R. R. TAX OFFER IS DECLINED BY COURT
The County Court, at a meeting Friday, declined a proposition to compromise tax claims for 1908 made by the Oregon & California Railway. The company paid one half the taxes assessed for that year the total being \$30,576.18. One of the propositions was to pay one half the balance and another was to pay the remaining half without the accrued interest or penalty. The total with interest and penalty is about \$22,500. County Judge Beatie announced Friday night that the court would institute the usual proceedings for the collection of the money. Colonel J. B. Eddy, tax agent for the company, made the propositions. The taxes are due on land grants for which the government is suing.
ADVERTISING PROFITABLE.
An advertisement in the Enterprise brings results. A "Want Ad" in yesterday's issue brought an answer at 8 o'clock the same morning, before the papers were all distributed and another by noon. To beat that one would have to get up before the sun. "One who tried."
A Pointer For the Doctor.
He was an Irishman, tall, broad shouldered and red headed. They had brought him into the hospital on a stretcher, and so far as the doctor could see, he was troubled principally by the fact that he had been overeating. Finally the doctor turned to the nurse and ordered for the patient an emetic. "Look here, doctor," said the Irishman, "there's no use in you giving me an emetic. I tried it twice in the old country, and it wouldn't stay on my stomach five minutes."—Popular Magazine.

METHODISTS PLAN INTERESTING PROGRAM
(Communication.)
Dr. T. B. Ford, pastor of the First Methodist Episcopal Church, has decided that the Sunday evening exercises in his church shall be less formal and freer, less solemn and more cheerful, less of "the same old thing," and more variety, and invites the people, his own and the non-church going, to come and see, and to join in a popular service.
In addition to his popular discourses on "If I Had My Life to Live Over Again," there will be preludes on topics of current interest, readings, illustrated songs, special music by the choir, the male quartet, and the men's chorus under the direction of Mr. Aldredge. There will be some surprises next Sunday evening, the first Sunday of the New Year. The service begins promptly at 7:30 o'clock. Dr. Ford announces a special series of sermons, beginning next Sunday morning, on "Fundamental Facts in Christianity," the first being on "The Rationality of Christian Faith."

POTATO MARKET REMAINS INACTIVE
The public continues to show no desire to purchase potatoes and even at the lowest price in many years there is little outward movement. Every mail brings notice of additional shipments to the trade and supplies now held are so great that commission interests are unable to find room for their offerings.
The outlook for the immediate future is not improved. California seemingly has all the potatoes the trade of that state will need for a number of months. As long as this condition rules there is no likelihood of any material buying of Oregon stock, even at low prices.
Business with the southwest is entirely out of the question, the moment for the very good reason that potatoes are being delivered there by Colorado interests at a price that is little above what the freight charge from the Pacific coast would amount to.
Conditions in the union trade are no better than for potatoes, although prices are higher than in the latter line. The Confederated association is firm in its views and is not offering under its minimum mark.
Prevailing Oregon City prices are as follows:

FAMOUS PORTLAND EDITOR SPEAKS HERE
The first lecture of a series to be given at the High School auditorium was delivered by Dr. C. H. Chapman, of the Oregonian editorial staff, Thursday evening. Before the lecture began, an hour was devoted to demonstration work by students of the High School in the departments of industrial education, the boys in the manual training room and the girls in the domestic science class. Many visitors observed the work and commented favorably upon it. A chorus of High School girls sang before the lecture began, and were received with much enthusiasm. Joseph E. Hedges introduced Dr. Chapman, whose subject was "The New View of Community Life."
The speaker said that the human race has lost much by allowing to develop far beyond the point to which the community has attained. The present need is, he said, to vitalize community life, to utilize to a greater degree the institutions that belong to all, such as church, school and government. The old-time church dwelt upon the "life beyond," but aided very little in solving present difficulties, he said. The new church is entering into "the life that now is," is sympathizing with the young instead of antagonizing them, is spreading abroad the real gospel of happiness and joy and appreciations of the beautiful. The old-time school scorned the training of the hand, but gave all its effort to the so-called "training of the mind." As a matter of fact, hand and brain develop together, said the speaker, and the modern idea is the correct one; the modern idea neglects neither hand nor brain. The school of today is really Christian. The school has "got religion"; the church is going to "get religion"; the government is going to "get religion"; and so the time approaches when the real gospel of Jesus, real Christianity, will be practiced and people will be both intelligent and happy. Dr. Chapman's lecture throughout was a scathing expose of what is effete and insincere in religion, education and government and a wholesome defense of the better tendencies that are manifesting themselves upon every hand.

DON'T PULL OUT THE GRAY HAIRS
A FEW APPLICATIONS OF A SIMPLE REMEDY WILL BRING BACK THE NATURAL COLOR
"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of old age, for there are thousands of elderly people without a single streak of gray.
When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair-restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandfathers used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully analyzed by experts.
Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.
Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair.
This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.
A small classified ad will rent that vacant room.
