understood the secret. They
made a "sage tea" and their dark,
glossy hair long after middle life was
due to this fact. Our mothers have
gray hairs before they are fifty, but
they are beginning to appreciate the
wisdom of our grandmothers in using
"sage tea" for their hair and are fast
following suit.

The present generation has the ad-
vantage of the past in that it can get a
ready-to-use preparation called Wythe's
Sage and Sulphur Hair Remedy. As
a scalp tonic and color restorer this
preparation is vastly superior to the
ordinary "sage tea" made by our
grandmothers.

The growth and beauty of the hair
depends on a healthy condition of the
scalp. Wythe's Sage and Sulphur
Hair Remedy quickly kills the dan-
gerous germs which rob the hair of its
color and lustre, makes the scalp
clean and healthy, gives the hair
length, color and beauty, and makes
it grow.

PROVISIONS OF PARCELS POST LAW

The parcel post law which becomes effective January 1, 1913, provides:
"That hereafter fourth-class mail matter shall embrace all other mat-
ter, including farm and factory products, not now embraced by law in either
the first, second, or third class, not exceeding eleven pounds in weight,
nor greater in size than seventy-two inches in length and girth combined,
nor in form or kind likely to injure the person of any postal employee or
damage the mail equipment or other mail matter and not of a character per-
ishable within a period reasonably required for transportation and delivery."
For the purpose of carrying this law into effect the United States is
divided into zones with different rates of postage applicable to each, as
follows:

| POUNDS | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 |
|-----------------|----|----|----|----|----|----|----|----|-----|-----|-----|
| City and Rural | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 | 14 | 15 |
| 50-mile zone | 5 | 9 | 11 | 14 | 17 | 20 | 23 | 26 | 29 | 32 | 35 |
| 150-mile zone | 6 | 10 | 14 | 18 | 22 | 26 | 30 | 34 | 38 | 42 | 46 |
| 300-mile zone | 7 | 12 | 17 | 22 | 27 | 32 | 37 | 42 | 47 | 52 | 57 |
| 600-mile zone | 8 | 14 | 20 | 26 | 32 | 38 | 44 | 50 | 56 | 62 | 68 |
| 1000-mile zone | 9 | 16 | 23 | 30 | 37 | 44 | 51 | 58 | 65 | 72 | 79 |
| 1400-mile zone | 10 | 19 | 28 | 37 | 46 | 55 | 64 | 73 | 82 | 91 | 100 |
| 1800-mile zone | 11 | 21 | 31 | 41 | 51 | 61 | 71 | 81 | 91 | 101 | 111 |
| Over 1800 miles | 12 | 24 | 36 | 48 | 60 | 72 | 84 | 96 | 108 | 120 | 132 |

The local rate is applicable to parcels intended for delivery at the office
of mailing or on a rural route starting therefrom.

It will be observed that the rates of postage are largely reduced and that
the limit of weight is increased from four to eleven pounds. Parcels will
be delivered at all free-delivery offices and to patrons residing on rural and
star routes; they may be registered and may be accorded special-delivery
service on payment of the usual fees, and they may be insured against loss
in an amount equivalent to their actual value, but not to exceed \$25, upon
payment of a fee of five cents. Distinctive stamps must be used on all parcels,
but they may be mailed in quantities of not less than 2,000 identical
pieces without stamps affixed, the postage being paid in money.

**PARCELS POST TO
START TOMORROW**

(Continued from page 1)

New Year's day, and consequently a
holiday, there will be virtually no
business here in the new department
until Thursday.

The inauguration of the parcels
post plan in the United States tomor-
row will mark one of the important
epochs in the American postal ser-
vice. The last previous step of im-
portance was taken when the rural
free delivery became a fact. Since
then the demand for the introduction
of a parcels post system in the United
States became so urgent that congress
finally, notwithstanding the most
strenuous opposition from certain
quarters, yielded to the wishes
of the people and enacted a parcels
post law.

The framing of the law was not an
easy matter, as the whole scheme
was in the nature of an experiment
upon a tremendous scale. It is true,
the framers of the law had for their
guidance the laws and regulations of
a number of foreign countries where
parcels post has been in successful

operation for many years, but the
conditions of the postal system in
the United States are so radically
different from those of the postal
service in other countries that it was
not an easy matter to adapt their
laws to American conditions and re-
quirements.

At last the law was drafted, sub-
mitted to congress and passed and
January 1, 1913, was fixed as the
date for its going into effect. The
many radical changes in the postal
service necessitated by the require-
ments of the parcels post system
imposed a tremendous burden of work
upon the postal authorities and dur-
ing the last three months several de-
partments worked practically day and
night to complete the preparations
for the inauguration of the new ser-
vice.

be possible, the cost of piping the
water to this to be about \$100,000 in
the first instance. The clipping does
not say that the Portland Board has
agreed to Oregon City's tapping the
main, but says it will give the propo-
sition consideration.

That there will be a lively argu-
ment when the petition is presented
at the luncheon of the Live Wires to-
day is assured for several members
of that organization are champions of
the present water system and unhesi-
tatingly declare that the water now
furnished is pure. They declare fur-
thermore that the present typhoid
fever epidemic was not caused by
impure water.

F. J. Toozie, chairman of the Health
Committee of the City Council, an-
nounced Monday night that the com-
mittee was still working on the wa-
ter question. He said a report would
be made in a few days.

"We intend to make the fullest in-
vestigation possible," said Mr. Toozie.
"The people have a right to know
what we are doing and we shall let
them know."

**Heart to Heart
Talks.**

By EDWIN A. NYE

A UNIVERSAL PASSION.
When Theodore Roosevelt stood up
with a bullet in his breast and made
his speech the world was thrilled by the
spectacle of high courage.

