

THE NOSE A FILTER TO STRAIN THE AIR

CATARRH CLOGGED NOSTRILS A BREEDING PLACE FOR DEADLY GERMS

The nostrils are perfectly "air filters" and, when kept in clean, healthy state, strain every bit of air we breathe, catching all dust particles, foreign matter and germs. The air is full of germs. You can not dodge them, but you can safeguard yourself against catarrh and other diseases contracted in the process of breathing by keeping the nostrils clean and healthy.

Don't take any chances. If you have a stuffed up feeling in the head or if your throat is sore or filled with phlegm, just grease the nostrils with a little Ely's Cream Balm, draw the pure, aromatic fumes back in the head, and you will be astonished at the effect.

Ely's Cream Balm not only wards off catarrh, but will quickly cure even a chronic, longstanding case of catarrh.

It starts in the nose and throat, cleanses, heals and strengthens the raw, sore inside skin, or membrane, and in this way drives out catarrh and makes you proof against this filthy, disgusting disease.

Colds which often hang on for weeks can be quickly cured with cleansing, healing, antiseptic balm. All druggists sell it for fifty cents a bottle, and the one bottle is generally all that is needed to effect a complete cure. Try it today.

FASHION WHIMS.

A Little Talk About the Vagaries of the Fashionable.

There should under no circumstances be included one good looking tailored costume in the wardrobe. This should be cut with simple but becoming lines and should be of one of the rough materials—ratine, wool sponge, boucle, a diagonal—or, if it is to fulfill the functions of two suits, of velours de laine, corduroy or even velvet. When there

MANISH SHIRT WAIST.

are to be two tailored suits in the wardrobe a rough material for this trotteur costume is advisable.

The skirt is plain, and for the tailored suit, to be used for walking, shopping, etc., this is advisable. There are various ways of breaking the severeness of such a skirt which are quite permissible in even the strictest of tailor made costumes—the fold or lap over plaits at the side of the front and back panels or inlet in clusters at the bottom, straps, touches of braid, panels, etc. The straight, narrow skirt, however, is still very much in favor, and if it is not too tight it is very youth producing and pretty.

Nothing ever takes the place in a girl's wardrobe of the simple shirt waist in manish style. The waist illustrated is one of the most modish designs of the season.

JUDIC CHOLLET.

This May Manton pattern is cut in sizes for girls of sixteen and eighteen years of age. Send 10 cents to this office, giving number, 366, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage. When ordering use coupon.

Care of the Eyes.

On rising in the morning the eyes should be bathed gently in cold water. Twenty passes are said to be decidedly strengthening. While using them closely they should be rested at intervals of an hour or two, for the strain of constant reading, etc., is like that of extending the arms at a certain height immovably. Imagine, then, the taxing of the eyes, which cannot complain save after years of irreparable neglect. When dust settles in the eyes warm water will soothe them of any inflammation.—Exchange.

The First Astronomy.

The beginnings of astronomy were on the tops of towers of Babylon and the pyramids of Egypt. It is believed by many writers that both classes of structures were erected for astronomical purposes. As early as the time of Job, nearly 2000 years before Christ, most of the stars had been divided into constellations. The writer of Job mentions Arcturus, Orion and Pleiades as being familiar. The modern science dates from the labors of Copernicus, Tycho Brahe and Newton.

LOCAL BRIEFS

George Gregory of Molalla was in the city Thursday transacting business. Mr. Gregory has platted a tract of land at Molalla which will be sold. He says that Molalla is growing rapidly and he believes that it will continue to do so.

The ladies of St. Paul's Episcopal Church, under the auspices of the Daughters of the King, will give a bazaar in the afternoon of Saturday, December 7th at the banquet hall of the Masonic Temple. A chicken supper will be served after 5:30.

The Human Voice.

In producing the tones or inflections of the human voice forty-four muscles are brought into play.

TWO GOOD RULES.

Here are a couple of guides to happiness: For a fit of passion take a walk in the open air. You may then speak to the wind without hurting any person or proclaiming yourself a simpleton. For a fit of idleness count the ticks of a clock. Do this for one hour and you will be glad to pull off your coat and go to work like a man.

FORUM OF THE PEOPLE 25,000 BALES OF HOPS IN GROWERS' HANDS

TYPHOID SERUM EFFICACIOUS. OREGON CITY, Dec. 5.—(Editor of the Enterprise.)—For the benefit of the people of Oregon City who are not acquainted with the typhoid immunizing serum I would like to say that this has been proven beyond a doubt to be a sure and safe way of preventing typhoid fever.

This serum is now compulsory in the United States Army and is used with the greatest success by the government. In a speech made by President Taft in May 1911, at Philadelphia, he said that in over 11,000 troops near the Mexican border who were inoculated there was only one case of fever reported and that was a teamster who had not taken the serum.

Another recent report made by the army doctors is to this effect: that in over 57,000 soldiers inoculated with this serum there were only 11 cases and 2 deaths and of the 2 who died they had not taken the serum at all and most of the other 9 cases had not there were more soldiers killed from taken the serum.

Government statistics show that typhoid fever in the Spanish-American war in 1898 than there were from bullets.

Last spring this serum was given to the men of the Hawley Pulp & Paper Company, free, with the greatest success and some of the men were in Powell River working at the time of the epidemic of typhoid fever there and no one who had been inoculated with the serum was taken with typhoid fever.

