

### Invitation to the Ladies

A great many men ask the advise of the ladies on good clothes for as a rule ladies have good taste for nifty patterns and fine tailoring; for this reason we cordially invite the ladies to inspect our large stock of men, young men and boys clothing. We will gladly show you all the new patterns and styles that we carry. We buy carefully and only from the manufacturers that guarantee their merchandise to us, that we can faithfully stand back of every garment sold. After looking over our large clothing department you can go home and tell the men folks where to buy clothes that have style, fine tailoring and rightly priced. He will find his way here. See our great suit value for

\$15.00

Oregon City's Leading Clothier

Encouraging.

**He Certainly Had Nerve.**  
The man is considerable of a bore. He was calling on a girl the other night and had stayed so long that she was somewhat fatigued. About midnight he began to talk about his health. "I'm not well," he said; "it's just my nerve that is keeping me up."  
She couldn't resist the temptation. "That's what's keeping me up, too," she said.  
A few minutes later he said he guessed he'd have to go.—New York Telegraph.

**Ancient Cups.**  
The cups of the Assyrians closely resembled our saucers. Every nobleman and gentleman had his own cup and cup bearer, the latter of whom always accompanied him to a feast, carrying before him the cup of gold, silver, crystal or marble, which his master used only on state occasions. Saucers for cups were introduced in the latter part of the eighteenth century and at first were greatly ridiculed, the persons who employed them being said not to be able to drink with out having two cups.

**Mileage of the Blood.**  
The mileage of the blood circulation reveals some astounding facts in our personal history. Thus it has been calculated that, assuming the heart to beat sixty-nine times a minute at ordinary heart pressure, the blood goes at the rate of 207 yards in the minute, or seven miles per hour, 108 miles per day and 6,320 miles per year. If a man of eighty-four years of age could have one single blood corpuscle floating in his blood all his life it would have traveled in that same time 5,150,908 miles.

**Sparring for an Opening.**  
Guest (after struggling unavailingly for some time with fowl)—Walter, what kind of a bird is this?  
"Canvassack duck, sir."  
"No wonder I couldn't do anything with it. Run and get me the scissors."

**THE OSTEOPATHIC PRIMER.**  
A Third Cause of Disease—Disturbed Blood Flow.

It is an osteopathic axiom that a disturbed blood flow anywhere in the body is sure to set up disease. The circulation of the blood and lymph is subject to the same obstructions and blockades by pressures as the nerves for these delicate structures travel together through these little spinal openings, through the muscles and fascias, through the hinge-like joints of the extremities, etc. What will encroach upon one will likewise pinch another.

Certain nerves, the vasomotors, also regulate the blood flow throughout the body, sending more blood to the place where it is needed by increased functioning (as when the stomach is digesting food) and withholding it from structures and organs not then so active (where fuel and power are less needed). Nerves are suffering irritation from pressures may completely upset this automatic regulation of blood throughout the organs, and to do this is to set up disease. The organ suffering from anema (too little blood) is starved, and the organ given too much blood is congested, and both states prevent that organ performing its natural functions for the benefit of the rest of the body.

"A chain is only as strong as its weakest link." This is equivalent to saying that under strains it is the weakest link that breaks. So in health matters. Where a strain is put upon any part of the system it is the weakest organ that suffers most that seems to pay the penalty of the whole disturbance.  
If the stomach happens to be weak, systems of distress will develop promptly in that organ, yet may not appear in any other structure subjected to the same amount of congestion.—Osteopathic Health.  
(To be continued.)

### YOUNG MEN

For Gonorrhoea and Gleet get Pabst's Okay Specific. It is the ONLY medicine which will cure each and every case. NO CASE known. It has ever failed to cure, no matter how serious or how long standing. ### YOUNG MAN DIES OF MINER'S TUBERCULOSIS

The funeral of Louis Harvey Smith who died at the home of his sister, Mrs. Pearl Armstrong, of Fifth and Water Streets, Saturday morning, was held in this city Monday afternoon at 2 o'clock at the Holman undertaking parlors, Rev. T. B. Ford, pastor of the M. E. church officiating. The services were largely attended and the floral offerings were beautiful. The interment was in Mountain View cemetery. Mr. Smith was a member of the Knights and Ladies of Security Lodge No. 699 of Webb City, Mo., the members of the local order attending in a body.

Louis Smith was born in Missouri where he lived until last March, when he came to Oregon City for the benefit of his health. He contracted miner's tuberculosis while employed in the mines. He was born July 16, 1888.

Although Mr. Smith had lived in this city but a short time he had many friends. He is survived by his parents, three brothers, Robert and Chester, of Ritchey, Mo., and William Smith, of Oregon City, three sisters, Mrs. Pearl Armstrong, of this city, and the Misses May and Ruby, of Ritchey, Mo.  
Mr. Smith was a member of the Ritchey Presbyterian church, having become a member of the denomination when fourteen years of age.

**The Downward Path.**  
An American traveler returned from rural England brought over a refreshing bit of theory regarding the modern sliding scale of class distinction.

His part of the country, an old man explained to the American, had gone to the dogs through the "flattery" of well meaning folk, which was best illustrated by the changing manner toward farmers' wives.

"When 'twere 'dame' and 'porridge' it were rare good times," the old fellow enlarged; "when 'twere 'mistress' and 'broth' 'twere worse a great deal, but when it come to 'ma'am' and 'soup' it were werry bad indeed."—Youth's Companion.
