HOP TRADE TAKES ON MUCH STRENGTH

Smallness of hop supplies for market at all world centers is giving the trade additional strength. Foreign markets are now showing the greatest strength of the season to date and further purchases for that account are shown along the coast. While there has been practically no change in prices paid for supplies, the market is much more firmly held. Stocks of hops in the hands of speculators are exceedingly small at all points. For that reason many are inclined to withhold support as much as possible. It is noticeable, however, that when they want to buy they must meet the views of the holders. Ideas of the California trade are even higher than those held here. Oregon being the cheapest market at present on the coast, practically all of the business is naturally centering here. In view of the practical cleanup of supplies of dealers and speculators it is not likely that this condition will remain long.

Prevailing Oregon City prices are as follows:

HIDES—(Buying) Green salted, 7c to 8c; sheep pelts 75c to \$1.50 each. FEED—(Selling) Shorts \$25; bran \$24; process barley \$27 to \$29 per ton. FLOUR—\$4.50 to \$5. KILLING OF MADERO TO BE INVESTIGATED

MEXICO CITY, Feb. 26.—The late Francisco I. Madero, former president of Mexico, was heavily insured in an American life insurance company to Senora Madero. It was learned today that the company plans to ask the state department at Washington to demand an official explanation of Mexico of Madero's death, with a possible view of collecting indemnity from the Huerta government. The report that Emilio Madero, brother of the late president, has been killed, is still unconfirmed. Dispatentes from Monterey deny the truth of the report. Cuban Minister De Riva, accompanied the Madero family to Havana. De Riva is outspoken in his denunciation of Huerta, and intends asking his government to send another minister to Mexico. General Zapata, the rebel leader, is on his way here today to confer with the Huerta government regarding peace terms. If he agrees to support Huerta, he probably will be given a command in the army, but if he refuses it is believed that he will be arrested and shot. It was reported today that less than 200,000 pesos remains in the treasury, but that offers of a loan of \$20,000,000 from New York financiers have been received.

WATER PROBE IS URGED BY COUNCIL

(Continued from Page 1.) from the beginning of the improvement as far North as Ninth Street was ordered. The contractors will attend to several minor details which are to be adjusted. The request that \$150 be appropriated to the elevator committee to make a preliminary survey passed its first reading and will come up in two weeks for final passage. The sale of Mountain View fire house was ordered and will be advertised and bids called for. A remonstrance on the grade of High Street was read and referred to the street committee. The city engineer was instructed to place the grade stakes on High, Fourth and Thirteenth Streets. The erection of steps in the Southern part of the city near the Hawley mill was referred to a street committee. A communication was read from the city engineer and city attorney which stated that the city would be able to make a new assessment against the property on lower Main Street, the owners having obtained an injunction against the city from paying their part of their assessments.

KID JULIAN'S FIRST EXPERIENCE AS A TRAVELER.

Kid Julian, the Syracuse featherweight, whipped Johnny Dundee in Syracuse several months ago. His closest friend, Phil Lewis, had won \$500 through the victory and, desiring to show his appreciation, took the Kid for a trip to New York, a city he had never visited. He had never traveled much. Julian awoke at 6 that morning at Poughkeepsie and shouted to his chum to get up. "I'm very hungry," he said. "How long before we get to New York?" "Oh, we don't have to wait to get to the big town," responded Lewis. "We'll eat in the dining car." "What! We can eat with the train going so fast?" Inquired the kid. "You're fooling me." Lewis dressed, and they went into the diner. Julian was very suspicious of the waiter, who he thought was paying too much attention to him and making him uncomfortable. At last the breakfast was over, and the finger bowls were brought on. Julian got real angry when one was placed in front of him. "You brings the nice bigga glass," he told the waiter in his Italian dialect. "I no drink out of thissa plate."

The bright skies for which February 1913 will, in this region, long be noted, are still unclouded. The ground is getting in fine condition for the plow. Many of the ranchmen are ploughing now.

Summer days and wintry nights still hold sway. The cold of the night providentially retarding the otherwise too rapid advance of vegetable growth. The bright sunshine acting upon the moist soil has started the grass and the clover, rendering the pasture luxurious once more, as the cattle plainly show, by grazing industriously throughout the day, and caring less for their hay at night. An increased output of cream is a pleasing result of this new impetus given to the herbage.

The children are bringing in handfuls of the wild bluebell, a fitting accompaniment to the bluebird, whose rich melody and plumage are cheering us again. The buzz of the saw mills, the sound of the hammer and saw in the new buildings and the clang of sledge and wedge, varied at intervals by an explosion of dynamite remind us that the work of improvement is going on. Mr. Sol Strubbar has commenced the building of a large barn. Mr. Frank Hilton has enclosed a spacious lawn with a handsome iron fence, and has set out a fine hedge of rose bushes, which will be a striking ornament to this vicinity very soon. The Ely school house has been thoroughly renovated and the school is reopened. The children of the district being mostly over the complaints that necessitated the closing of the school. The Macksburg Grammar school, which has been closed for two weeks, owing to the illness of the principal, opened on Monday, the 24th. Mr. and Mrs. A. A.