It was a big first page story.
But—
If on that day you turned to the in-
side pages of your newspaper you read
a story fully as stirring, though on a
lesser stage.

Old James Flannery, sixty-eight, was
a crossing tuggan in Syracuse, N. Y.
On that day he was struck by a run-
away taxicab. Holding to the machine,
he was dragged along by it, bruised as
to hands and back and arms, and al-
most killed.

A crowd gathered, and they started to
take the old man to the hospital.
Just then Flannery heard the whistle
of an approaching train. It was like
the clarion call of a bugle to the sol-
dier. He broke through the crowd and,
though almost fainting, wigwagged his
train across.

And again:
William Hugh of Gary gave up his
leg and life to the surgeons in order
that the life of a girl whom he had
never seen might be saved and died
with a smile, saying, "I am glad I
did it."

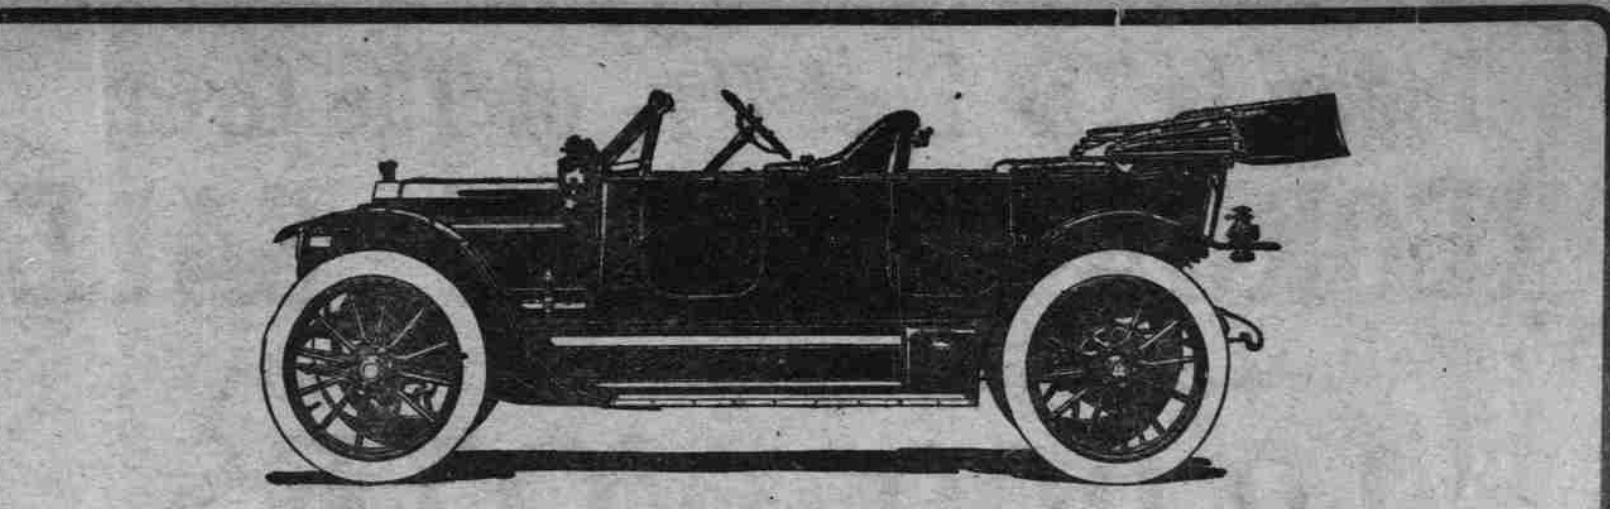

He well deserved the tears of an ad-
miring people.
But on the day he died a dozen per-
sons in Mason City, Ia., voluntarily
gave great patches of their skin for a
similar operation.

In short—
Scarcely may you name a heroic
deed done with altruistic passion but
that it may be matched by others full
as glorious.

During the past few weeks, on the
far away plains of Thrace, in the bloody
conflict between the Balkan allies and
the Turks, have been enacted a thou-
sand deeds of lofty unselfishness.

Bulgaria's queen served in a hospital
as a nurse, and in a nurse's garb and
doing a nurse's work. Other women
of princely birth served in like capac-
ity.

The facts are—
The whole world, as never before, is
being stirred by a passion for
knows no
universal to
as the

BRICK AND TILE PLANT.

Oregon City offers a fine opportu-
nity for some enterprising individual or
company to install a brick and tile
plant. There is a great demand for
these products in this county and at
present it is difficult for the farmers
to obtain tile for draining their land
and all that is used, must be shipped to
Oregon City from some distance.

Some of the farmers are draining
their lands with clay tile and others
use the new concrete tiling. There
is an opening here for a concrete pro-
ducts plant and it will not be very
long before some one will take advan-
tage of the opportunity and install
such a plant.

Concrete tile, sewer pipe, building
blocks, brick, etc., would be in great
demand.

Goodwater, Mo.—"Ever since I was
a little girl," says Mrs. Riley Laramore,
"I was a great sufferer from dyspepsia.
I suffered misery after eating, and had
terrible heartburn.

I thought I had to suffer this way as
long as I lived, but when I began to take
Theodor's Black-Draught, in small
doses, every night, the heartburn was all
gone in a few days, and I could eat
without distress.

I took two small packages in all, and
although that was some time ago, the
dyspepsia has not returned.

I speak a good word for Theodor's
Black-Draught whenever I have the oppor-
tunity."

If eating causes distress, we urge you
to try Theodor's Black-Draught. It
cleanses the system, helps the stomach to
digest its food, regulates the bowels,
stimulates the liver.

It acts gently and is without bad
effects. Price 25c.
