ASTRONOMICAL EVENTS.

(From noon today to noon tomorrow.) Jupiter, Mars.

HITTING THE While not a panacea DIVORCE EVIL for the evils of divorce, the recommendation that marriage of divorced persons be forbidden within one year from the granting of a decree, is an excellent one. It strikes a direct blow at the most immoral and demoralizing phase of divorce, the getting rid of one partner for the purpose of taking another. - Persons who seek divorce because the marriage has become unbearable, or for the sake of their children, would feel it no hardship to wait a year before marrying again. It bears restrictively upon those whose attitude toward marriage is injurious to a healthy social con-

dition, and whose conduct is essen

tially immoral.

The chief thing to consider about such a statute is its effectiveness. Illinois has been experimenting with one for several years, not at all satisfactorily. Unfortunately, such a a philosopher. 1 am, as you know, prohibition can not exceed beyond the state line. There is nothing to spectable myself, but I grieve to tell prevent a man getting a divorce in Belleville or Edwardsville, with the full year of prohibition or remarriage putting the decree in his pocket, taking a trolley car to St. Louis and getting married in a couple of hours. 'fnis sort of thing has been done by have evidently mated us, my good wothousands of divorces in Illinois. Recently a bombshell was thrown into the ranks of such law evaders by the decision of a judge of a lower court that such marriages were not legal in Illinois, did not Jegitimize children and did not bestow property or inheritance rights. A court at Edwardsville has gone farther than that recently, and summoned for contempt of court a couple married out

Cheap Loans to Farmers an Aid to National Progress

By MYRON T. HERRICK, American Ambassador to France

PWARD of two hundred million dollars a year can be saved by the farmers of this country by the introduction of AGRICULTURAL CREDIT SOCIETIES. The average rate paid for farm loans in the United States is eight and one-half per cent. The average rate paid in Europe is four and onehalf per cent. A reduction of four per cent in the interest paid by our farmers on their six billion dollars of borrowed capital would to be forgotten. mean a yearly saving of two hundred and forty million dollars.

There is no more important factor in the social and economic progress of the country than the wise development of its AGRICUL-TURAL RESOURCES. The social importance of successful agriculture primarily is due to the fact that farm life PRODUCES A VIRILE CITIZENSHIP. It is conducive to independent thinking takes rank as an amusement of both and well considered action.

The stability of our national life and the maintenance of our position as a great force for good among the nations of the world depend upon our ability constantly to IMPROVE THE QUALITY OF OUR CITIZENSHIP.

IF THIS COUNTRY IS TO PLAY THE PART THAT IT SHOULD IN THE PROGRESS OF THE WORLD IT IS ESSENTIAL FOR US TO ENCOURAGE THAT SORT OF LIFE AND THAT KIND OF INDUSTRIAL DEVELOPMENT THAT PROVIDE THE PROPER ENVIRONMENT FOR A HIGH ORDER OF MANHOOD AND WOMANHOOD.

OPPOSES 10-HOUR BILL.

OREGON CITY, Feb. 4 .- (Editor of the Enterprise.)-In your issue of Tuesday, February 4, I notice a resolution was adopted by the Federation of Churches reading: "That the Church Federation go on record as favoring the 10-hour bill now pending in the State Legislature and send a resolution to that effect to the members of the Senate." I find my name is enrolled on the Finance Committee which would make it appear as though I was in favor of the bill, as the body went into committee of the whole on this resolution. Archduke Francis Ferdinand of Austria and His Family

HE reported recent critical illness of Emperor Francis Joseph of Aus tria-Hungary, which was both affirmed and denied, centered renewed interest in the Archduke Francis Fredinand and his family. He will succeed the aged emperor upon the latter's death. It will be recalled that when the archduke married the Countess Chotek against the wishes of the emperor and in violation of royal conventions he brought down upon his head the wrath of the doughty eighty-two-year-old ruler Later Emperor Francis Joseph partially forgave his nephew and raised his wife to the rank of Princess of Hobenberg She can never, however, rank as empress. This is the latest picture of the archduke and his famil-

Soon they are but spots on the water. and then they can be seen only for a moment as they breast the combers to get on the outside, where they can

make the race in. Once the line of breakers is reached, they lie in wait for a big one, and as it comes roaring in they paddle ahead as fast as possible to get speed enough so that the wave will pick them up. If they have a good start the comber takes them along on its inner edge. with the white spume curling up behind, and at the speed of an express train they race for the shore.

on June 17 or 18.

The old narsery rhyme of "Sing a Song of Sixpence" is an ancient allegory and a very pretty one. The earth is represented by the bottom of the pie. while the sky is the upper crust. The clouds are the clothes which the maid -who is daybreak-is hanging on the line before the king or sun is up. The money which the "king counts in his COAL which slip through the sun's fingers. Honolulu, but none of them can do the The blackbird, which nips off the maid's nose so unceremoniously and thus eads the song, is the sunset or end of day. The moon and moonbeams Waikiki who take to the surf like are represented by the queen and her honey, and thus we have the whole day amply accounted for.
