of the schools, or through a day or two each year of attendance at farmers' institutes and like organizations. Up to the present time, while many graduates of agricultural colleges have taken up farming on their own account, the best of them have been absorbed into the rapidly expanding teaching force of the country.

The business men of Warrensburg have shown wisdom in subscribing money whose use must result in greatly increased crops and prosperity, and thus more business for themselves.

Were this done in only half the counties of all the states wonderful results would follow, whose effects would be felt in every industrial and commercial channel.

CITY SHOULD PAY A report of FOR LIGHT CURRENT the cluster light committee of the Live Wires, which was adopted, recommends to the city council that that body install cluster lights on Main Street from Third to Twelfth Streets, and on Seventh Street, from Center to J. Q. Adams Streets.

The committee should be commended for the work it has done, but for several reasons which we will enumerate, the Enterprise believes that better results can be obtained if the tax of installation and upkeep for the lights were turned around, that is, that the property owners pay for the installation of cluster standards and the city pay for the electric current consumed.

Again if the property owners were forced to pay for the electricity consumed they would only burn them when they considered that it would be to their especial benefit, and parts of the street would remain dark most of the time.

In other cities all over the country it is the custom of the property owners to install the light standards and for the city to pay for the current consumed, for this has been found the only way in which to have uniformity with the lights.

Out of Our Wealth and Power Has Grown a Grave Danger

By THOMAS NELSON PAGE, Author

WE see new conditions springing up about us on all sides, and the question is, "How shall we adapt ourselves to them?" It appears almost certain that some changes will come, and, indeed, must come, which may be VITAL TO OUR FUTURE WELFARE.

OUT OF OUR WEALTH AND POWER HAVE GROWN THE GREATEST DANGERS TO OUR WELFARE AS A PEOPLE, AS IS THE HISTORY OF ALL REPUBLICS.

Well may we pray as in the old liturgy, "In all times of our tribulation and in all times of our wealth, good Lord, deliver us," for we see NEW PERILS CONFRONTING US, which, if our forefathers saw at all, they saw but distantly, but the greatest peril is one which they foresaw, and that is the CHANGE IN THE CHARACTER OF OUR PEOPLE.

The road by which republics rise is the road of self denial and unselfishness. The road by which republics fall is the road of EASE and PERSONAL INDULGENCE. These are the perils which sap the forces of freedom. The former are but another term for character, which includes them all. The latter are but an equivalent expression for loss of character.

I DO NOT BELIEVE THAT WE AS A PEOPLE OR A NATION ARE GOING TO RUIN, BUT THERE IS EVEN NOW ENOUGH PERIL TO CAUSE A GRAVE DISQUIETUDE AMONG THOUGHTFUL MEN. WE HAVE REACHED A POINT FROM WHICH MANY REPUBLICS HAVE HASTENED TO DECAY. WE HAVE ATTAINED TO CONDITIONS WHICH SAP CHARACTER AND WEAKEN THE FORCES OF A PEOPLE.

They were married October 30, 1903, in Monroe, Mich. The plaintiff declares that her husband frequently came home in a drunken condition and on one occasion knocked her down. Dorthula W. McFarland seeks a decree from James W. McFarland. They were married in Odesa, Mo., April 20, 1884. The plaintiff alleges that her husband did not support her and that she was compelled to work in a mill for seven years to support herself.
