RIENDS and admirers of the American victors in the Olympic games recently had an opportunity of viewing and cheering their heroes assembled in procession in the streets of New York. The athletes rode in automobiles, two and three in a car, and each car bore in large letters the names of its occupants, so that the crowd might cheer and know whom it was cheering-a piece of thoughtfulness on the part of the management which was probably not appreciated by thousands of young Americans who knew the faces of the winners by heart. Of course the mayor reviewed the parade (the illustration shows him shaking hands with James Thorpe, the Indian who carried off the prize for all round athletic prowess), and tens of thousands of grownups watched its progress down the city's great show thoroughfare, but the spectators to whom it meant most were the schoolboys, lined up by schools along the curb, who on that occasion saw more of their ideals in the fiesh than they ever had seen before or are likely to see again.

This Country Will Never Find Cure For High Prices By Dr. E. E. PRATT, Government Statistician

HE PRESENT SYSTEM OF SUPPLYING THE COMMUNITY WITH FOOD IS UNSYSTEMATIC AND LARGELY WASTE-

The fault which I have to find with our present system of marketing is not due especially to the RAPACITY or DISHON-ESTY of any GROUP OF MEN. There is no one group of DIS-TRIBUTERS, even of food products, who are getting ESPECIAL-LY RICH at the expense of the CONSUMER. The difficulty with the PRESENT SYSTEM is simply that it is an OBSOLETE, UN-ECONOMICAL and WASTEFUL ARRANGEMENT of FA-CILITIES for marketing food products.

THE MIDDLEMAN HIMSELF IS AS MUCH A VICTIM OF THE SYSTEM AS IS THE CONSUMER. A REMEDY FOR HIGH PRICES \$48.00; Shay Brook dairy feed \$1.30 WILL PROBABLY NEVER BE FOUND IN THIS COUNTRY.

For any considerable period of time we may look forward to a PERIOD of CONTINUED HIGH PRICES. This fact should make and is making us more careful about our METHODS of DO-ING BUSINESS and should lead us to ELIMINATE as much WASTE and INEFFICIENCY in our METHODS OF PRO-DUCTION and MARKETING as is POSSIBLE.

Word Fashions. The history of the word asparagus shows how, even in the days of dictionaries, word fashions change. In the eighteenth century, even in elegant usage, the delicacy was regularly called "sparrow grass." A dictionary of 1791 says that "sparrow grass" is now so general that "asparagus" has an air of stiffness and pedantry. "Sperage" had been the usual English form in the sixteenth century, but in the seventeenth herbalists brought back the original Greek and Latin spelling "asparagus." Pepys varies between "sparrow grass," "sparagus" and "sparague." No doubt the eighteenth century relapse was the last, and the "a" is back for good now.
