

**Is This Your Kitchen**

Kitchens with Favorite ranges are always pleasant kitchens. The housewife seems more content and happy; her work is shorter and not nearly so hard, and her baking always comes out perfect.

How about you and your kitchen? Does everything always go off as smoothly and easily as it might? Do you look forward with dread to the time of preparing the next meal? Are you always sure that an appetizing, finely cooked meal will await your husband when he comes home?

With a Favorite Range in your home you will first be surprised how easily and quickly every little detail of the cooking seems to take care of itself.

You never have to look at your baking every few moments to see if it is scorching on one side and unchanged on the other. **FOR EVERY FAVORITE BAKES EVENLY IN EVERY PART OF THE OVEN**

You don't have to sit down and wait wearily for the oven to heat, either. Favorite ovens heat quicker than any other. With less fuel, too.

Why are Favorites so superior to any other ranges? It's all in the way they are made. The best of materials, the best of workmanship, the longest experience, all are combined to produce Favorite Ranges.

**"SPEAK OUT! SPEAK OUT!"**

Democratic Stomachs Revolt Against Wilson-Marshall Misch.

"Speak out! Speak out!" is the almost desperate cry of the New York World, the newspaper chiefly responsible for the nomination of Woodrow Wilson in 1912, as it was for the nomination of Alton B. Parker in 1904. Day after day, it seems, the World has been waiting with ears to the windward for some point, some virile, vital expression from its latest presidential jack out of the box on questions of the hour, some solid positive utterance by the candidate, which it could grab and lay about with as a campaign shillelah. It has waited in vain. Rounded periods of dreary drivel, pedagogical common-places that might have come out of a third reader and which had about as much relation to issues of the campaign as "It is a sin to steal a pin" has to Metropolitan opera, have been fed to curious crowds and to editors waiting with whetted pens for red hot meteors of inspiration.

Disappointment and disgust are not confined to the World office. "We asked you for bread and you gave us a stone" is paraphrased in Democratic sentiment by "We asked you for meat and you gave us mush." Nauseated with Wilson they turned to Marshall only to find him as apertent of vacuous platitudes as his conditor.

It's a hopeless appeal. As well try to seize the elusive tail of a greased pig at a county fair as expect to get anything definite out of Wilson. He was definite enough when he said in his "History of the American People" that "the Chinese are more to be desired as workmen, if not as citizens," than "the coarse crew crowding in at eastern ports"—that is, immigrants from Europe. He was definite enough in saying in the same book that congress had "dealt very harshly" in passing the law excluding Chinese from the United States. He was definite enough in denouncing immigrants from Poland, Hungary and Italy.

Evidently Wilson can speak out if he wants to, and the inference is that he is afraid to. On the issue of a navy powerful enough to defend the interests and uphold the honor of the United States he is silent for fear of offending the Democratic majority in congress opposed to strengthening the navy. On the tariff he is, to quote an old comparison, "neither a man, nor a mouse, nor a long tailed rat," but more like one of these ancient Egyptian monstrosities carved on the mummy cases, with heads looking contrarily. On one point he is definite—he wants to be president, and he doesn't care much how he gets there. He is willing to sash through a sea of boob to the White House, and now that he has the nomination he counts upon the world and the rest of the whang doodles to follow, whether they like his style or not.

Perhaps they will, notwithstanding grimaces of disgust and protesting cries to speak out.

But the people—they want a man for president.

**Being a Woman.**

Whatever else the suffragettes have done they have made many of us heartily weary of being women. Every one is talking about us; no one is content to leave us alone. Some solution of the "woman question" is an ingredient in every panacea offered to the contemporary world. We are praised for qualities we are ashamed of having and blamed for things we never did. It is really no wonder that we long for our "rights"; we are so used to being put off with either injustice or mercy. Even the presidential campaign, as it turns out, does not leave us quite out of the limelight. It must be very easy, in comparison, to be a man. A man may have duties as a citizen, as a husband, as a father, but no one particularizes his duties as a mere male. Being a woman, on the contrary, has apparently a code of its own, and women of entirely different races, temperaments and circumstances must somehow agree upon it. Some of us who are busy living up to our personal fates would cravenly beg the Zeit-Geist to take care of it all. But that, we are told, is the unpardonable Laodicean sin.—Atlantic.

**Perfumery Cakes.**

Although not new, there is an increasing demand for the cakes of perfumery. These solid blocks of pressed sachet are very easy to use and the fragrance is decidedly more lasting, as the attars are not distilled by alcohol, as is the case with the liquid extracts. It is said that each block contains as much floral essence as you would find in a quart of the liquid perfume. When the odor becomes faint all that is necessary is to scrape off a little of the wax, thus exposing a new perfume surface. There are various odors which have been cordoned in a solid in this way—the ever popular violet, the heliotrope, lilac, rose, carnation, coryopsis, lavender and sandalwood. Each cake is inclosed in a little neat looking box, suggesting leather, and the price is very reasonable.
