purpose of organizing a Young People's League. The topic for next Sunday evening is: "The Advantages of a Religious Home." Everyone is cordially invited to come and take part in the meeting. The recently organized choir for Sunday school and church promises to give much pleasure at our future meetings.

Mrs. Francis Donegan died at her home Sunday afternoon, besides her near family she leaves many friends to mourn her loss.

The farmers of this vicinity are taking advantage of the sunshine to make hay.

Miss Anna MacDonald has accepted a position as teacher in the Mountain Road school.

Mr. and Mrs. W. J. Whitcomb, of Portland, were visitors of F. C. Chinn and family one day last week.

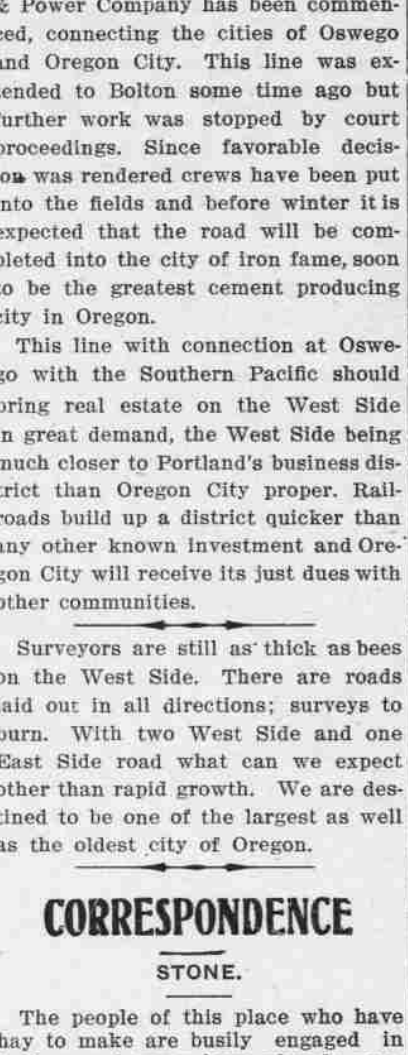

Miss Ethel Cawthorn, of Portland, is spending her vacation with her parents, Mr. and Mrs. Cawthorn, of this place.

Miss Pearl Chinn has accepted a position as teacher in the primary grades of the Barlow school.

Russell Chinn is helping Mr. J. Reittinger with his hay this week.

Father Knickerbocker Does His Spring Sheep Shearing

Photos by American Press Association.

THE city of New York keeps a flock of sheep, not for profit, but as an addition to the decorative features of Central park. It also has a shepherd with picturesque colliers that attend the flock as it grazes on the park meadows. As Father Knickerbocker is not regularly in the sheep business, the shearing of his woolly live stock is a matter of some embarrassment, since sheep shearing is not a part of the curriculum in the schools from which the park employees are recruited. For this spring's work the park department engaged two sturdy Irishmen, who completed the task of shearing the seventy sheep in four days. The wool was sold and the proceeds turned into the general park fund. The process of removing the fleeces was watched with great interest by the little group of children who gathered at the sheepfold attracted by the beatings of the innocent victims of schedule K.
