Punishments in Early Days.

The following extracts from early records give us a glimpse of some of the singular punishments in vogue in old New England:

"In 1639 Dorothy Brown, for beating her husband, is ordered to be bound and chained to a post."

"In 1643 the assistants order three Stoneham men to sit in the stocks on lecture day for traveling on the Sabbath."

"In 1651 Anna, wife of George Ellis, was sentenced to be publicly whipped for reproaching the magistrates."

"In 1658, for slandering the elders, she had a cleft stick put on her tongue for half an hour."

A Hearty Laugh.

Never lose an opportunity for relaxation from the stress and strain of your business or profession. Every draft of laughter, like an air cushion, eases you over the jolts and the hard places on life's highway. Laughter is always healthy. It tends to bring every abnormal condition back to the normal. It is a panacea for heartaches, for life's bruises. It is a life prolonger. People who laugh heartily keep themselves in physical and mental harmony and are likely to live longer than those who take life too seriously.

Agreed With Her.

After an all night session with the boys a husband wended his way home, arriving there at about 5 a. m. He found his wife waiting for him in the dining room, the confusion of furniture indicating that she had been having an unhappy time.

"This is a nice time for you to be coming home!" snapped the wife.

"Yes," admitted the erring husband; "it's a lovely morning."

"I haven't slept a wink this blessed night!" with a severe look.

"Neither have I," said the husband.

WHEAT AND HOP MARKETS QUIET

Neither exporters nor millers are doing much in the wheat market. The tendency of the European wheat markets is weak.

The hop market is dull, growers realizing that it would not be wise to force their hops on the market now, and are holding back.

The demand for Oregon eggs is slow at the high prices quoted. The warm weather and the presence of eastern eggs at a lower price is responsible. The Oregon eggs are bringing a retail price of 40 cents a dozen, while the eastern eggs are bringing 35 cents a dozen.

LIVE WIRES URGE FAST WORK ON MAIN STREET

At a luncheon of the Live Wires Tuesday attention was called to the condition of Main Street, between Moss and the Abernethy which is to be resurfaced. A committee of which G. B. Dimick is chairman, was appointed to urge the contractors to finish the work as soon as possible.

Judge T. F. Ryan, formerly a resident of this city, delivered an interesting address. Judge Ryan approved the work of the Live Wires and commended the organization for its loyalty to the county and state and the good work it is accomplishing.

B. T. McBain, president of the Commercial Club, spoke of his trip through the East. He declared that he found no more prosperous section in the country than Oregon City and Clackamas County. He declared that this was the best mill town in the United States.

E. E. Bradie, secretary of the committee appointed to combat county division, reported that \$990 had been spent and that more than 60,000 circulars and cards had been distributed. Advertisements, he said, had been inserted in papers throughout the state. Mr. Bradie predicted the defeat of the measure to divide the county.

M. D. Latourette, chairman of the committee on Pacific Highway, reported that Frank B. Riley would meet the board of governors of the Commercial Club to urge that all members of the club become members of the Pacific Highway Association. It is probable that the meeting will be held the first Monday in December.

The menu at the luncheon was as follows:

Official Ballot
Roast Spring Chicken
Bull Moose Gravy
Refined Butter
Single Tax Jellies
Shredded Irish Potatoes
Brown Sweet Potatoes
Majority Rule Rolls
Grange Bill Butter
Lettuce and Pimento Salad
Taft Apple Pie (Whipped Cream)
Woodrow Coffee

TURKS ARE CUT OFF FROM WATER SUPPLY

LONDON, Nov. 5.—The water supply of Constantinople was cut off today by a large Bulgarian force which occupied Darikas at the end of the line of Tehtaltia, from which point the aqueduct supplying the Turkish capital starts according to a news agency dispatch from Sofia.

The great powers of Europe are aligning themselves on either side of a very sharp line regarding the future of the Balkan states. Public opinion in England, France and Russia is that the allies should have the territory which they have conquered, and Russia, particularly, has warned Turkey that conditions could only become worse should further disaster occur at Tehtaltia.

On the other side are Austria-Hungary, Germany and Italy. Austria-Hungary, which after all is the most directly interested, being the nearest neighbor to the Balkan States, will not, it is believed, sit quietly by and see the Balkan League establish itself across her path to the Aegean Sea, in which direction her trade is expanding, while at the same time the Servians spread to the Adriatic Sea. The Austrian government points out that the Albanians are as much a nation as any of the allies, and that Albania should be served for the Albanians.

The first sign of dissension among the Balkan allies themselves comes in a dispatch from Belgrade, in which it is said the Servians are beginning to declare that the "autonomous Albania" which was agreed upon before the war started, has now faded away. In a dispatch the Mussulman Albanians who fought against the Servian troops are blamed for the change in the Servian attitude.

Instead of the 20-mile stretch of the Adriatic coast hitherto claimed by Servia, the same dispatch says that Servia now wants 60 miles, and that in return Montenegro is to get more than her allotment of the district of Novipazar.

The correspondent adds significantly:

"The Emperor of Russia will be taken as an arbitrator between Servia and Bulgaria in regard to these contests, which were not foreseen in the original agreement between the allies."

In the meantime the Bulgarian troops in the vicinity of Tchoru are preparing to resume their advance on Tehtaltia. After four nights and four days of continuous fighting around Lule Burgas, the Bulgarian soldiers were given two days' rest. This period expired today and the troops by this time probably are again on the move.

