FLYERS OVER SEA ARE LOST AT NIGHT

OCEAN SCoured FOR AVIATORS
WHO START ON TRIP TO
SAN FRANCISCO

LIFE BELTS MAY SAVE BIRDMEN

Horace Kearny and Chester Lawrence
Start on Long Journey From
Los Angeles in Dense
Fog

LOS ANGELES, Dec. 13.—Afiator Horace Kearny, who left Newport beach at 12:40 o'clock this afternoon to fly to San Francisco in a hydro-aeroplane, with Chester Lawrence, a newspaperman, as passenger, became lost within less than hour after his departure today. A fleet of motor-boats, the only craft available, was started out tonight from Redondo Beach, Santa Monica and San Pedro to find them.

Both men have life preservers. Friends think they are safe unless there has been a mishap to the engine. The flying machine should be able to alight on the waves instead of plunging, a wreck, beneath them, they say.

Kearny, flying low, passed Point Firmin, the northern headland of Los Angeles harbor, at 1:15 o'clock this afternoon, about 45 miles from where the start was made. Kearny had trouble with his motor early in the day and this delayed his departure for several hours, but up to the time he vanished and while passing several shore towns, including Long

SPECIAL EDITION TO SET NEW RECORD

SUCCESS OF ONE LAST YEAR
MAKES FORTHCOMING ISSUE
PRIDE OF PEOPLE

COMMERCIAL CLUB IS INTERESTED

All Business Interests Represented in
Last Year's Special Eager to
Have Space in Next
One

Although there has been only a few days of active soliciting among the business interests of the county in behalf of the Progress and Anniversary Number of the Enterprise, the warm reception given the project by the local public insures it being bigger and better even than the last annual number.

The attitude of the people is highly gratifying to the Enterprise for more reasons than one. The fact that every business interest represented in last year's number has also arranged for representation this year, and in most cases on a larger scale, proves rather conclusively to the Enterprise that it is well worth while to get out as high class an issue as was published last year. With increased patronage, and the indications are now that practically every progressive business of substantial character in the city will be represented in some form, the Enterprise proposes to make the forthcoming number still bigger and finer than its predecessor.

FIRST CHRISTMAS MESSAGE.

HEALTH AUTHORITIES PROBE FEVER SOURCE

Typhoid fever was considered at a meeting of the committee on police and health, of the city council, Dr. J. W. Norris, health officer and William Howell, superintendent of the water works in the Commercial Club parlors Saturday night. F. J. Toose, chairman of the committee on health, will make a report next Monday night. It will include the reports of the various bacteriologists who have made an examination of the city water. Mr. Toose also will introduce a resolution in the city council providing that the hydrants be drained once a month.

ENGINEERS TO SUBMIT PLANS FOR ELEVATOR

Elevator engineers and men interested in the elevator which is to be installed in the near future, and for which bonds for \$12,500 were authorized at the recent city election, will be present at the next council meeting which will be held December 21. The site for the elevator is now the most important factor to be decided. The most popular choice at present is Sixth Street, but the council will get suggestions as to the site from property owners. It is thought that a large number will be present at the next council meeting to offer suggestions.

Elevator engineers will submit plans, though the majority of the council is inclined to wait until next year before taking any definite action.

PAID DEPARTMENT TO FIGHT FIRES URGED

G. G. Faulkner, an experienced fireman, reports that his plan to have a paid fire department for this city is being considered favorably by the authorities. He suggests that at least two men be employed to give their entire attention to extinguishing fires and planning to prevent them. In speaking of his proposition Saturday Mr. Faulkner said:

"In case of fire you have to go from the building safe to the fire station, ring a bell and wait for help, which takes from three to five minutes. Then a cart has to be drawn to the burning building, which takes at least fifteen minutes. If a combination chemical and hose automobile were purchased and two paid firemen obtained the cost would be much less and the results much greater. The paid firemen could respond to the alarm of fire while the volunteers are running from the station to the burning building. The apparatus would cover the entire city and the insurance rates would be materially reduced.

OGLE MINE TO HAVE BIG CYANIDE PLANT

STOCKHOLDERS AT MEETING EN-
THUSIASTIC IN SUPPORT
OF PLAN

ENGINEER SAYS SUCCESS ASSURED

Mine as Near Positive Certainty as
Is Possible—Charles Spaulding
Is Named Engineer of
Plant

The Ogle Mountain Mine Company has determined to put in a \$50,000 cyanide plant which is to be in full working employment by September 1, 1913. The mining expert who is specially engaged to give the property the most exhaustive examination possible, in his report fully indorsed the work which had already been done, and appraised the mine at a higher value than any previous report had done. The directors purpose to appoint Charles Spaulding, E. M., of Denver, Col., as Mine Superintendent, under the general management of J. B. Fairclough, President.

