A TURN IN THE ROAD

There is at the present moment consensus of opinion among reliable financiers and men at the head of the mercantile world, that the country is now so largely increasing the volume of its business activities that a continuance of prosperity throughout all of this year can be confidently forecasted. That this will continue into next year and through several succeeding years, can not be doubted. Supplies in nearly all lines have been reduced, and another good crop year, following several gone before, will warrant liberal buying by jobbers and retailers in practically all lines.

By the time November is reached the country will be enjoying a business activity, on a safe margin of profit which will not again lead to over-production. The distribution of these activities will by that time be affecting all industrial classes. And at that time will come up for answer the question of whether it is well to let well enough alone or would it be better to try experiments. The Democratic program, now as always involves the making of a great experiment and one which the country has found, on more than one occasion, to be filled with fearful possibilities of wreck. The tariff plank in the Baltimore platform goes a little farther than any of its predecessors. Mr. Bryan, interviewed in Chicago, says it was made strong because it was intended to strike the keynote of the Democratic campaign. In case the final decision is against the establishment of a high school an election may be held to determine whether a tax shall be levied to provide for high school instruction in Oregon City.

MANIAC SHOTS FIVE AND MAKES ESCAPE

SOUTH PLATTE, Colo., Aug. 3.—George Ballaw, 29 years old, a maniac ran amuck here last night and with a double-barreled gun shot and wounded five persons, three probably fatally and then set fire to the hotel, which burned to the ground.

Fearing that the telegraph operator would notify outsiders he ran to the station, covered the operator and ordered him to "come on." He was too late. The operator had notified the Denver authorities. Still covering the telegrapher, Ballaw marched him to the hotel, where he assembled those in attendance upon the injured into one group and held them at bay. Sheriff Dennis, of Jefferson County, with a posse is en route. Nurses accompanied the posse.

The Sheriff will reach South Platte this morning.

HOP MARKET HOLDS FIRM AT 19 CENTS

There are unfilled orders in the Portland market for about 1000 bales of hops at 19c a pound. Talk of deals therefore at 17 to 17 1/2c a pound is considered false. It has just developed that some growers who raise about 5000 pounds of hops are contracting three times this amount and are obtaining advances of about 7c a pound on this greater amount. It will be easy for these growers to purchase other growers' hops and fill the increase if the market goes to a lower figure than the contract calls for. On the other hand if the market goes up the dealer who purchased the contract will secure but the smaller amount produced in the yard tied up.

One dealer alone has orders from foreign interests which he has been unable to fill at 15 1/2 to 19c a pound. He was out all day and met with no success, although he hears are talking about securing contracts at 17 to 17 1/2c.

ANOTHER SCHOOL ELECTION CALLED

(Continued from page 1)

that the advocates of both sides had agreed that another election should be held. The election will be held within twenty days. The board of directors has decided that the vote was against the city having a high school or furnishing high school instruction to its pupils elsewhere. Heretofore the city has provided transportation and paid tuition for high school pupils in Oregon City. Voters who favored establishing a high school in Gladstone feel confident that the majority of the residents desire a high school in the city, and a substitution of their contention out election favoring the proposition. This vote however, was not considered valid by the directors, because the first proposition, which provided for the furnishing of four years' high school instruction, either in Gladstone or Oregon City was defeated. It is contended that the second proposition although carried, was contingent upon the first, which was defeated. The residents favoring a high school say they misunderstood the ballot, and at least 20 did not vote on the first question. In case the final decision is against the establishment of a high school an election may be held to determine whether a tax shall be levied to provide for high school instruction in Oregon City.

Oregon City's Toboggan Slide

Hurray for Oregon City now! I sez to Josh tonight; It has given us a toboggan slide That puts the road out of sight. What wuz called Molalla avenue Is made Molalla Slide— Two narrow tracks an' a ridge of rock. In all twenty-eight feet wide. This must have been Opening Day I guess. An' to see how it would do, The street commissioner wuz there An' the trust inspector too. But where wuz the mayor an' the "city dads"? They should have been given a ride On the big auto that hauls the rock. You know, when it took the slide. Or else on the farmer's road that wuz ditched. Unless they chose to sit high On the load of wood that the rancher feared He couldn't drive safely by. For the rain made slippery the sliding road. An' the ditches are deep as sin In place, an' should a team get scared They'd be traps to catch folks in. But the "hay steeds," they are a brainless lot, An' mighty ungrateful, beside, They're clamoring fer a wide, smooth rock road— Don't want your "toboggan slide," SAMANTHA OF CLACKAMAS COUNTY.

The Worth of Clothes.

The influence of clothes must continue to be, as it has been from the beginning of history, either "sacred or profane," a foremost factor in those forces by which man's destiny is guided. His health and comfort, aims and purposes, social standing and business prosperity. Everything, indeed, that makes his life worth living may be affected by it in directions never dreamed of by the tailor, who, if he does not actually make the man, is largely instrumental in making him what he is—Sarrotial Art Journal.

English Money Slang.

Slang names for money offer a bewildering variety. Henley and Farmer in their slang dictionary give twenty terms for money in general, most of them, such as "collander seeds," "oil of angels" and "king's pictures," being pretty well obsolete. The slang of specific sums is interesting. A sovereign has been known as a glistener, a gold-finch, a mouse trap, a remedy, a stranger and a new hat. The names for a shilling include blow, generalize, northeaster, Manchester sovereign and peg. A sixpence, now called in slang little else than a tanner, has been a tester, a tizzy, a lord of the manor, a bender and a cripple.—London Standard.

Physician's Duty Is to His Country

By Dr. ABRAHAM JACOBI of New York, President of the American Medical Association. A PHYSICIAN DOES RIGHT TO PLACE HIS BEST ENERGIES IN THE DUTIES OF HIS PROFESSION, BUT HIS REAL AND FOREMOST DUTY IS TO HIS COUNTRY. In the strain and hurry of the modern doctor's life he has little time left to take an INTEREST IN PUBLIC LIFE. But the time has come when we in the profession must express ourselves and ENTER INTO THE PUBLIC LIFE OF THE NATION. We should use our influence and knowledge when legislation is needed in the interest of the public health. Legislators lack the knowledge that some physicians have, and it is at this time that physicians should step in and offer the benefit of their knowledge. In this respect physicians should work for everything that in the broadest sense will MAKE FOR THE HEALTH OF THE NATION. I am interested and appreciative of the need of the reforesting of the open lands of the country. Physicians can aid in legislation which will bring this about.
