OREGON CITY AND ST. JAMES PLAY TODAY

The Oregon City football team, which claims the championship of the state for independent teams, will be put to a severe test today when it plays the fast team which represents the Saint James College, of Vancouver, Wash. This team claims the championship of western Washington, and has not been defeated this season. Early in the season Saint James and Oregon City played a tie game with a score of 6 to 6. At this time Oregon City's team was not in the condition which it is now, and the boys believe that they will be the victors today.

Last Sunday the Oregon City eleven defeated the Columbus Club team, 13 to 9, the latter being one of the strongest aggregations in Oregon. At least 200 interested foot ball fans will accompany the Vancouver team to the Columbus Club grounds on Williams Avenue and Morris Street, Portland, where the game is to be played, this afternoon, to root for their home team. Last Sunday a large number of Oregon City citizens were present at the game, but a still larger delegation will accompany the local team this afternoon.

The interest manifested by the Vancouverites is exciting, they having a celebration Saturday evening, composed of a torch parade through the streets of the city. A brass band was in the parade, and the line was composed of more than 300 foot ball followers.

The members of the Oregon City team will leave the city on the 12:00 o'clock car, as will many of the fans, but as the game will not start until 2:30 o'clock the majority of the spectators from this city will leave on the 12:30 or 1:00 o'clock car.

BAKER MOORE WITH THE BAKER THEATRE COMPANY

THE COMMANDING OFFICER Western Military Play at The Baker Theatre All This Week.

What is expected to prove one of the most highly successful plays of The Baker Company's season is Theodore Burt Sayre's, "The Commanding Officer," scheduled for all this week beginning Sunday matinee. It is a western play, but not in any sense a war play. The scenes are laid at a Post and the plot concerns some officers, their wives and associates and a number of outsiders. Belle Archer, wife of Colonel Archer, because of a quarrel between them renews a flirtation with a former sweetheart. He attempts to kiss her and another man gets a snapshot of the act, which appears to be genuine. Her reputation can be ruined by the photo and she takes desperate measures to obtain possession of it. The two men quarrel and her friend is killed one night, while she, herself is nearly dressed as a man. Suspicion falls upon her and her dearest friend, Floyd Carroll is dragged into it as well as Floyd's lover, who is finally arrested for the murder, refusing to clear him self by comprising Mrs. Archer's reputation. Things assume a very interesting phase and the suspense is highly interesting, as well as the big dramatic scenes that follow one another in quick succession. The different turns and twist the plot takes, the many diverting characters and absorbing incidents are too numerous to detail here, but there is not one dull moment in the play, which is filled with big acting roles and thrilling climaxes. No play lover can afford to overlook this drama. It will be well cast and splendidly acted which goes without saying. Matinees as usual Sunday, Wednesday and Saturday and the popular Bargain Night Monday.

MUCH BITULITHIC LAID IN ALBANY DURING SUMMER Season's Contracts Will Aggregate Sixty-Three Blocks Albany, Oregon, Dec. 11, 1912.—Over 60 blocks of bitulithic pavement are being completed this year. The people are much pleased with gravel bitulithic, as used, and are looking forward to a long period free from repairs as bitulithic has an excellent reputation for wearing. Albany is now on a par with any city in the country as to the quality of its paved streets.

Pay of French Presidents. Marshal MacMahon paid more dearly than any other French president for the privilege of holding office, according to a story in the London Chronicle. He found it impossible to live with what he considered becoming pomp on his salary of £24,000 a year and after running through nearly all his private means became heavily involved. In his last year of office Gambetta persuaded the chamber to vote a lump sum for the payment of MacMahon's debts. It was then decided to raise the salary and allowances of the president to £48,000 a year, half of which is scheduled as "frais de representation."

Jade in China. Light green jade is the favorite gem of China, and it is difficult to get the stone in uncut forms even in that country. Sometimes a rich Chinaman's estate will consist, in part, of a lump of jade. Sometimes it can be obtained in masses weighing one pound or two pounds. But even the leading jewelers of Hongkong usually obtain it in cut form. The Evil Eye. Antiquity hath held that certain women of Scythia, being provoked and vexed against someone, had the power to kill them only with their looks. The tortoise and ostriches hatch their eggs with their looks only, a sign that they have some ejaculative virtue. And, concerning witches, they are said to have offensive and harme working eyes.—Montaigne.
