PRESIDENT TAFT FAVORS BUDGET

EXECUTIVE DIRECTS HEADS OF DEPARTMENTS TO MAKE ESTIMATES

LETTER TO MAC VEAGH EXPLAINS

United States Only Great Country That Does Not Have Budget—People are Left to Judge

BEVERLY, Mass., Sept. 19.—President Taft tonight made public a letter to Secretary of the Treasury MacVeagh, taking open issue with Congress on the question of a Federal budget and directing all heads of Government departments to make their estimates of revenue and expenditures for the fiscal year in conformity with the budget plan.

The President's letter to Mr. MacVeagh said the clause in one of the big supply bills passed by Congress in the closing hours of the last session, practically forbidding the use of a budget system, was unconstitutional.

"If the President is to assume responsibility for either the manner in which business of the Government is transacted or results obtained," the President writes to Secretary MacVeagh, "it is evident that he cannot be limited by Congress to such information as that branch may think sufficient for its purposes. In my opinion it is entirely competent for the President to submit to Congress and to the country a statement of resources, obligations, revenues, expenditures and estimates in the form he deems advisable. And this power I propose to exercise.

"The United States is the only great country that does not have a budget. Each year the Congress has been making increasingly large appropriations, based on estimates which are submitted by officers acting in the capacity of ministerial agents to Congress, under a law which makes no provisions whatever for executive review and revision. This I have sought in a measure to correct by asking the heads of departments to send estimates to me before they are printed, but the conditions attached by Congress have been such as to make executive review impossible.

Charles Evans Hughes, Associate Justice of the Supreme Court of the United States.

10 MILES IS THE LIMIT IN THE CITY

Telephone Companies Must Remove Poles On Part of Main Street to be Improved

The City Council Thursday evening adopted a resolution regulating automobile traffic in Oregon City. The resolution provides that automobiles shall not be operated in the city at a greater rate of speed than ten miles an hour, and that at night they must have lamps in front and the rear and on both sides. The night policemen were instructed by the mayor immediately after the meeting to see that the resolution is enforced.

An ordinance providing for the construction of concrete sidewalks was amended so that Clackamas sand and gravel may be used in making them. A resolution providing that the Telephone Companies be instructed to move poles from Main Street between Moss Street and the Abernethy bridge, was adopted. The council is desirous that all unsightly poles be moved from Main Street. The companies will have to place their wires other streets or put them under ground on the main thoroughfare.

J. E. Hedges and Livy Stipp, representing the Live Wires, reported that the bonded indebtedness of the city under the charter had reached the limit, \$50,000. They asked that the council take steps to have the matter of issuing liquidating bonds voted upon at the next election. The motion was referred to the committee on finance. W. S. U'Ren, representing Joseph Meyers, said that the proposed street improvements in front of Meyer's property would do him a great injustice. The street committee will make an investigation.
