FORUM OF THE PEOPLE

HORROR OF WAR. MAPLE LANE, Or., Dec. 10.—(Editor of the Enterprise)—To the ministers of Oregon City. All people are generally agreed that no matter what view is taken under usual conditions, when it comes to the problem of death the church minister is the one person whose word receives respectful attention. You are all aware that on Friday the drama of death will have special settings. No doubt at your next sermon that subject will receive your attention. It is not necessary to agree with you on the question of right and wrong of the death penalty as it is the will of the people to proceed. All citizens must in duty abide in an orderly manner, while agitating for a reneering in the event of opposing capital punishment. Perhaps there is a difference of opinion among you as among other citizens on that subject. I would ask your attention on another phase of the subject of killing human beings. A movement has been born to protest against war in general and the present war in Europe in particular. The International Socialist Anti-War Congress, attended by nearly all European Socialist delegates, was held at Basle, Switzerland, and set apart as days of protest, next Saturday, Sunday and Monday. Will you lend your help by announcing in your pulpit the great movement for world's peace?

The horrors of war with its slaughter of people, most of whom are in no way personally interested in the quarrel of the rulers is no doubt too well understood by you all to need any description or further urging on my part. Yours for Peace on Earth, JOHN L. STARK.

APPEAL TO WOMEN.

OREGON CITY, Dec. 10.—(Editor of the Enterprise).—The Morning Enterprise is the leading newspaper of the city. We women are now legal voters. These are two separate facts, but it seems to the writer of this letter that if we can get together—that is, the women voters and the Enterprise, we ought to be able to do something which would re-inforce the efforts of the good male voters. Personally, I believe in the very nature of things, that the man knows more than the woman, concerning things of political and municipal affairs; but the fact remains that there are some points about our affairs municipal that do not ring true, in which case we women should do something. This is not a reflection on the active man's honesty, but rather on the man who takes no interest in things.

Now why cannot the women voters of the city get together and form the Municipal Improvement League, which shall be non-sectarian, non-political, or rather non-partisan, and which shall work in full harmony for the moral, physical, and political betterment of our dear old city. The churches are all right in their way—but each church is pulling on its own particular string. Let the women voters, regardless of church or society affiliations, work together, and we can accomplish common sense reforms, free from fanaticism, bigotry, or vicious license.

Look how many things are going wrong that affect in the most vital degree the homes of this city. For instance, our dreadful water supply; the young girls question; police protection; the curfew ordinance; street car service; street improvements, and city taxes. Surely here are problems enough to keep us busy, if only we can be led by women who have not church or social axes to grind.

We have such women in this city of ours, and I am writing this letter to you in the hope that other women will take it up. Mind you I am not opposed to women of the church, for I am a church woman myself, but I realize that many able women do not have any church connection, and I am anxious to emphasize the fact that these problems do not belong to the church alone, but to every woman in the town, regardless of her church, or her position in life. Who will take this matter up?

Tobacco Penalties.

The snuff of Persia, in the seventeenth century, proclaimed that every soldier in whose possession tobacco was found should have his lips cut while in the same century Massachusetts ordered that "no person shall take tobacco publicly, and any one shall pay 1 penny for every time he is convicted of taking tobacco in any place."

A small classified ad will run that vacant room.

SPANK INDIANS FOR FOOT-BALL MISTAKES.

Couch Warner of Carlisle will institute a ruling hereafter at the beginning of a season which he says will give the Indians much fun and beneficial training from the day's drill. Warner knows that carelessness was a strong contributing factor in Pennsylvania winning recently, and in seeking a remedy against mistakes in signals decided to turn the punishment for derelictions in signal work over to the Indian youths themselves. Any redskin who fails to give on a signal through commission or omission is compelled to bend the upper part of his body forward and stand for one severe spank from every man on the team. Recently Warner tried it out, and Left End Waiette was the first aborigine chastised. His punishment from his team mates was so edifying that the only other mistake of the evening was made by Center Rush Berlie, who submitted to the punishment of his team mates with the best grace possible.

FORWARD PASS STRATEGY.

Cases Which Are Declared Not to be in Spirit of Rules. Veteran followers of football can remember the time in the old days when possession of the ball meant so much that a fullback could run back fifteen or twenty yards and keep the ball for a first down. McBride of Yale once sprang this strategy on Harvard, thus taking advantage of the opportunity to keep the ball in Yale's possession, which, as the rules then were worded, could be done. Some criticism was made of the play on the ground that it wasn't sportsmanlike.

Recently there has turned up a play of a similar nature having to do with the forward pass. The passer when he sees he is being crowded or his receivers are covered merely flings the ball two or three yards in front of him. If it isn't the fourth down his side keeps the ball and puts it in play at the spot of the preceding down. Whether such a defensive measure is in keeping with the spirit of the rules is the point being raised.

There have been cases, too, of forward passers deliberately hurling the ball out of bounds thirty or forty yards beyond the scrimmage line. The oval goes to the opposing side where the ball crossed the side line and acts exactly as a kick that goes out of bounds. This also is being objected to as contrary to the spirit of the rules, but just wherein it is any more so than kicking out of bounds, say at an opponent's five yard line, is not clear. Kicking of that sort is often good strategy, but perhaps it is contended that kicking is a sportier proceeding because the pass could be done easier and also because possibly it never was intended that a forward pass should be so employed.

A Bay Rum Fountain.

Not even Cologne has the perfume that is named for it flowing free. But down on the island of St. Thomas, in the West Indies, there is a fountain that gushes forth the great specialty of the place—bay rum. The fountain is on the balcony of a cafe and would attract more attention were not bay rum the dominant odor of St. Thomas. This town is the great rum market of the world, and everywhere it fairly assails the sense of smell.—New York Press.
