CITY OFFICIAL NEWSPAPER

Jan. 8 in American History.

1815—General Andrew Jackson won his extraordinary victory at New Orleans. Over 2,000 Britons fell. Jackson's loss was 8 killed and 13 wounded. 1840—George Croghan, hero of the battles of Tippecanoe, Fort Meigs and Sandusky, died in New Orleans, born 1791. 1902—General Francis J. Herron, noted Federal officer in the civil war, died; born 1840. 1910—General Newton Martin Curtis, "hero of Fort Fisher," died; born 1836.

ASTRONOMICAL EVENTS.

(From noon today to noon tomorrow.) Sun sets 4:50, rises 7:24. Evening stars: Venus, Saturn. Morning stars: Mars, Mercury, Jupiter.

COMMERCIAL CLUB That the residents of Oregon City and Clackamas County are at last realizing what a fine work the Oregon City Commercial Club is doing is indicated by the reports of officers made at the meeting of the board of governors Monday evening.

The report of the treasurer showed there was more money in the treasury than ever before at the end of the fiscal year despite the fact that large sums had been expended in equipment of the club rooms and for other improve-

BLAND ACRE TRACTS

Buy a home in Bland Acres 10 per cent down and 2 per cent per month, price \$126.00 to \$180.00 per acre. After Jan. 15 these prices will be \$140.00 to \$200.00 per acre.

We have absolute assurance that the Southern Pacific will be built past this tract. They are now doing their preliminary work and at present are clearing the right of way for this line.

DILLMAN & HOWLAND WEINHARD BUILDING.

sors of Mr. McBain, and no matter which one is elected the club will have an enterprising, conscientious and capable head.

SCHOOL SYSTEM IS AGAIN ENDORSED

"Better discipline, better and more regular attendance, more thorough work and better conditions in general have resulted from the school supervisor system in Polk County" is a part of a report made by H. H. Parsons, rural school supervisor, to T. W. Brunk, recently elected a member of the Legislature. This is but one of the numerous testimonials to the efficiency of the new system, which at first was opposed by a large number of persons because it was feared that the additional cost of maintaining the schools would work a hardship upon the taxpayers. The report continues:

"Teachers report to me at the end of each month the amount of work they have covered, with requests for whatever help they may need.

"I average a visit to each school once in six weeks during its term, and upon my return mail a report of the conditions found to each director, the teacher and the County School Superintendent.

"I find that my visits are looked forward to in most cases, and act as an inspiration for good work on the part of the pupils and teacher. A great many times I find quantities of work being saved for my inspection and approval. Even the parents, if I do not happen to show up at the time they expect me, come to the Superintendent's office and ask why I have not been out."

CARRIE JACOBS BOND TO SING THIS EVENING

Carrie Jacobs Bond, whose beautiful songs, so full of feeling, have won for her an enviable place in the hearts of the people, will appear this evening at the Masonic Temple, Portland, under the auspices of the Grade Teachers' Association and her friends and admirers in Portland and Oregon City are looking forward to this opportunity of hearing the gifted woman who has been frequently referred to as the "Riley of the Song World."

She interprets her compositions, putting a world of feeling and expression into them. She is a womanly woman with a wonderful personality, with a wealth of soul and a great love for humanity that makes itself felt and finds expression in her music and in the words of the songs that she has written.

Carrie Jacobs Bond does not pretend to sing—she just interprets.

SIDEWALKS ORDERED BY CANBY COUNCIL

The new city council of Canby had its first meeting Monday evening when H. C. Gilmore was elected and acted as president of the council, Mayor Deadman being absent. The following members were present: H. C. Gilmore, president; W. H. Dear, J. A. Graham, G. W. White, L. Wang, H. W. Hewitt, J. L. Southorlin and E. C. Shull, chief of police; C. L. Combs and J. Liesse, policemen; W. H. Evans, superintendent of streets; C. F. Romig, recorder. On account of the absence of Mayor Deadman, no committee appointments were made.

