"All husbands must give in to their wives sooner or later, my boy."

Here were two men of experience of whom I should have learned. But the experience of age is of no consequence to youth. It occurred to me that I would bring on a trial as soon as I had returned from the honeymoon to determine which had the stronger will, my wife or I.

I tried in various ways to get up a wrangle between my wife and myself, but in everything I required she gave up so cheerfully that I began to think . if my father was right my case was an exception. If my wife announced that we would have lamb for dinner and I insisted on beef, beef it was. If I wished to go to the theater and she wished to stay at home we went to the theater, and if the wishes were reversed I still had my way. I invited my uncle to dinner just to show him that it was I who was head of the house. He came. I undertook to do a bit of training by way of illustration, and it succeeded beyond my expectations till a matter came up of very little consequence, but upon which my wife seemed to have set her heart upon having her own way. She wore a dress with a trimming which I did not like,
