SUFFRAGETTES MAY GET LIFE SENTENCES

LONDON, Feb. 27.—Militant suffragettes connected with the burning of buildings in public parks are liable to penal servitude for life.

This was the announcement today of Travers Humphreys, public prosecutor, in asking the Magistrate at the Kew Police Court to commit for trial Miss Lillian Lenton and Miss Joyce Locke. The two were arrested February 29 for setting fire to a pavilion in the Kew Botanical Gardens.

"I make my charge," said Mr. Humphreys, "under the malicious damage act, which makes it a felony punishable by penal servitude for life for any person to fire a building belonging to the King, or devoted to public use."

At the hearing today only Miss Locke appeared. Miss Lenton having been released owing to ill health, attending to a hunger strike.

Humphreys said the prison physicians reported that she would have died unless released.

The Magistrate protested that the procedure was extraordinary. Prisoners, he continued, sometimes are released from prison but not from custody. He immediately issued a warrant for her arrest.

Miss Locke, who also started a hunger strike while detained, was forcibly fed. She pleaded that she was too ill to conduct her defense but the case proceeded and she was committed for trial at the Assizes. Bail was fixed at \$5000 on the promise of the accused that she would refrain from any agitation pending her appearance before the jury.

A young woman who was arrested on the All-English tennis grounds at Wimbledon last night with bags containing inflammable materials in her possession, refused to give any information about herself in the police court today. She was remanded for further investigation. The police testified that they found five cans of paraffin and other combustibles near the grandstand.

THERE'S NO MONEY TRUST, SAYS MORGAN

WASHINGTON, Feb. 27.—A general denial of the existence or possibility of a "money trust" was presented to the House money trust committee today in a long letter sent by J. P. Morgan & Co., at the invitation of the committee.

Simultaneously, Chairman Pujo gave out a reply, in which the committee informed Morgan & Co. that its request had been made January 27, since when the committee had been at work on its report for a month.

"Your memorandum," the reply concluded, "manifestly comes too late to be of value."

The Morgan letter laid at the door of the present banking and currency laws the responsibility for any "concentration of money and credit that may exist."

In its conclusion as to the committee's activities, the letter said: "We venture to submit that in a strong public opinion there lies the greatest safeguard of the community. The public are the ones who entrust bankers with such influence and power as they today have in every civilized land and the public is unlikely to entrust that power to weak or evil hands. Your counsel and witnesses whether the present power held by bankers in the country would not be a menace if it lay in evil hands. If Congress were to fall in evil hands the results might be deplorable. But to us it seems as little likely that the citizens of this country will fill Congress with rascals, as it is that they will entrust the leadership of their business and financial affairs to a set of clever rogues."

The letter says that such concentration of money in New York as has occurred is due to the "antiquated banking system" and the natural law which "in every country creates some one city as the great financial center."

The part of the money trust resolution declaring that it is "generally believed that groups of financiers create, avert and compose panics," was particularly attacked by the letter. Morgan & Co., set for that any withholding of money or credit by one man in any market would be "promptly relieved by the automatic flow of credit from some altogether foreign source."

"We regret," said the letter, "that a belief so incredible, so abhorrent and so harmful to the country should for a moment have found lodgment anywhere. And we welcome your invitation as an opportunity for us to state, to the extent of our observations and experience, there is not even a vestige of truth in the idea that in whole or in part, the financial convulsion of 1907 was brought through the design of any man or men."

BRIDGE ACROSS SANDY DYNAMITED

The bridge built by the Mount Hood Improvement League, across the Sandy River above the mouth of the Zigzag River, in the Mount Hood district, was partly wrecked last week by a charge of dynamite. Recently it was noticed that the upper side had dropped into the river. At first it was supposed the weight was responsible, but a closer examination showed that a charge of dynamite had been placed on one side of the upper stringers.

The entire bridge was badly wrecked and must be reconstructed. It was built last summer by people living in the district and was considered first class.

This bridge is the only span across the Sandy in that district. It cost between \$700 and \$800 and in addition many of the residents donated labor in its erection.

THE PAMPERED ONES.

If the fondness of vanity of father or mother has kept a man from hard work, if another has always helped him out at the end of his trouble, if what was light always fell to him and what was heavy to some one else, if he has been permitted to shirk until shirking has become a habit, his life will be a disheartening failure.

About Tramp Automobiles

WHAT IS A TRAMP AUTOMOBILE? you ask. Not a dilapidated car of ancient manufacture—not at all. In our sense, it usually is a new car, painted, trimmed, and shiny on the outside, like many other cars. And yet this one is a tramp automobile—a car without a home. Don't you buy that kind!

BECAUSE IT IS SOLD TO YOU WITHOUT SERVICE, that valuable adjunct without which any car may become an expensive bargain to its owner.

"HOW IS THE DEALER GOING TO TAKE CARE OF ME?" That's one of the questions you should ask yourself. "How well or how poorly is he equipped to give me proper service?"

OVERLAND DEALERS CARRY A STOCK OF PARTS and replacements depending on the number of Overland cars running in the particular dealer's territory. That's a part of the dealer's contract with the Willis-Overland Company on which the company lays great stress.

PARTS ORDERS COME FIRST, ALL OTHER BUSINESS NEXT. That is the rule of the big Overland plants in Toledo, which stands behind the dealer every time. Such is the SERVICE you buy in addition to the big unrivalled value you get in the great Overland itself.

STEP IN AND SEE FOR YOURSELF, one of these days, how well the Overland owner is taken care of. No particular credit is claimed for this condition, because it is a business maxim as old as business itself, that the satisfied customer is the merchant's best advertisement. It's just ordinary mercantile sagacity. But you ought to look into it for your own benefit.

DO YOU WISH TO KNOW MORE ABOUT IT? Will you call? A postal will bring the information, even a telephone request.
