EUGENICS IS BIG FEATURE OF FAIR

SALEM, OR., Sept. 6.—The eugenics and child welfare department of the state fair has been not only a center of attraction for parents and children, but has also proved a very practical necessity.

The general feeling among the fair officials, as well as those actively in charge of the eugenics and child welfare work seems to be that a permanent building will be necessary to take care of future exhibits.

N. Y. COMMISSIONER KNEW VICE FLOURISHED

NEW YORK, Sept. 6.—The relationship between Mayor Gaynor and the New York police department, the Mayor's attitude on the city's so-called vice and excise problems, and the extent to which the department followed his public declarations of his attitude formed the basis of a relentless cross-examination undergone by Police Commissioner Waldo today in the trial of Cornelius G. Hayes, former inspector, suspended on charges of making false statements during an interview on the Rosenthal murder reflecting on the Commissioner.

Rhineland Waldo New York's commissioner of police, was the first witness called to the stand today at the department trial. Douglas C. McKay, the first deputy commissioner presided, having overruled the contention of Hayes' lawyer that he was incompetent to preside because he had been subpoenaed as a witness.

"I am merely trying to prove that Mayor Gaynor's policy was one under which an unconquerable problem which had to be endured, but that the evil had to prevent a front of outward decency; that in the failure of Inspector Hayes to raid disorderly houses, he was merely reflecting this policy, and that any orders issued to him by Police Commissioner Waldo were directed in violation of that policy."

"He has never given me any instructions of that character in any form whatsoever," Commissioner Waldo replied. "As a matter of fact you didn't expect Hayes to raid disorderly houses within his district did you?"

CONVICTS WHO TRIED TO FLEE LASHED

JACKSON, Mich., Sept. 6.—Lash order carried out here today by prison guards on the convicts who figured in the recent state penitentiary revolt here. The rebellion of the prisoners is over, but the punishment of the ringleaders is still in progress.

Police reports this afternoon say that former convicts are gathering in groups on the streets here discussing the whipping of the prisoners who participated in the demonstration at the state prison against the food served. Hundreds of ex-convicts are in Jackson, and it is feared that some of those only recently released are planning an attack on the jail.

TEAMS THAT HAVE BRAINY PLAYERS

Heady Combinations in Big Leagues Not Strikingly Large.

THE CUBS ARE WELL FIXED.

Change Has at Least Six Real Smart Pill Handlers—Athletics Also Have Some Quick Thinkers—Two or Three Brainy Men Will Keep Team Up.

The proportion of smart ball players, whatever adjective serves best as a descriptive, is not strikingly large on the brainiest of combinations. Three, four or at the most five serve to carry a team along to a pennant if the mechanical ability also is there.

It is hard to draw the line between the real smart, the smart and the near smart.

Two or Three Enough. Two or three smart players in the infield and one behind the bat are a pretty good asset for any team.

Wagner, Clarke and Leach were a trio whose brains helped to keep the Pirates in many a race, whereas a conspicuously smart team were the old Orioles, with such leading lights of baseball intuition as McGraw, Jennings, Robinson, Kelley and Keeler, all quick, cogent thinkers.

Fifteen convicts were flogged today. Nine were whipped yesterday, three fainting from pain and loss of blood. The punishment will go on until all the men who participated in the rising are punished.

Club Has Woman For Official Scorer. The official scorer of the La Grande club in the Western Tri-state league is a woman. She is a real fan, knows the national pastime from the big gate to the flagpole and doesn't give a hang whether the suffragettes win or lose.

COUPLE GETS LICENSE A license to marry was issued Friday to Pearl Humphrey and Oren Metcalf.

An Effective Lecture. "Have a drink, old man?" "I've stopped. Every time I drink my wife gives me a lecture." "Have a smoke then?" "I've stopped smoking too. Same old lecture." "Why, you are completely reformed. Your wife ought to take that lecture on the professional circuit."—Louisville Courier-Journal.

WILSONVILLE.

An excellent report of Juvenile Fair held here last week has already been given a place in our county paper, a special reporter from The Enterprise office having been sent out by the management on the day of the fair.

