### TRADE WITH SOUTH AMERICA

With an optimistic miasm that is far from being wholly justified, the country at large is confidently expecting a tremendous development of our trade with the various South American countries upon the opening of the Panama Canal. But most of us don't realize that Uncle Sam is way behind the other commercial nations in the fight for South American markets. Even the vast pile of money we have spent on the canal, does not begin to compare with that spent by England, Germany, France and Holland on railroads and harbors throughout Argentina, Uruguay, Brazil, Chile, Peru and other countries.

### The Argentine is practically British, as Brazil is German.

Indeed one hears more German than Portuguese spoken in the streets and hotels of the Brazilian capital. Chile, Peru and Uruguay go to England for their ships, railroad supplies, and capital, with the inevitable result that John Bull controls their important trade.

### FARMERS' SOCIETY THE ORGANIZATION OF EQUITY

The organization fast Saturday of a local of the national organization known as The Farmers' Society of Equity, marks a forward step in the direction of co-operation, which if it is honestly carried out will be to the mutual benefit of both consumer and producer. The consumer however will be sceptical until the society proves by its works that it is playing fair with him. The past is loaded with cases where the consumer has merely charged

### tribute collectors, without any advantage in the way of lower prices.

One of the things the society should agitate is the issuance of marketing reports, and the organization of a bureau similar to the one in Canada, known as the "Extension of Markets" Division. Its work includes the inspection of cargoes and supervision of refrigeration and many other details of that sort. It also includes, however, a system of compiling records of wholesale prices in all markets of Canada, Europe and the United States, day by day. It furnishes the Canadian farmer full information with regard to outside markets, and a full record of prices in those articles.

### CHICKENS AND EGGS

Very shortly we are to have another poultry show in Oregon City, and all signs point to its being on a far bigger scale even than the one last year. It is really remarkable that more farmers do not take up this most profitable industry than do, for the hardest part of the work comes at a season of the year when the farmer has most time on his hands. Poultry experts tell us that with good foundation stock, the profits are big and certain to the man who has land on which he can raise his own feed.

### Certain it is that if the city man utilizing the back end of a town lot can make money out of it, he is buying every item of feed, the farmer with all the resources of his land back of him ought to do infinitely better.

Harvey Beckwith, general agent of the Wells Fargo Express Company, who has an intimate knowledge of Oregon and its possibilities and needs, claims that poultry keeping is not only Oregon's greatest need, but one of its biggest moneymakers. According to government statistics, the egg industry of the United States last year amounted to over \$500,000,000. The money paid for eggs and poultry in one year was two and a half times greater than the entire gold output of the United States, Canada and Mexico. It exceeded the wheat harvest by one hundred million dollars.

### FORUM OF THE PEOPLE

#### NEW WATER SUPPLY URGED.

OGEGON CITY, Or., Dec. 23.—Editor of the Enterprise.—With climate that is unexcelled, with soil that produces almost everything grown in the temperate zone, with scenery that is unequalled, with water power that has meant great things and will mean still greater things, and with an intelligent and progressive population, Oregon City cannot afford to have its future haunted by the spectre of possible typhoid epidemics. No filter will serve the purpose. Buffalo, N. Y., and Cleveland, O., have proven this beyond a doubt. Every dollar spent is improving our present system of filtration will be wasted. If we can get in on the Clear Lake proposition we will have our water question settled for all time to come. I am not aware of the expense involved, hence do not know whether it would be feasible. In any event we must get our water supply from some uncontaminated source, and this would be worth looking into.

### MRS. MCGILL BROKE DOWN

#### Gives the Real Facts in Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good. One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more.

#### Useless Test.

"Are you feeling very ill?" asked the doctor. "Let me see your tongue, please."

#### Success In Business.

The path of success in business is invariably the path of common sense. Notwithstanding all that is said about "lucky hits," the best kind of success in every man's life is not that which comes by accident.—S. Smiles.

## 10 MILL ROAD TAX VOTED BY 2 DISTRICTS

Judge Beattie announced Monday night that the county court had been notified that the Sievers and Hog Hollow districts had each voted in favor of 10 mill levies for road work. The vote was almost unanimous in both places, and the money realized in addition to that which comes through the regular channels will enable the communities to make rapid advancement with road work. These are prosperous sections of the county, and other sections are expected to follow the example set by them.

## TASTE, SMELL AND HEARING RESTORED

A SIMPLE, HARMLESS REMEDY QUICKLY RELIEVES CATARRHAL DEAFNESS

The thousands who suffer the miseries of colds and catarrh and claim they have never found a cure can get instant relief by simply anointing the nostrils with Ely's Cream Balm. Unlike internal medicines which upset the stomach, or strong snuffs which only aggravate the trouble, this cleansing, healing, antiseptic Balm instantly reaches the seat of the trouble stops the nasty discharge, clears the nose, head and throat, and brings back the sense of taste, smell and improves the hearing. More than this, it strengthens the weakened and diseased tissues, thus protecting you against a return of trouble. This remedy will cure a cold in a day, and prevent its becoming chronic or resulting in catarrh.

## Preventable Disease Is Man's Greatest Destroyer, Not Wars

By R. D. W. CONNOR, Author and Historian

THE past will teach us that the foundation upon which rests the power and stability of the state is the PHYSICAL WELL BEING OF ITS PEOPLE. The battlefield soaked in human blood, strewn with mangled bodies and groaning from the suffering of its victims fills us with unspcakable loathing, and, turning away with horror-stricken faces, we cry aloud against "MAN'S INHUMANITY TO MAN."

With a thousand voices from every pulpit and press in the land we denounce war as the great crime against civilization, and upon a thousand gilded trumpets we hail the dawn of universal peace as civilization's last and greatest triumph.

BUT IF WAR IS A CRIME AGAINST CIVILIZATION, WHAT SHALL BE SAID OF THE EXISTENCE AMONG US OF THOSE CONDITIONS WHICH PRODUCE PREVENTABLE DISEASE? WHERE WAR HAS CLAIMED ITS THOUSANDS DISEASE HAS REAPED ITS TENS OF THOUSANDS.