J. F. ALBRIGHT, Member of Health Committee, City Council.

COUNTY COURT CUTS DOWN ELECTION COSTS

The county court spent almost the entire day Thursday cutting down election claims. Judge Beatie said that in a great number of precincts the claims were too high and that the court would average the costs of counting the votes and cut the claims accordingly.

SAGE TEA WILL DARKEN THE HAIR RESTORE FADED AND GRAY HAIR TO NATURAL COLOR—DANDRUFF QUICKLY REMOVED

There is nothing new about the idea of using sage for restoring the color of the hair. Our grandmothers kept their hair dark, glossy and abundant by the use of a simple "Sage Tea."

Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of Sage leaves, and applied it to their hair with wonderfully beneficial effect.

Nowadays we don't have to resort to the old-time tiresome method of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves; and all we have to do is to call for the ready-made product, Wyth's Sage and Sulphur Hair Remedy, containing Sage in the proper strength, with the addition of Sulphur another old-time scalp remedy.

This preparation gives youthful color and beauty to the hair, and is one of the best remedies you can use for dandruff, dry, feverish, itching scalp, and falling hair. Get a fifty cent bottle from your druggist today, and you will be surprised at the quick results. All druggists sell it, under the guarantee that the money will be refunded if the remedy is not exactly as represented.

Of the estimated crop of 118,600 bales of hops grown in Oregon this season, 25,000 bales remain unsold in the hands of producers at the present time. This amount available for market is augmented by the addition of about 10,000 bales purchased by dealers earlier in the season, which makes a total of 35,000 bales practically unsold and on the market at this time. The situation in the hop market at the present time is the best in the entire world so far as volume of business is concerned. While some wild estimates place the volume of sales as high as 1000 bales daily in Portland, a careful canvass of the situation would show that sales of perhaps 350 bales each day. This in itself is the greatest volume of trade passing at any point in the entire world.

Prevailing Oregon City prices are as follows: HIDES—(Buying), Green hides 7c to 8c; salted 9c to 10c; dry hides 15c to 16c; sheep pelts 40c to 85c each. EGGS—Oregon ranch eggs 40c case count.

FEED—(Selling), Shorts \$27; bran \$25; process barley \$30 to \$31 per ton. FLOUR—\$4.50 to \$5.

HAY—(Buying), Clover at \$9 and \$10; oat hay best \$11 and \$12; mixed \$10 to \$12; alfalfa \$15 to \$16.50; Idaho timothy \$21 and \$22; whole corn \$40.

OATS—\$25 to \$26; wheat \$1.05 bu.; oil meal selling about \$55; Shay Brook dairy feed \$1.30 per hundred pounds.

Livestock, Meats. BEEF—(Live weight) Steers 6 and 6 1-2c; cows 5 and 5 1-2c; bulls 4 1-2c. MUTTON—Sheep 4c to 5c; lambs 5c to 5 1-2c.

WEST SIDE CLUB IS GIVEN PRAISE

(Continued from page 1)

to conditions. "You have the push to go ahead," said Mayor Dimick, "and you are going ahead. It has been the history of the world that only those peoples advanced who deserved to advance, and by their efforts made advancement a certainty. The communities that are alive and know what they want and work for what they want are the foremost communities in the state and country. This club is an indication of where you stand and what you are doing. The West Side people are leaders."

T. J. Gary, superintendent of county schools, was chairman of the meeting. He said that the West Side was about the liveliest section of Clackamas County. The speaker declared that Judge Dimick told the truth, and that the West Side would continue to be progressive, because its people are

Corner Seventh and Main J. Levitt Corner Seventh and Main

NEXT SUNDAY! we will publish the beautiful "MANILLA DANCE"

As played by ARTHUR PRIOR, premier trombone soloist of America, and his concert band. This selection is a composition of rare musical merit. For this reason we think it should command unusual attention from all our readers. We consider this number the most valuable we have ever published. Its charming melody will delight the music lovers of Morning Enterprise. We particularly want to draw the attention of our readers to the variety of music we have secured from the music house of Carl Fischer, the largest music publishers in the United States. This is the first time they have ever allowed their music to be published in any newspaper.

progressive. B. T. McBain was appointed a committee of one to make an investigation of the expenditure of a tax voted one year ago for road purposes. It was announced that the money had been expended for four districts, but that none of the money had been apportioned for the Robinson road. The membership committee reported a membership of more than 75 and about 40 applications. The applicants will be enrolled at the next meeting. Other committees made reports and the members felicitated each other on the progress made on the electric road on the West Side, which will be in operation in a few months. A Misfit Name. Little Florence climbed upon her father's lap on her birthday and put her arms around his neck. Father always called her Toodles, and until now she had answered to the name. But now she looked at him in surprise. "Why, I'm three now, I should think you'd call me 'Threedles,'" she said.—Judge's Library. No Contest. Teddie—What are woman's rights, pa? Pa—Everything they want, my boy. Always remember that. The Way He Came. She (cooly)—How did you come to propose to me? He—By street car, darling. Boston Transcript. The Cricket on the Hearth. The cricket on the hearth is still a welcome guest in many English households. For the cricket is believed to bring good luck to a house, while his departure is a certain harbinger of evil tidings. It is unlucky to kill a cricket. A Lancashire correspondent of the London Notes and Queries records a local superstition "that crickets are lucky about a house and will do no harm to those who use them well, but that they eat holes in the worsted stockings of such members of the family as kill them." The writer adds that he was assured of this "on the experience of a respectable farmer's family." A small classified ad will rent that vacant room.