It has been conceded that of the eleven districts taking part in the fair, the Corral Creek district carried off the most first prizes, Roy Baker taking several first prizes, as well as the sweep-stake on potatoes; James Say first on sweet corn; Lloyd Jones first on pop-corn; Claire Say, first on chickens; Anna Bataglia, first on bread and aprons; Eleanor Say, first on caps; Audrey Wood, first on fuscias. The Mothers Club of this district gave money to the boys of the school to buy seeds in the spring, and they have kept up a sewing class for the girls for the past year, under the splendid management of Miss Bettie Bataglia.

Wallace Young, of the Wilsonville district was awarded more prizes than any other one person in the local district, even his darning and mending being first-class, and showing Wallace to be a capable boy, who can raise splendid chickens and ducks, as well as attend to his own clothing in the matter of repairs.

The little Hasselbrink baby, who is a village favorite, won first prize in the baby show, much to the delight of his many friends.

Miss Kyle, of the Union district, carried off first prize on embroidery, and by so doing won the handsome hand painted china plate, artistically designed in pink chrysanthemums, the exquisite work of Mrs. Rand. The rose-bud display of Miss Myrtle Aden

for which she received first prize, was one of the special attractions at the fancy work booth. The beautiful center piece displayed by Martha Struve came in for many compliments, and she received second prize for embroidery work. Miss Martha is only 13 years of age and has already carried off many prizes at the Clackamas County fairs. The program given in the afternoon was a splendid one, and each number was loudly applauded, and a better program has never been surpassed in the county. Prof. W. W. Graham, who has just recently returned from Germany, delighted with the violin. The Misses Brobst rendered an instrumental quartette, Sherman Seely, Mrs. Joe Thornton, Miss Straw and Miss Willis rendered beautiful songs. George Bataglia gave a comic recitation and Miss Mary Brobst gave some splendid piano solos.

The addresses given in the afternoon by State Superintendent of Public Instruction L. R. Alderman, County Superintendent Gary, and Prof. Ressler, of the A. O. C., will long be remembered as sparkling with wit and practical suggestions for old and young alike. Mrs. M. C. STAFFORD.

It has been a wet week for hop pickers and hops, but still the work has gone steadily on, and the present week will see the most of the yards about here cleaned up. Mr. Fletcher was obliged to leave a full day picking on the vines, as he had the use of a neighbor's crew and baskets and the neighbor found his own hops could wait no longer.

Mr. Gebhardt's field hangs full, and as they are first year, or baby hops, they think it will pay to pick them, but they can stand a week longer, and it is hoped the weather will clear by that time. It brings quite a little money to the boys and girls.

We believe Clarence Widdle is the champion hop picker so far for his age, about 13 years old, and picks nine boxes and every box brings him a half a dollar.

In the absence of grown folks some children rang the phone for a long time, and they stopped just long enough to call in their childish voice, "Hello," then, "Goodbye" and ring

some more. Various persons told them to get down now, so they could talk, but they were having the time of their life and paid no attention. Beyond delaying some messages they did no harm.

The dog killer has been around and Baker's two valuable dogs were found by the roadside poisoned, and two others were missing, and a few weeks ago Harry Gebhardt's dog, which they valued very highly, came up missing. Mr. Baker thinks he has a pretty good clue and he may unearth something if he can follow it up.

Mark Baker's baby is slowly improving under the care of Dr. Vincent. It can move its hand and leg which were affected some, and the doctor held out hope of its complete recovery.

Evergreen blackberries are very plentiful.

Fruit in many orchards are going to waste.

Mr. Millem was out on Tuesday to see to some affairs and reports his wife as very low, with no prospect of being better. She is now confined to her bed. Her old friends receive the news with sadness.

The juvenile fairs at Oswego and Wilsonville were a revelation, and although hop picking kept many away whose contributions would have occupied space, it required a long time to judge, label them and deliver the prizes, which were varied and beautiful.

The supervisors deserve great credit for the able manner in which they handled the business committed to their care.

Mrs. M. C. Ward and son are home for a month's visit.

Single Tax advocates had better be careful how they talk to some of these old farmers who have had their crops spoiled by the rains or they might get a jaw slapped.
