U'REN VS. STARKWEATHER OREGON CITY, Sept. 16 .- (To the

Editor)-Mr. Starkweather's letter sonal history is not an argument against single tax. Of course, he made every possible effort to dodge money for rent every year without work, nearly four times over, than he

ever earned by useful labor. But Mr. Starkweather has another think coming about the Graduated

Single Tax Amendment. A part of that amendment was prepared expressly to catch his particular kind of tax dodgers. The Graduated Tax is a specific tax levied against owners because they own certain aggregate values, and cannot be shifted on to the tenants. If he is willing to pay his share of the taxes of Clackamas County, why is he so anxious to make his tenants pay his taxes in Portland? Isn't it funny that Mr. Starkweather will hire lawyers and make such an effort to dodge taxes on his property, and yet seem to really to believe that working farmers and other useful citizens would be ruined if the law should exempt their improvements and personal property from taxes? He is an educated man and if he had any truth or justice on his side he would not waste time calling names. As to

the word "parasite" it would seem to me that the man who lives on the labor of others and gives no service of any kind in return is very near to being within the dictionary definition National Contest to Be Held In Pittsof that word. The trouble with Mr. Starkweather and all of his class is that they know that they would have
