6-YEAR TERM FOR PRESIDENT FAVORED

WASHINGTON, Feb. 1.—Final balloting on the constitutional amendment proposed by Senator Works, which would give future presidents of the United States a single term of six years, resulted in the resolution passing the Senate 47 to 23.

Senator Hitchcock's amendment to the Works resolution providing that the presidential term after March 3, 1917, be six years, and that no person elected, was defeated by a vote of 37 to 42.

Senator Cummins in advocating the Works amendment said:

"There has been a continuous and persistent demand for the enactment of this amendment. I believe the president will more faithfully and efficiently perform the duties of his office if he is not vexed or disturbed by the thought of re-nomination."

"Every president, except only Washington, would have been a better executive if he had not been eligible for election. The president should be removed from the maelstrom of politics and should not travel from one end of the country to the other, appealing to the people as candidates for other offices do."

BANDIT ROBBS CHICAGO TRAIN OF \$50,000

CHICAGO, Feb. 1.—A lone robber last night held up an express train in the heart of Chicago's business district and fought his way to freedom with the valuables variously estimated at from \$50,000 to \$100,000.

Using a blue silk handkerchief for a mask, the thief forced the express messenger to turn over the key to his safe, containing yesterday's entire receipts at the Union Stockyards. The contents were thrown into a leather bag and the robber started to leave the car.

The conductor, with a revolver, attempted to block the thief's path, but was knocked down by a block from the bandit's fist. Then the robber jumped from the train and, mingling with the theatre crowds in the street, escaped.

The robbed train is known as the "Stockyards Special" and is used to carry money and valuable express packages between the stockyards and the downtown district. Although the chief clerk of the Adams Express Company said today that the loss is not more than \$3000, the police insisted that the train never carried less than \$50,000, and asserted that the loss would exceed the latter figure.

FAIR ASSOCIATION LIQUIDATING DEBT

(Continued from page 1)

Fair buildings proper. This lighting system is complete and satisfactory and was installed at an expense of \$500.00. Other minor improvements were made, such as new fences and additions to the sheep and swine barns etc.

The Dimick Stock farm built at their own expense, a very attractive and convenient swine barn in which to exhibit their Poland China hogs. They intend to enlarge this barn before the coming Fair. The erecting of this barn is a very commendable act and a great help to the Fair as it shows interest and confidence.

In the way of needed improvements, I would recommend that the water pipes leading from the tanks to the barns be replaced with larger pipes and also laterals to be extended to the camp grove and to the north corner of the grounds and there a watering place be established for the use of those who have horses.

Display cases should be built for the Ladies Textile and Domestic departments. This is very important as it is not possible to exhibit the articles of these departments without the proper cases.

A poultry building must be erected as it is folly to expect the owners of high priced birds to display them in an old shed such as we have been using. This should be a neatly con-

Questions for Feb. 2

(Copyright, 1911, by Rev. T. S. Linscott, D. D.)

The Flood. Gen. vi:9-22; vii:1-24. Golden Text—The wages of sin is death, but the free gift of God is eternal life in Jesus Christ our Lord. Rom. vi:23.

(1.) Verse 9—What is the minimum of goodness in order for a man to be pleasing to God?

(2.) What is the meaning, when it is said concerning Noah, that he "was perfect in his generation," and "walked with God?"

(3.) Verse 10—What is the actual value to a home of three healthy and good sons?

(4.) Verses 11-13—What is the nature of the badness of which the world was guilty that God determined to destroy it?

(5.) By what method are similar bad men destroyed?

(6.) How much is the world better morally than it was in the days of Noah?

(7.) Verses 14-16—Give a description of the ark, with its measurements in feet, taking the cubit of the lesson to be eighteen inches. (This is one of the questions which may be answered in writing by members of the club.)

(8.) Verse 17—What evidence outside of the Bible is there that there was such a flood as here described?

(9.) What can you say for, or against, the theory that this flood only extended to the part of the earth then inhabited by man?

(10.) Verse 18—What is the fact that Noah, his wife and his sons and their wives were saved in the ark said to be typical of?

(11.) Verses 19-24—How do you account for the apparent discrepancy between these verses and Chapt. vii:23, concerning the number of beasts and fowls taken into the ark?

(12.) If it proves true that the Genesis account of the flood is taken from two other accounts which do not agree in all particulars what effect will that have upon any vital Christian doctrine?
