STAFFORD.

Persistent bad weather has retarded farm work in a measure. Potatoes are turning out better in quality and quantity than was expected after the blight struck so many fields. A few strawberries are still being picked from the vines. Frosts have not injured many things as yet. Gardens look green and thrifty as in summer. We heard with deep regret of the serious illness of Mrs. Gillett at the Oregon City Hospital. Gage and children of that place, came up to spend the week with Grandpa Gage of this place. Mrs. C. M. Gage returned to her home in Bandon, on the Breakwater, which went on its regular trip the 11th. Voters went to the polls early and took time to read their ballots and vote intelligently. We trust, and now that it seems certain that the women can begin to help make laws, perhaps they may be instrumental in altering the little breathless, unlighted booths, where a healthy man has to stand and breathe the same air as a consumptive left as he passed out. Mr. Leiseman, the genial merchant at Willamette, has kindly allowed Stafford to use his barn and corral for teams while they took the car for Oregon City, an accommodation which has been highly appreciated, therefore a number of men went down Monday with tools and lumber and fixed up the place as well as they could, working in the rain. The Church of God is holding a series of meetings at their chapel this week with poor attendance, owing perhaps to the continued rain. On Saturday, the 9th, Oswega Grange held memorial services in memory of Mrs. C. Milern, who was a member of that Grange, and whose kindly presence and friendly smile is missed by on and all. Many were the beautiful white flowers laid upon the altar in memory of a dear departed sister and many acts of kindness spoken of by those who had known her best. The south approach to the Tualatin bridge, below John Wanker's place is in a danger condition. A lot of the taxpayers' money was spent there but a few months ago and the taxpayers would like to kindly inquire who is to blame for such poor work. Is it the local road supervisor, the county engineer or the county court? It has carved off on both sides, taking the insufficient sticks with it until there is but a narrow track left and the county may be called upon to pay damages when a team or auto slides off, breaking bones, or taking some one's life. The Deikar Bros. again have men cutting wood, which they haul to market and thereby every year get more land cleared, and into paying crops.

A man from near Scio came to see if he could rent Mr. Gage's farm, but as there is no house for a tenant they did not talk business. A number of the ladies of the Baptist church met with Mrs. Phillip Baker on Wednesday and spent a very pleasant afternoon.

The Best Light at the Lowest Cost

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing light. Electricity can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore, electric lamps can be located in any place thus affording any desired distribution of light.

No other lamps possess these qualifications, therefore it is not surprising that electric lamps are rapidly replacing all others in modern establishments.
