TAFT SHOULD BE RE-ELECTED.

The country at the present time is enjoying unparalleled prosperity. The mills, mines and factories are running full time, and in practically every line of industry there is work for every man who is willing to work. The great railroad systems, the arteries of trade in the country, are handling more traffic than they ever did in their history. Commerce is thriving and the farmer, the mechanic and the laboring man are all being well paid for their work. We are just on the eve of the greatest wave of prosperity that the country has experienced in fifteen years. Do we want to check that wave or allow it to spread throughout the land? It is up to the voters to decide Nov. 5. The administration of President Taft has been one of real constructive statesmanship. He has not shouted reform from the housetops to attract the attention of the people, but he

Good Reading Is as Necessary as Good Food

By DANIEL BATCHELLOR of Philadelphia

NOURISHMENT FOR THE MIND IS AS NECESSARY AS FOR THE BODY, AND JUST AS THE BODY, WHEN IT IS DEPRIVED OF PROPER NOURISHMENT, HAS A TENDENCY TO SEIZE THAT WHICH COMES TO HAND FIRST, SO THE NEGLECTED MIND WILL BECOME THE PREY OF WHATEVER FRIVOLOUS AND DEBASING LITERATURE PRESENTS ITSELF.

The dangers accruing through the reading of IMPROPER LITERATURE CANNOT BE TOO STRONGLY GUARDED AGAINST, especially where our children are concerned.

Although it is true that the sale of such literature is prohibited by the government, nevertheless there is much that is not illegal that is also harmful.

The value of good reading cannot be properly realized. It brings the reader into contact with the best developed minds of every age and makes him SYMPATHIZE WITH THOSE MINDS IN THEIR HIGHEST MOMENTS OF INSPIRATION, and the greatest literary effort of all times is the BIBLE. From it writers have derived much of their inspiration, and we cannot properly appreciate them if we are ignorant of the source from which they derive their inspiration.

has earnestly worked to correct abuses in the body politic, and what is more to the point, he has done so.

In spite of the popular clamor in certain directions, President Taft has stood firmly by his convictions on the question of tariff reform, that is, that there should be a gradual revision downward after we have full and accurate information on the subject. He has stood for scientific revision after experts have studied the subject and made recommendations.

This country knows what tariff revision means by the old methods. It means chaos in the business world and that means lack of employment, low wages and hard times for the great mass of the workers in the country.

The country is just beginning to reap the benefits of the wise and constructive administration of President Taft. When he took up the reins of government business was in a chaotic condition. We were just emerging from the panic of 1907, the "rich man's panic." We may call it what we choose, but it was the poor man, as always, who felt it most serious effects.

It took three years of patient work to repair the damage to the country done by that panic and now that the damage has been repaired, do we want to plunge the country into another which probably would be much worse? We do not believe that the great mass of the workmen of the country desire such a condition.

What has President Taft done for the workers during his administration? Ask the railroad brotherhoods interested in the passage of safety appliance laws and employer's liability and workmen's compensation legislation on interstate railroads. Ask the thousands who are benefited by the passage of the eight-hour law amendments. Ask the reform associations which for years have urged the creation of a children's bureau to study child life in the country, and which bureau is now in operation. Ask the coal miners of the country who have suffered so terribly from mine disasters and who are now, thanks to President Taft, protected by a federal bureau of mining.

President Taft has been maligned by the demagogue and spellbinder who appeals to the galleries and to the emotions rather than to the common sense of the multitude. Through it all he has maintained that cheerful smile and equable temperament which has made him notable among statesmen. He has attended to the work of the nation, patiently building up what others had torn down and restoring the business of the country to a solid basis.

Do we want to see all the splendid work done by President Taft undone in the next four years? We most assuredly do not, and that is why the thinking men of the country are with President Taft for re-election. It is not the loud, blarneying shouter who accomplishes real work in this world. It is the quiet constructive man who grapples with the problems in the privacy of his study and works out their solution with care and caution

and applies the remedy with courage and fortitude. That is what President Taft has done, and that is why he should be re-elected on November 5 to continue the prosperity which he has given the country.

UNDER THE PRIMARY LAW.

Ben Selling received the Republican nomination for United States Senator in a fair and square contest under the direct primary law. Senator Bourne was defeated fairly and squarely in the same election. Are the voters going to sustain the direct primary by supporting Selling, the direct primary nominee, or will they give their support to Bourne and repudiate the law? Oregon voters will not be parties to any such proscription of this fundamental law of the Oregon system. They should accept the result of the primary nominating election and vote for Selling, who actively participated in preparing and enacting all legislation which has secured to Oregon its present system of popular government.

FORUM OF THE PEOPLE

WEST'S ACTION INDORSED.

OREGON CITY, Oct. 19.—(Morning Enterprise)—In your report of the October session of Clackamas county District Pomona Grange in session at Molalla No. 310 hall, you said the Grange "approved the efforts of Governor West in trying to purify Portland, but the methods employed by him were not satisfactory to many of the members." West in endeavoring to better the condition of humanity in high and low places, and that we earnestly hope much good may come of the Governor's endeavor." Ford, pastor of the First Methodist church, this evening. Dr. Ford heard the testimony before the jury summoned by Coroner Wilson, and says he believes that preachers, as well as police officers, and courts of criminal and juvenile jurisdiction, have a duty to the public under such circumstances. Parents and young people are urged to hear the sermon.

Bobbing For Apples.

In bobbing for apples the hands of the contestants are tied behind them. In the heart of each apple a name may be placed, carefully incased in tin foil. Each player draws two apples with his teeth from the tub of water in which they are floating. The apples should be without stems. If you do not care to go to the trouble of putting a name in the apple, cut an initial in the skin.

Halloween! Halloween! Pumpkin heads are all aghast. Goblins yellow at a fellow. In a row, a silly sight. Thought I saw a witch or two. Pass the window. Didn't you? Fairies must be out no doubt. 'Tis the wonder night!
