Women's Higher Education Part of Social Revolution. Separate Colleges Are Needed. Fair Sex Held Back by Marriage. By M. CAREY THOMAS, President of Bryn Mawr. Photo by American Press Association.

WOMEN'S HIGHER EDUCATION IS ONLY PART AND PARCEL OF THE GREAT SOCIAL REVOLUTION WHICH IS NOW UPON US. IT IS ALREADY CLEAR THAT THIS TRANSFORMATION OF SOCIETY, OF WHICH UNIVERSAL WOMAN SUFFRAGE IS ONLY ONE SMALL PART, WILL GIVE WOMEN EQUAL OPPORTUNITY IN EVERY FIELD OF HUMAN EFFORT, INCLUDING TEACHING AND RESEARCH. Wherever women are already part of the electorate they receive equal pay for equal work and are equally eligible with men for all state and municipal positions. Wherever women vote, which will soon be everywhere in the United States and in all European countries, women will be ELECTED EQUALLY WITH MEN on all school and university boards. Education is women's peculiar public interest. As an immediate consequence there will be free competition for all state supported university professorships. Nor will marriage any longer disqualify women from following their life work. Women WILL NOT DEPRIVE OTHER WOMEN OF A LIVELIHOOD or of a dearly loved profession because they wish to marry. This great change affects the future development of colleges for women only favorably. ALL FORMS OF WOMEN'S HIGHER EDUCATION WILL BE NEEDED. We cannot have too many colleges or too many kinds of colleges.

Dillman & Howland REAL ESTATE AND GENERAL INSURANCE

Are We in Danger of Famine? At the meeting of the National Soil Fertility League H. H. Gross, the president, said: "Statistics show that agriculture in the United States has been so neglected that within twenty years we shall be forced to import our principal food products from foreign lands. We are facing an inevitable famine unless the soil is greatly improved." The process of taking without giving cannot be long continued. The soil is not inexhaustible. We have reached the time when our farming methods must be revolutionized if we would escape disaster. The note of warning has been sounded often enough, but it has not been heeded extensively enough. We must give to the soil more than we take from it. We must leave it richer than we found it. Crop rotation, fertilizing and scientific farming have become absolute and immediate necessities to the salvation not only of the American farmer but of the American nation. The simple truth is that our total population is increasing much more rapidly than our agricultural population. This means that the demand for agricultural products is growing faster than the supply. But this is not the worst of it. Our farms on the whole are decreasing in productivity. These facts are enough to point the imminent danger. Already we must begin buying our foodstuffs from abroad. To remedy these conditions it is not enough to say, "Back to the soil." We must also make our motto, "Give back to the soil more than we take from it."

MOOSE TO BUILD CLUB ROOMS

The Oregon City Lodge, Loyal Order of Moose, No. 961, at a meeting held Tuesday evening, discussed some very important issues. A report was heard from the delegation who attended the dedication and house warming at the Salem lodge, on last Saturday and Sunday. The members who journeyed to Salem reported that they had been entertained royally and were enthusiastic over the new Salem club and home. The furnishings they reported were magnificent and almost beyond comparison. After hearing of reports and what the sister lodge had done, the members voted to begin the construction of an addition to their home, to be used as a club room. An auxiliary board of trustees were elected to work in conjunction with the regular board. A meeting of these two boards is to be held at once, and they will make arrangements to have the work on the new building commenced at once. The new home will be completed by the first of the year, it is planned by the lodgesmen and they will have a very comfortable home. The entire building on Sixth and Main Streets will be heated with steam and will be furnished with up to date furnishings. The membership of the local order, which was organized only a few months ago has grown until now they have over 170 members. It is planned to hold entertainments for the benefit of the members throughout the winter.

SUNDAY SCHOOLS TO GIVE ENTERTAINMENT

An entertainment is to be given on next Friday evening at Shively's Opera House, under the auspices of the Sunday school of the Methodist Church. An interesting program has been prepared, including sketches, instrumental selections and solos. "Seven Stages of Life" is the name of a sketch which will be rendered by the children of the school, assisted by Mrs. Ormsby of Portland. Miss Lorraine Lee of Canby will sing "The Holy City."

HOPP FINED FOR STRIKING BOY

Carl Hopp was found guilty in the City Court of striking the six year old son of Guy Reddick with a club and City Recorder Stipp fined him \$5. Mr. Reddick asked the court to be lenient with Hopp and if Hopp would behave and keep out of trouble for six months Mr. Reddick agreed to pay the fine. Mr. Reddick said that he wished only to teach the man a lesson.

MEN USE OBSENE LANGUAGE. On complaint of Henry Towdemeier warrants for the arrest of George and Otto Towdemeier were issued Tuesday by Justice of the Peace W. W. H. Samson. The two men are accused of using profanity and obscene language. The men reside near Stafford.

Maps and Charts. Anaximander of Miletus is generally supposed to have been the originator of geographical and celestial charts, about 570 B. C. Modern sea charts were brought to England by Bartholomew Columbus to illustrate his brother's theory of a western continent. This was about the year 1489. The first tolerably accurate map of England was drawn by George Lilly, who died in 1559. Gerard Mercator published an atlas of maps in 1595, but it is only within the last fifty years or so that we have had really scientific charts of the earth's surface. It was, of course, impossible to have had such maps in the olden time.—New York American.

