BULL MOOSE IN N. Y. NOMINATES STRAUS

SYRACUSE, N. Y., Sept. 6.—Oscar S. Straus, the New York millionaire merchant, was this afternoon nominated for governor of New York state by the Progressive convention here. The delegates stamped to Straus as a compromise candidate just when the vote was about to be taken.

Timothy Woodruff withdrew the name of William R. Prendergast, and Straus' nomination was made unanimous. State Chairman William Hotchkiss had also been placed in nomination, despite his personal objection. Straus, a famous philanthropist and diplomat, was nominated by acclamation. The convention stamped to Straus after it developed that the friction existing between the friends of Prendergast and Hotchkiss was so bitter that it might be carried into the campaign.

Progressive leaders assert that the nomination of Straus means certain victory for their party in New York.

MOVEMENT OF SPUDS CHECKED BY SUPPLY

There seems to be no hope of any immediate improvement in the potato trade. With a record crop on its hands and with California likewise showing a bumper, the Pacific northwest must wait for some time before it will secure a chance to move its stock to the outside.

Seemingly the railroads will not give the lower rate to the east that the trade here has asked for and this will limit the selling territory to that shown during normal seasons.

To some extent the Pacific Northwest will not enjoy even the territory it has been accustomed to sending supplies. With California in a position to undersell on account of its better selling facilities and the fact the large growers there are willing to feed the market at all times no matter what price is allowed, it is not likely that much business can be confirmed with the southwest until close to the end of the year.

The few carloads that are needed for the Alaska trade are a mere drop in the bucket compared with the supplies that are available.

With Seattle holding the bulk of this trade, it is not likely that much of the call will stray in this direction, because Yakima is closer and will, as a rule sell cheaper.

Modern Cannon.
 In modern high velocity cannon the pressure of the gases at the moment of firing generates tremendous heat. It is estimated that this heat runs as high as 8,000 degrees and even 9,000 degrees.

Time to Stop.

FOR THE BORDERED MUSLIN
 A bordered muslin frock has been selected for today's fashion hint. This is cut on a style which is almost universally becoming, most especially to slight figures. The border has been cut to form bretelles and the front of the bodice is crossed by a broad band of lace. The neck is filled by a tuck of batiste. There is a short sleeve of the bordered material and an under sleeve of lace. The skirt is made with a short tunic with the woven border on the bottom, the underskirt finished with a narrower band of the plain colored border and a band of lace above.

SPOUSES ARE SLAIN BY MAN AND WOMAN

SHREVEPORT, La., Sept. 6.—The execution of a double murder plot by which Mrs. C. C. Bailey, conspired to rid herself of her husband, a wealthy lumber mill owner, and A. L. Watson aimed to do away with his wife was revealed today by Sheriff Flournoy, who says he has the written confessions of both Watson and Mrs. Bailey both under arrest.

According to the confessions, the Sheriff says, Mrs. Watson was killed in a Texas town several months ago. Then Watson came to Metcalf, La., where Bailey operated a lumber mill, obtained employment, and was taken into the Bailey home as a member of the family. Bailey was murdered Monday night.

When Watson was arrested he first declared Bailey was slain by a burglar.

Hell, Hull and Halfax.
 Halifax, supposed to be the most wealthy and prosperous town in the north of England in proportion to size, formerly possessed a curious notoriety. A class of the "Thieves' Litaney" ran, "From Hell, Hull and Halfax deliver us!" This arose from the fact that Halifax at one time could inflict summary punishment upon anybody within a radius of nine miles who had committed a felony, especially by stealing cloth. The culprits were tried by a jury of four freeholders and if found guilty, as generally happened, were executed with a kind of guillotine at a spot still shown in Gibbet lane.—London Chronicle.