The Bulgarian army near Tchoru is being reinforced with troops taken from the investing forces around Adrianople, whose places in turn have been taken by Servians.

A second Bulgarian army commanded by General Kutitcheff, is marching along the coast of the sea of Marmora to effect a junction with the Bulgarian army commanded by General Dimitrieff at Tehtaltia.

To get on the move quickly, the Bulgarian troops have worked hard, as they have thousands of wounded Turks and Bulgarians to take care of and have had to burn or bury a large number of killed.

It is stated officially in a dispatch from Belgrade, that the Servians, having annihilated the Turkish army in Macedonia, have been ordered to assist the Bulgarians, Greeks and Montenegrins.

One of the Sights of Kiel.

Kiel possesses a sight which no visitor should miss. On the lawn outside the yacht club stands a statue of Alfred Krupp—frock coated, bareheaded, his hair most accurately brushed and parted and holding a top hat and walking stick in his right hand. In the opinion of many critics this is the most grotesque public monument in Europe.

Heart to Heart Talks.

By EDWIN A. NYE.

THE FATHER OF A FLOWER.

Of all the flowers of earth what is choicer than the American Beauty rose?

But—

Do you know the man who created that beautiful thing is a lonely, disappointed, hopeless old man who has scarcely details to lay his head?

Specific details are lacking, but it is known that because of lack of money to promote the culture of the Beauty and to exploit it others stepped in and reaped the fruits. Tens of thousands were made, of which the original grower got none.

Today the bent and shabby father of the flower walks the streets of Washington seeking an occasional job from some prosperous florist who knows his history or goes hungry.

Meantime his rose riots in every conservatory over the earth.

He is a gentle old man of refined tastes, quiet ways and sensitive nature. And it is characteristic of him that he should refuse to touch or care for an American Beauty.

The gorgeous bloom is not for him. Though he dreamed it into being, it serves only to remind him of a life's disappointment and the ingratitude of mankind. It is—to him—as if the thing created had turned away from its creator.

And so—

While his flower flourishes everywhere in the gardens, adorns the bosoms of countless happy brides, cheers the bedside or lifts its blushing face in the midst of luxury and love and laughter, its shabby old maker goes about desolate and forgotten.

It is the way of life.

True it is, but shameful!

Shameful it has always been that genius should have to climb other men's stairs for its meager fare; shameful that "Paradise Lost" should go for a few pounds and that Edgar Allan Poe in his penury should get but \$10 for "The Raven."

True, and shameful, that the creator, the discoverer, the inventor, the maker of worth or beauty should be cheated of the pay for labors.

We live and enjoy because of somebody's suffering and sacrifice.

We owe infinitely more than we can ever repay.

We remain forgetfully in the use and relish of a thousand things which have cost us nothing.

And who of us, when he is dead, shall have given to the world a heritage of perpetual beauty such as this poor old gardener of Washington?

COUNTY'S BOOKS ARE WELL KEPT

REPORTS OF CARELESSNESS ON PART OF OFFICIALS IS DENIED

ACCOUNTANT MAKES SUGGESTIONS

County Court Turns Down Bill Which Was Presented Second Time—Cement Sacks Returned for Rebate

William Whitfield & Co., accountants and auditors, of Portland, after an examination of the books of the county officers of Clackamas County, have suggested that more modern methods should be employed. The report states that the sheriff's office has collected fees that have not been entered in the fee book or turned over to the county. County Judge Beattie admits this to be true, but only in case of mileage for deputy sheriffs. In cases where the mileage amounts to more than that allowed by law the lawyers in the case make up the deficit which is turned over to the deputy sheriff. The money goes to him directly instead of being paid out by the sheriff. Judge Beattie says the system has always been in vogue here, and has been a means of saving the county money. There is no intention of changing it it is reported.

It is denied that it is impossible to obtain the financial condition of the county, as stated in the report. Regarding the building of roads, Judge Beattie, who is a member of the county court, denies the charge that there is no record relative to the disposal of road material. The report suggests that the practice of making road warrants payable to "bearer" be discontinued. Judge Beattie declares that the road supervisors keep a record of all tools despite a statement in the report to the contrary.

In regard to the report that the books are in an unsatisfactory condition Judge Beattie denies that one bill against the county amounting to \$250 is shown on the records as having been paid twice. When the bill was presented the second time the county court refused to pay it. The court admits a charge that bridges are erected without bids having been asked for, but the work is done under the supervision of the court and bids are not unnecessary. A charge that 3,312 empty cement sacks have not been returned to the Portland Cement Company for rebate, Judge Beattie emphatically denies. He declares he had the sacks returned himself.

UMBRELLA THIEVES REAP HARVEST HERE

Umbrella thieves are reaping a harvest in Oregon City. On Sunday morning one appeared at the home of William Andresson on Seventh Street, and after he overtook the man on Seventh and John Adams Streets, it was given back to the owner with the remark by the man who had the umbrella in his possession: "I assure you this will not happen again." On Monday evening Dr. L. G. Ice who lives on Center, between Eleventh and Twelfth Streets, left two umbrellas on his errand, one of which belonged to himself and the other to his wife, and Tuesday morning they were both missing. Dr. Ice got two new ones, and will take good care of them.
