SPUDS ARE LOWEST FOR MANY YEARS

The potato market is the lowest for many years at this period. With a record breaking crop in sight and with initial offerings unusually heavy, receivers are finding much difficulty in getting from under the avalanche of offerings that are at present available.

With nearby producers peddling their offerings direct to the retail trade, there is not much left for the commission men. On top of this there is an inclination on every side for farmers to let go of their supplies at whatever price is available.

Sales of new potatoes were reported in a very limited way along Front street in Portland Saturday at 65c to 75c per hundred pounds.

HARDSHIP

The beginning of hardship is like the first taste of bitter food—it seems for a moment unbearable, yet if there is nothing else to satisfy our hunger we take another bite and find it possible to go on.—George Eliot.
