Where will the state get this "state aid" fund? Won't it come from the counties and will it gain anything in strength and value by being passed over to the state? But you say that cities, especially Portland, should help build the county roads, and that Portland pays one-third of the state The state aid bill places onethird of the fund in the hands of the Highway Commission and the "Cow Countles" are left to furnish their own state aid. Most cities have quite a bond proposition and tax for street improvement of their own to look after and if they will permit us to locate our county roads we will not interfere with them in the improvement of their streets.

It is the intention that this fund of \$300,000 that is placed in the hands of the Highway Commission plying cold cream, over which is put shall be used in the construction of a generous coating of powder. Some of the best legal authorities as well as the best authorities on road construction have approved the Grange plan of selecting roads and expending the road With all that he must have backbone and a real desire not only to funds. The Boulevard Boosters and the farmer cannot harmonize on these two points, therefore we must leave it for the voters to decide which plan will render the greatest good to the greatest number.

The Grange Road Bills are printed in the State Pamphlet, pages 91 to 101. Their official numbers are 324 and 326. We earnestly solicit a careful study of them and a comparison with the Harmony Bills.

Two Striking Scenes In New York's Labor Day Procession

Photos by American Press Association.

ABOR'S annual parade in New York was chiefly noteworthy for the large part taken by strikers. The union which was most largely represented was that of the workers in fur, 9,000 of whom were on strike. The sand and excavation teamsters, also strikers, displayed many banners with such mottos as "No Sunday Work Without Pay" and "Shorter Hours and a Living Wage." Many women were in the procession, which numbered about 20,000 Two who attracted much notice were the cornetists of one of the bands, pictured in the lower of the two illustrations. The upper shows the head of the furriers division, with one of the banners expressing sympathy vitb the strikers and pledging assistance.
