BREWERS HAVE ALL BUT 20,000 BALES

With dealers estimating that probably not more than 20,000 bales of hops remain out of the hands of brewers in the entire country, the situation in the local trade takes on a different look.
 While only a small amount of business has passed in the spot hop trade recently, considering the small amount of holdings the volume was quite heavy. Oregon holdings are estimated from 6000 to 7000 bales and California about the same as Oregon. Dealers have so few hops at this time they can scarcely be considered as a factor in the trade.
 This might possibly be one of the reasons why they are not inclined to boost the market on remaining lots. If anything their position may be considered bearish, because with hops in their hands and with a desire to take hold of contracts, it would not be wise for them to attempt to put the 1912 crop higher. This would ruin their chances of getting the contracts without paying more money for them. Recent deals in contracts have been around 15 @ 16 c a pound with the bulk of the growers holding out for still higher figures.

WIFE SENT TO INSANE ASYLUM ASKS DECREE

Alleging that her husband caused her to be detained in the insane asylum at Salem, although she was sane, Louisa Hamilton Monday filed suit for a divorce against William Hamilton. They were married in El Centro, Cal., January 2, 1908. Mrs. Hamilton says she was detained in the asylum from August 16 until September 1, 1912, when she was paroled. She avers that thereafter her husband tried to have her sent back to the asylum, laughed at her for having been an inmate of the asylum and insisted that she was insane. She is a native of Finland, and declares that her husband in the presence of others ridiculed her when she tried to speak English. She asks that her maiden name, Louisa Jacobson, be restored.

An Eccentric Wager.

In the old betting books of the Jockey club and White's in London are to be found many curious records of wagers. There was once a young man who made money on spider racing. "He wagered that a spider which he would produce would cross a plate quicker than a spider to be produced by a friend. Each spider was to have its own plate. His opponent's spider, however, on being started would not stir, while his own ran with immense speed. The bet was consequently lost, and the loser soon found out the reason why. Our young friend had a hot plate." This is told by Ralph Nevill in "The Man of Pleasure."

SHE GAVE UP ALL HOPE

Physicians Failed To Help Mrs. Green, But She Finally Found Relief in Cardui.

Meete, Va.—Mrs. J. C. Green of this place, says: "I suffered with womanly troubles so that I could hardly sit up. Two of the best doctors in our town treated me, and I tried different medicines, until I gave up all hope of ever getting well. One day I decided to try some Cardui. It did so much for me that I ordered some more, and it cured me! Today, I feel as well as I ever did in my life."

The pains and the trouble are all gone. I feel like another person in every way. I wish every sufferer could know what Cardui will do for sick women."

A few doses of Cardui at the right time, will save many a big doctor bill, by preventing serious sickness. It tones up the nervous system, and helps make pale cheeks fresh and rosy. Thousands of weak women have been restored to health and happiness by using Cardui. Suppose you try it. It may be just the medicine you need.

CASH REGISTER HEAD GETS ONE YEAR IN JAIL

CINCINNATI, Ohio, Feb. 17.—One year in jail and \$5000 fine was the sentence imposed today on John H. Patterson, president of the National Cash Register Company, convicted with other officials of the company of having violated the Sherman anti-trust law.

Before sentencing Patterson, Judge Hollister scathingly arraigned the business methods of the National Cash Register Company. Patterson was sentenced to serve one year in the Troy, Ohio, jail, and correspondingly heavy sentences were given 27 other defendants.

Only one of the defendants, George Edgeter, the company's secretary, escaped. He pleaded that his only connection with the concern was to look after the insurance and taxes, and that he had nothing to do with the actual manufacture or sale of its stock. On this plea the court finally dismissed Edgeter after it had already sentenced him to three months in the Troy jail.

Patterson's bond was fixed at \$10,000, and the bonds of the other 27 convicted men were fixed at \$500 each pending an appeal. Defendants William Hippius, Alfred Thomas and Jonathan Hayward were each sentenced to nine months in jail and to pay the costs of the trial. The other 24 defendants, including Pliny Eves, district manager at San Francisco, and Earl Wilson, former district manager at Los Angeles, and W. C. Howe, sales agent for the San Francisco district, were each sentenced to one year in jail and ordered to pay the costs of the trial.

Before sentencing the defendants, Judge Hollister overruled a motion for a retrial. The convicted men then filed notice of appeal and were given four months in which to prepare records. The sentences assigned the defendants, who had expected to be fined only.

The prisoners were sentenced to imprisonment in the county jails at Troy, Dayton and Lebanon, Ohio. Patterson was sentenced first and the other sentences followed in rapid succession.

Before sentencing the convicted officials, Judge Hollister said: "Success should not be measured by dollars. Without the illegal methods adopted by you defendants, your company could save sold millions of dollars worth of cash registers. The testimony amply justifies the verdict. However much the Sherman law may be misjudged by the ignorant, it is a clear statement, and one that cannot be misunderstood."

GUYON COMING ATHLETE.

Carlisle Man Likely to Rival Jim Thorpe Some Day.

Jim Thorpe, the world's greatest all round athlete, is to have a rival some day, according to latest advices from Carlisle. He is Guyon, the star Indian tackle, who played his first football game for the Redskins last year.

Guyon, according to Warner, the coach and athletic director, is headed the right way and is as good a natural athlete as Thorpe. In the interests of science Thorpe has recently been undergoing measurements on the theory that his development is physically that of just about the perfect man. He is above all a product of gradual development.
