TRAMP ABUSES GIRL WHO GAVE HIM FOOD

A tramp, dressed in overalls, dark coat and wearing a light colored hat, appeared at a home on Fourth and High Streets Friday afternoon, and asked a young girl for something to eat. Shaw made a thorough search for the man, even going to Canemah, when told by special policeman Bradley that he had driven a man from town answering that description.

**The Bishop's Walk.**  
The late Bishop Sheepsheads once walked from India into Russia and, curiously, had nothing to tell about his extraordinary journey. Some time ago it was mentioned in a conversation. The correspondent remarked to him that it must have been a very interesting experience, and could he tell him anything about it. "No, no," he said in his vigorous, casual way, "nothing interesting. A great deal of open country, quite uncultivated. I was a young man at that time and thought it would be rather a good plan to come back from India that way. I thought I would walk it—not often done. Good old English exercise, you know—heel and toe."—Manchester Guardian.

**Caring For the Teeth.**  
Without good teeth there cannot be thorough mastication. Without thorough mastication there cannot be perfect digestion, and consequently poor health results; hence the paramount importance of sound teeth. Clean teeth do not decay. The teeth should not be brushed from side to side. If this is done the points of the gums will be injured and the teeth loosened. The upper teeth should be brushed from the top downward (from the gums to the ends of the teeth), the lower teeth from the bottom upward, also from the gums to the extremity of the teeth. It is essential to wash the teeth at night and wise to wash them also in the morning. Rinse the mouth after each meal.

**Forgot Himself.**  
She—My husband is a brute.  
Friend—All men are brutes, dear.  
She—Mine is simply abominable! I asked him if he did not think you as pretty as I, and he said "Yes."—New York Weekly.

ARRANGEMENTS FOR RIBBON AND A NEW CUIRASS

On the figure is one of the smart dress accessories brought out by the season's demand for dainty tunics to be worn with plain frocks. The result is wonderful and makes possible the use of the gown for many occasions. The cuirass of ribbon and lace fastens at the shoulder, the back being almost identical with the front. On the left is shown a smart arrangement of flowered taffeta ribbon for a lingerie frock. On the right a graceful manipulation of broad black velvet ribbon is shown. The flowered ribbon on the left is tied at the back, the black velvet bow is placed to the left of the front.

"THE HAIRS OF YOUR HEAD ARE NUMBERED"

There is a great deal of truth in the old saying:  
Roots die, vitality gives out. The hair begins to turn grey.  
This is particularly unfortunate as we are all living in an age when to LOOK young means to fill the YOUNG and IMPORTANT positions. Old foggies go to the background. If you should begin to chalk down every day of your life, the exact number of hairs that turn grey, you would be surprised and soon learn that "The Grey Hairs of Premature Old Age" come on very quickly, if you neglect them.  
Begin to count, and Use—
