NEW YORK, Aug. 7.—The American Tobacco Company declared today a special cash dividend of 20 per cent on the common stock in addition to the regular quarterly dividend of 2 1/2 per cent. The company also announced a distribution of 12,000 shares of stock of the American Machinery and Foundry Company to stockholders of the American Tobacco Company.

The American Tobacco Company says that under the decree of disintegration ordered by the Government the company was required to dispose of certain securities, such disposition to be made before January 1, 1915. Of these securities the company says it has disposed of one-half of its holdings of British-American Tobacco Company (Limited), non-voting preference shares; practically one-half of its holdings of number A, ordinary shares of the Imperial Tobacco Company (Limited), and all of its holdings of the corporation of the United Cigar Stores bonds.

Our task now is to effect a great readjustment and get the forces of the whole people once more into play. We need no revolution; we need no excited change; we need only a new point of view and a new method and spirit of counsel. "The tariff question, as dealt with in our time at any rate, has not been business. It has been politics. Tariff schedules have been made up for the purpose of keeping as large a number as possible of the rich and influential manufacturers of the country in a good humor with the Republican party, which desired their constant financial support. The tariff has become a system of favors, which the phrasology of the schedule was often deliberately contrived to conceal. Who, when you come down to the hard facts of the matter, have been represented in recent years when our tariff schedules were being discussed and determined not on the floor of Congress, for that is not where they have been determined, but in the committee rooms and conferences? That is the heart of the whole affair. Will you, can you, bring the whole people into the partnership or not?"