The success of the Ogle Mountain mine means much to the mining interests of Oregon, Washington, and Northern California. The first mines were placer, and easily worked, but there has been little permanent consequence in the development of quartz mines. In southern Oregon, as well as throughout Siskiyou County, the quartz miner, when not a pocket hunter, invariably quits at water level, so that from the level down, the mines are comparatively unexplored. The Ogle Mountain property is especially fortunate in that values begin at grass root, and from the apex to sulphides shows undiminished assays.

From the very nature of its enrichment cyaniding is indicated, and the tests of the experts prove that the mine is as near being a positive certainty as it is humanly possible to foretell. There does not seem to be any room for doubt in the minds of the engineer. Many offers of purchase have been received, but refused, the stockholders realizing the potential value of the property.

Mining interests throughout the Northwest are keenly interested because the success of Ogle Mountain means the pouring in of eastern capital to develop the many properties now lying idle ever since the rush for Alaska and the Klondyke caused the hard working quartz miners to hunt the more easily worked placer. At a special meeting held in Knapp's hall on Saturday, all the directors, and nearly 150 stockholders were present. T. B. Fairclough was in the chair. W. T. Wilson is secretary.

GIRL SAVED FROM DEATH UNDER CAR

T. B. FAIRCLOUGH RESCUES CHILD
WHO IS KNOCKED DOWN
BY TRAIN

HERO CONGRATULATED BY FRIENDS

Girl is Walking Across Street With
Brother When Christmas Toys
Temporarily Car Hits
Her

Seeing many Christmas toys in shop windows, little 5-year old Leah Ryan, daughter of Mrs. H. W. Saunders, dashed away from her small brother Kenneth, in front of a Portland bound Oregon City car, and narrowly escaped death Saturday. T. B. Fairclough, who was standing on the corner of Seventh and Main, seeing the girl struck by the car, jumped from the sidewalk and caught hold of the child, lifting her from under the car. The car was in charge of Motor-man Rufner, who brought the car to a standstill within a few feet. Had it not been for Mr. Fairclough's quick work, however, the child might have been killed. Immediately after the accident, the child was examined by Dr. W. E. Hempstead, and C. M. Barbee, surgeon of the Portland Railway & Power Company.

The girl was walking with her brother and suddenly saw some toys, and without a word to her brother, dashed into the street. The car was going slowly, and the girl received only a few minor scratches. Several women who saw the child under the car became hysterical.

The girl walked to her home, at 211 Madison Street, with her brother. Mr. Fairclough, the hero, was congratulated by many friends Saturday evening.

TODAY AT THE GRAND
Harrington & Melville
MAN AND WOMAN, VERSATILE COMEDY ACT

BIG-FEATURE MONDAY AND TUESDAY, DECEMBER 16 and 17
THREE REELS
The Count of Monte Cristo
Adapted from Alexander Dumas' famous and romantic novel.

The wonderful and tragic story of Edmond Dantes, a young Frenchman, who is entrusted with a message to the king and is arrested on the way. The full production of this masterpiece by Selig is unequalled by any stage production. There are over 300 people in the cast and shows the wonderful scene, gorgeous costumes and elaborate stage setting. This is one of the most fascinating pictures ever produced.

DANCE SERIES PLANNED BY WILLAMETTE CLUB

Dr. Clyde Mount, Harry Draper and M. D. Latourrette, who are arranging for a series of dances to be given by the Willamette Club, report that the first dancing party will probably be given during the holidays. Invitations have been sent to many to join the club, and the committee is receiving acceptances daily. The Willamette Club dances have been the society events of the city. It is planned that at least four or five parties will be given during the winter.

OFFICERS ELECTED BY FRATERNAL BROTHERHOOD

Oregon City Lodge No. 302, Fraternal Brotherhood, elected the following officers Friday night: President, William Kennedy; vice-president, Harvey Hoots; chaplain, Sam Shelly; secretary, H. Kobolnik; treasurer, A. M. Sinnott; sergeant, W. A. Bowles; master at arms, Lena Melike; musician, Mrs. Maud Woodward Kennedy; I. D. K., Charles Becker; O. D. K., Al. Barnes; physician, Dr. C. A. Stuart; trustees, Fred Metzner and Sam Shelly.

If "Santy" Only Knew

about our stock of Jewelry, he would make our store his headquarters

It is our opinion that you will agree that our this year's Holiday preparations surpass anything that we have yet shown you.

It ought to be that way—for we keep on trying to beat our previous year's efforts.

Anyway we have thought and planned and bought and worked that we might earn your favorable comments. An early visit is advised.

We wouldn't attempt even a partial description—because we don't feel that we could do the subject justice.—But we will just mention that two or three departments appeal especially to lovers of the beautiful—The diamonds, the cut glass and the china.

These three lines here this Xmas make a greater demand than ever upon your interest. And when beauty is tied to usefulness, you will find it in the shape of a watch, or a ring, or a brooch chain, or silverware, or half a hundred other things, any of which is better for being bought here.

Some one you wish to remember, most likely.

No place within your reach offers you quite so complete a showing as this store.

We will gladly set aside and engrave any article you may select for Xmas.
