JAPAN'S EMPEROR IS SLOWLY SINKING

TOKIO, July 27 .- The suspense in the capital has been intense since the regular bulletin issued at noon showed that the condition of the Japanese Emperor had become worse. A bulletin issued at 8 o'clock in the evening contained merely the words "no change" and this only served to increase the feeling of anxiety. The physicians had issued only one

bulletin up to 2 o'clock this afternoon and that, too, announced no change, which was then regarded as ominous. The nature of His Majesty's malady which is indicated as acute nephritis

complicated by uraemig poisoning and which began to cause serious alarm about July 19, has prevented the imperial patient taking sufficient nourishment, and he has continually become

The bulletins have hitherto maintained a hopeful tone and it was very prominent supporter of the thought His Majesty would rally but instead he appears to have suffered a relapse and it is feared his heart cannot stand the strain.

It is plainly evident that His Majesty's condition is extremely grave and that the physicians are doing their utmost to sustain the remaing feeble spark of life.

N the event of Governor Wilson's election as president there will be no

lack of "ladies of the White House." His three daughters are attractive

and accomplished girls, who have been encouraged by their mother, her-

self a woman of talent, to develop their own individualities. Thus Mar-

garet, the eldest, who has a fine voice, has devoted herself to the study of

music; Jessie, the second daughter, who had leanings toward a missionary

career, is engaged in philanthropic and educational work, and Eleanor, the

youngest, inheriting her mother's taste for painting, is following art as her

chief interest. The young women are all fond of outdoor sports, and with

the Wilsons in the White House, though there might be no "tennis cabinet,"

the claims of the open air life would receive ample recognition. The governor

and his family have been making their summer home at Sea Girt, living in the

"Little White House," the official hot weather residence of the governor of

New Jersey. It was there that the accompanying photograph was taken, in

which the governor and his wife are seen in the foreground, with their daugh-