The council ordered the building of fifteen blocks of sidewalk, a large part of which will be of concrete. An ordinance passed its first reading providing for the abandonment of the old hill road between Canby and Barlow and the building of a new road through the Canby gravel pit. Permission has been obtained from the Southern Pacific Railway Company to allow the new road to pass through its property, as well as to obtain gravel from the pit where the road passes through it. If this road is built it will form a valuable link to the Pacific Highway as well as eliminating the bad grades and curves between Canby and Barlow. The new road will run direct from the east approach of the Molalla bridge into Canby.

WATER PROBE IS STARTED BY WIRES

Preventing and Fighting The Country's Worst Scourge

THESE pictures show just how the white plague is being fought by the National Association for the Study and Prevention of Tuberculosis. At the top is shown a roof garden school for gardening in Chicago, where children who are suspected of being susceptible to the dread scourge are taught practical things in the pure air and sunlight, so that when they grow older they may live in the open as tillers of the soil, retaining health and happiness. At the bottom may be seen tuberculosis patients being cared for on a ferryboat where they get the air and sun

pure water. There would be little chance for contamination there, he said.

"I am not strong for the extension of the intake pipe for the inauguration of the hydrochloride system for purifying water," declared the doctor. "I have been abused for what I said about our water supply, but I wanted the people of Oregon City to understand that the water was filthy when the fever epidemic started. It is the duty of a practicing physician to tell the people when they are drinking poison. It is certainly not a credit to the city to have a lot of typhoid cases, and it is a shame and a disgrace to ask Dr. Norris to do what he has to do at a salary of \$10 a month. Give him a few dollars more and he will be able to take care of the situation and that's the first thing that ought to be done. Dr. Norris has worked hard and faithfully and he has earned his salary over and over again. There is no filter made today that will take colon bacilli out of water."

W. S. U'ren presented a motion that the Live Wires thank Dr. Mount for talking to them in "plain English" and the motion was carried.

E. T. McBain declared that his experience had taught him that pure water cannot be obtained from a river that carries so much sewage as does the Willamette. He declared that water cannot be purified with a filter. Dr. L. L. Pickens believed the property owners would favor the expenditure of money for a pure water supply and M. J. Lee, of Canby, said good water from a well could be obtained within four miles of Oregon City. T. J. Gary explained the cause of a typhoid epidemic at Willamette several years ago, declaring that the present water is pure. He suggested that temporary arrangements might be made to get water from Willamette Springs. Mr. Lee called attention to the water supply of Vancouver, Wash., which, he said, is obtained from wells, the quantity being 250 gallons per minute.

J. E. Hedges, secretary of the board of water commissioners, agreed that much that had been said relative to the city water and water conditions generally is true, and he made it plain that the members of the water board are just as anxious to remedy conditions as any other citizen of Oregon City. He was glad to get expressions of the people as to what had best be done, and was not ready to spend money to improve the present plant if the system is to be abandoned. Mr. Hedges read extracts to show the satisfactory results obtained from filtration plants in Minneapolis and Bangor, Me. Mr. Hedges talked with impressive sincerity and voiced the warning that Oregon City should go ahead carefully and look to the future in obtaining a water supply.

F. A. Olmsted, chemist of the Willamette Pulp & Paper Company, strongly recommended the installa-

tion of hydrochlorides and said the water should be analyzed daily, so long as a filtration system is in use. Jesse Hazel, of the Northwestern Association, A. C. Howland, of Dillman & Howland; Leo S. Burdon, of the Willamette Pulp & Paper Co., and Attorney C. H. Dye were elected to membership in the Live Wires.

MARY E. HAMILTON AND DWIGHT BAIN WED

Dwight D. Bain and Mary E. Hamilton were married at the home of the bride's mother, Mrs. R. E. Bain, of Twelfth and Jefferson Streets, Tuesday evening, Rev. J. R. Landsborough officiating. Mr. Bain is engaged in the transfer business in this city and the bride is a well known young woman. She is a daughter of Mrs. Dora Hamilton, who lives on Center Street near Sixth. The wedding was a quiet one, only the relatives and a few friends of the couple being present.