Unexpected Answer. It was at the seaside and there was no doubt he had neglected the belated maiden of uncertain age and qualified attractions. "Why is it you never compliment me, Mr. Flynn?" she plaintively asked him one day. He was a nervy young man and he came right back. "Would you have me paint the lily or gild refined gold?" he demanded. "Ye-es," she tremulously replied.—Cleveland Plain Dealer.

Good Excuse. May—I've just been reading about a Boston physician who tells you what ails you by holding your hand. Jane—I must tell that to Bob tonight. He's thinking of studying medicine.—Cleveland Plain Dealer.

Cavalry Hiding from Air Scouts In British War Game

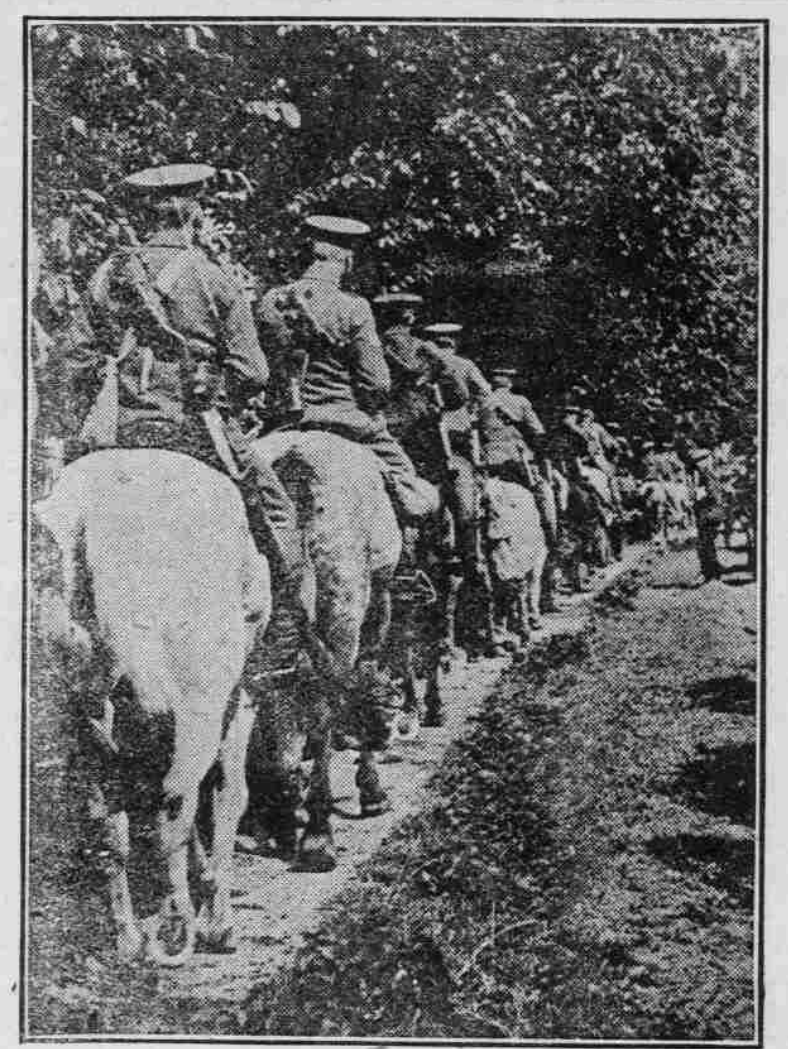

Photo copyright, 1912, by American Press Association.

IN the recent British maneuvers great attention was given to aeroplane scouting, which was carried on by both of the "contending" armies with an effectiveness that evidently surprised the military authorities themselves. It was, of course, the object of the commanders of the opposing forces to screen their troops as much as possible from the aerial observations of "the enemy." Accordingly detachments on the march when it was possible availed themselves of the cover given by hedge rows and woods. The photograph reproduced above shows a cavalry detail of the famous Scots Greys hugging the shelter of a copse, as the English call a grove of young trees, in order to hide their movements from the air scouts.

The Family on Probation. "Why does your servant go about the house with her hat on?" "Oh, she's a new girl! She only came this morning and hasn't made up her mind whether she'll stay yet."—Stray Stories.

THE Southern Pacific Railroad of Mexico traversing the states of SONORA - SINALOA - TEPEC - JALISCO. Gives Access to OPPORTUNITIES FOR WEALTH in Cattle, Farming, Mining, Timber. Let us list you for a copy of our new booklet soon to be published. H. LAWTON, G. P. A., Guaymas, Sonora, Mexico.

Astrology. Astrology is as ancient as history itself. When we first hear of human society we find along with it the "excellent forgery of the world," as Shakespeare called astrology. Astrology was cultivated by the Chaldeans, Egyptians, Greeks, Romans and all other ancient peoples. So strong was the art or conscience that it refused to go down in the general smash up at the close of the old Roman rule, but held on and was powerful all through the middle ages. It was only with the advent of modern science and enlightenment as to nature's laws that the old science of the stars and fates declined. New York American.

Peek Chops. Try dipping your pork chops in flour before frying them and see how delicious they are.

Too Personal. "What caused you to strike the customer?" "He sets down, an' when I lasts him what it'll be," explained the new waiter, "he sez, 'You ain't got no brains; have you?' an' then I soaked him one."

A small classified ad will rent that vacant room.

Wants, For Sale, Etc.

Notices under these classified headings will be inserted at one cent a word, first insertion, half a cent additional insertions. One inch card, 12 per month; half inch card, (4 lines), 4 per month.
