SUPPLY AND DEMAND Senator Dimick, of Clackamas County, has introduced a bill in the Legislature which provides for an eight-hour work day for persons employed in factories. It is largely aimed at the mills, in, and adjacent to Oregon City. The bill, on the face of it looks good. A man advocating such a measure, it would seem, would have the support of the men working in the mills—IF THE MEN WORKING IN THE MILLS WERE WITHOUT BRAINS. However, the men working in the mills have brains, and Senator Dimick has yet to tell us that the men working in the mills inspired the bill which he has introduced. The fact is the men working in the mills did not inspire the bill, and a further fact is if the men working in the mills were canvassed tomorrow regarding their opinion of the bill a majority would disapprove it.

Ideal small Poultry Farm fully equipped to care for 500 to 1000 chickens, small dwelling house, laying house and scratching pen 16 x 45 with double floor. Brooding and incubator room 12 x 16, concrete floor. Abutting on car line and only two minutes walk to station. Price \$1500, \$500 down, balance \$10 per mo. Fine opportunity for person working in town and wanting rural home. DILLMAN & HOWLAND WEINHARD BUILDING.

Why become thy brother's keeper when thy brother is as well off as you? It would be ludicrous if the millworkers would try to fix your hours of labor at eight hours a day.

Gilbert L. Hedges, in his address at the banquet of the Congregational Brotherhood Tuesday evening, said that no man should be compelled to work 12 hours a day. The types made it appear that Mr. Hedges said he believed men should not be required to work longer than 12 hours a day. He believes in reducing the hours of working men in factories.

FORUM OF THE PEOPLE

DEVELOP CIVIC PERSONALITY. OREGON CITY, Or., Jan. 22.—(Editor of the Enterprise.)—Cities, like people, have personalities. The personality of Oregon City is simply a composite of yours or mine, and the rest of its citizens. Individually we all think Oregon City is a pretty good place and believe it might be made better—else we would not be here.

But in order that other people may know Oregon City is a place preeminently fit to live in, we must make them realize that the term Oregon City means something in particular—that it is a city of personality. Until Oregon City is a better place to live in than most other cities and until outside people know this, we cannot perceptibly grow. The question is, how can we best impress this fact on ourselves and on everybody else?

To have a personality a town should stand for something. It must be a good place to make money in and to economically spend it. It must be a healthy town with a pure water supply, and it should be a social town. Every citizen has these different requirements to a greater or lesser degree. But the successful town must have them fulfilled just a little better than do any of its competitors. Then it should have a striking means of presenting these facts to all outsiders. Both of these objects are possible for Oregon City through the cooperation of not only the Commercial Club members and the Live Wires, but of every loyal citizen in the city.

Oregon City is a Good Town. Oregon City is a mighty good town, worthy of the best of everything. That's why we have joined the American Drug and Press Association and offer to our people the Meritol line of preparations. There is nothing like these goods, guaranteed in every way, without an equal, made by experts. We want Oregon City people to have the best there is, so we offer you this line. Ask to see Meritol goods. Jones Drug Co. ***

"BOIL THE WATER" OREGON CITY, Jan. 22. (Editor of the Enterprise)—Suggestions have been made to remove the intake pipe of our present water system to the center of the river about the Falls where the current is rapid. In connection the experience of Chicago may be instructively studied. That city derived its water supply from the bottom of Lake Michigan. The first "intake" was located many hundreds of feet from the shore and in spite of every precaution that water was contaminated and typhoid prevailed.

Mrs. Emma Doane Presenting Two Mile Liberty Bell Petition

SAN FRANCISCO wanted the historic Liberty bell and she is going to get it. The bell will be sent to the great city of the Golden State for the Panama Pacific exposition in 1915. It was Mrs. Emma Doane of San Francisco who took the two mile petition of the California school children to Mayor Blankenburg of Philadelphia. She is shown here standing by the petition which is on a big reel presenting it to the mayor. The beloved cracked bell is also shown. This will be its seventh and longest trip.

take free from the "fotsam and gotsam" of an enormous lake commenced and from ice in winter. The men were often completely isolated for weeks by ice and snow. Typhoid still continued and again the edict was renewed to "boil the water" and another tunnel was driven four miles out crib, light house, etc. erected and crew installed as before.

Chicago now began to breathe easily and flattered itself that the problem was solved and an inexhaustible supply of pure water ensured forever. Very soon the suspicion was whispered about that the elision and agile "baccled typhoses", had found their way out to the new crib through four miles of cold lake water sewerage contamination was again detected and typhoid was found. The injunction to "Boil the Water" was renewed—Chicago was now face to face with the problem of disposing of its sewage in some other way than sewerage in some other way than sewerage.

Women Are Sacrificing Style For Health

THE IDEAL WOMAN By Dr. SMITH. The small waisted woman represents the frail woman—the woman at the bottom of the physical ladder. Hoing potatoes is just as good exercise for women as playing golf, but the same good result is not accomplished by the former, owing to the difference in the mental attitude. The ideal physical type of woman has deep chest, strong muscles, enough fat to cover her bones and an unconstructed waist line. Widely Known as an Expert on the Human Form

GREATER REGARD FOR HER HEALTH IS GRADUALLY CHANGING WOMAN'S FASHIONS. When woman ceases to follow the prevailing fashion and adopts a fashion suited to her peculiar figure then we shall have reached an IDEAL STATE.

Woman has entered upon such an evolution now because she is BEGINNING TO SEEK PERFECT HEALTH and the splendid type of beauty that only perfect health can give.

Women in giving greater consideration to matters of health are RISING TOWARD A ZENITH OF THE MOST PERFECT RACE OF WOMEN THE WORLD HAS KNOWN.

I am sure the early Greek women put health before fashion. When our American women follow this example, which they are beginning to do, we shall have a superior race.

Women have followed fashion almost religiously. If the prevailing style calls for small waist and slender figure both fat and slim women try to meet it, REGARDLESS OF THE INJURY TO THEIR HEALTH AND GENERAL APPEARANCE.

I am not so sure but that there were just as many frail women among the ancient Greeks as we have today.

Women who wish to improve their health should quit health fads.