35 TEACHERS ARE SUCCESSFUL AT QUIZ

Superintendent of County Schools Gary has announced that thirty five teachers who tried the recent examination held here were successful. They are as follows: Melvin W. Dickson, Esther M. Campbell, Frank J. Spagle, Alma M. Richter, Cora A. Haselbrink, Louise McMillan, Florence M. Hood, John Fiske, Jr., Bessie Orwalt, Floyd D. Webb, Mary E. Polk, Lillian O. Fredolph, Mae Dickerson, Ethel Strong, Nellie Hastie, Helen Dunn, Genevieve L. Capjen, Harry E. White, H. E. Webb, F. M. Gill, Jessie Bowland, Gladys Richey, Gertrude I. Unroe, Edna E. Deyo, Edith C. Karr, Gussie Stadden, Carrie Lamoreaux, Dorothy Hill, Elsie Dahlstrom, Inez W. Snodgrass, Lela S. Reed, Myrtle E. Lay, Nellie A. Otty, Nunda Becke, Anna Bachmann.

English Rugby Team Is Coming. In all probability a combined rugby team from the universities of Oxford and Cambridge will pay a visit to California next year. William W. Hill, the referee of the big game this year and secretary of the New South Wales Rugby union, now in England, will strive to arrange a tour for the combined English universities to Australia.

A HARMLESS WAY TO DARKEN THE HAIR

A LITTLE SAGE AND SULPHUR MAKES GRAY HAIR VANISH—A REMEDY FOR ALL HAIR TROUBLES

Who does not know the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact, Sulphur is a natural element of the hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

Wants, For Sale, Etc.

Notices under these classified headings will be inserted at one cent a word, first insertion, half a cent additional insertions. One inch card, \$2 per month; half inch card, \$1 per month. Cash must accompany order unless one has an open account with the paper. No financial responsibility will be assumed if the remedy is not exactly as represented. Minimum charge 16c.

Increase of Gold Has Raised Cost of Living

By WILLIAM L. DOUGLAS, Former Governor of Massachusetts

IT IS CLEAR TO ME THAT DEPRECIATION IN VALUE OF GOLD IS RESPONSIBLE FOR THE WORLDWIDE ADVANCE IN PRICES JUST AS HIGH PRICES ARE RESPONSIBLE FOR HIGH WAGES, HIGH INTEREST, LOW PROFITS, DISCONTENT, ETC. GOLD IS CHEAP BECAUSE IT IS MORE PLENTIFUL THAN EVER BEFORE. ITS SUPPLY IS INCREASING FASTER THAN ARE THE SUPPLIES OF OTHER PRODUCTS BECAUSE ITS COST OF PRODUCTION IS RELATIVELY CHEAPER—THAT IS, THE PROFITS OF PRODUCING GOLD ARE TODAY GREATER THAN ARE THE PROFITS OF PRODUCING MOST OTHER COMMODITIES.

It is the cost of producing a commodity that in the end determines its exchange value with other commodities. Gold is no exception. The annual output of gold is now nearly \$500,000,000, or more than four times what it was in 1890. More gold will be produced this year than was produced in the forty years from 1800 to 1840. The world's stock of monetary gold now exceeds \$8,000,000,000 against \$5,025,500,000 in 1901 and \$3,901,900,000 in 1892.

Thus within twenty years the world's OUTPUT OF GOLD HAS QUADRUPLED, while the stored up supply has more than doubled. Of course there has been no similar increase in the supply of other commodities—the things that exchange for gold. That is the reason why GOLD IS CHEAPER AND OTHER THINGS DEARER. There is no mystery about it. The fact that the gold output is likely to increase, the cost of living to rise and our troubles to multiply for some years to come threatens still further discontent.

The business and commercial world is entitled to the quickest possible relief from the present disturbed conditions. If there ever has been a need for real statesmanship since the Declaration of Independence was signed it is now. INFLATION OF PRICES AND LAND VALUES CANNOT CONTINUE MUCH LONGER WITHOUT RESULTING IN A GRAVE WORLD CRISIS.
