hancing the attractiveness of Oregon City as a place of residence and in building up civic pride and virtue. This city was intended to be the most beautiful in the Willamette Val-ley. It only needs the active and in-telligent cooperation of its citizens with nature to make it so. ## BRUNS TELLS OF WAR

CIUDAD JUAREZ, MEXICO, Feb. 20, 1913-Editor The Enterprise:-As the Mexican war news is heralded through the columns of the newspapers throughout the land in big head lines depicting the bloody confict between the Federals and Rebels for supremacy in Mexico it may be of interest to the readers of the Enterprise so will endeaver to write a few items from this old town Cindad Jaurez, Mexico, where I am at present

staying a few days. Cludad Juarez with its narrow crooked streets lined mostly with one story flated roofed doby build houses and a few brick buildings, streets crowded with motley looking crowds of Mexicans, sidewalks lined with all kinds of hawkers and peddlers trying to sell their wares, and numerous disipating looking beggars insistently begging for alms, old looking vehicles drawn mostly by Mexican burrows or poorly fed Mexican ponies and occasionally you see an auto, thus, Juarez represents a typical Mexican city of about 15,000 inhabitants.

While here I tried to interview number of business people most of whom could speak fair the English language, about the Mexican war now that a bloody battle is being fought in the City of Mexico, People in this city are greatly agitated and hesitate to express their opinions as they dont seem to know who is who or what the war is about or how it will end. There

United States can make herself felt in international affairs because she has a good navy and can make it stronger than that of any other country whenever she likes without any great sacrifice on her part. She can HIT WITHOUT BEING HIT BACK.

BUT REMEMBER THAT IF THE UNITED STATES IS GREAT IT IS BECAUSE OF THE ENTERPRISE AND ENERGY OF HER RICH now taking on new attractiveness un MEN. OF COURSE EVERY AMERICAN WHO HAS WORKED HARD HAS HELPED TO MAKE HIS COUNTRY RICHER, BUT THE RICH MEN HAVE DONE MORE THAN THE OTHERS. THAT IS WHY THEY ARE RICH.

The great business men and the great businesses of America are the most wonderful and admirable features of the country. In enterprise and efficient organization they set an EXAMPLE TO ALL THE GOVERNMENTS OF THE WORLD.

Now, there is a determined effort to destroy or check the big businesses of the country. Believe me, if you destroy the big businesses of the country you will ruin your country, and if you merely check their growth you will CHECK PROSPERITY.

THE MOVEMENT TO DESTROY THE TRUSTS CANNOT SUC-CEED WITHOUT RUINING THE COUNTRY.

The trusts are the best thing that ever happened for America. They are simply the climax of successful business and successful or ganization. They mean that some great industry is conducted at the LOWEST POSSIBLE COST WITH THE GREATEST POSSI-BLE EFFICIENCY. They cheapen the necessaries of life and distribute better products.

inited States has saved both Mexic and Cuba from foreign territorial ownership. Our "intervention" is not another term for selfish greed, and it is illogical as well as ungenerous in our Mexican neighbors to view it in that light. FORUM OF THE PEOPLE WEED'S LECTURE PRAISED. OREGON CITY, March 5 .- (Editor of the Enterpries.)-I beg leave to repeat in order to emphasize some of the valuable suggestions made by Mr. H. Evarts Weed, the landscape architect, in his address at the High school last evening. He referred to the absolute necessity for trees in the park ing strips to make a city beautifal and said that they should be uniform: and in order to be uniform they shoul I be planted under the supervision of a Park Commission, not a committee of the council, but an independent board. He showed streets surprisingly like our own, decorated only with telegraph poles. Oregon City has wonderful scenic possibilities by gift of nature but the planting of trees has been so generally neglected that little has been added to our original gifts, but instead handsome trees are being frequently cut down and almost none put out to take their places. Rose hedges are attractive but they do nothing to relieve the glare of the sun on the sidewalks in commission with power to plant trees

could transform our bare streets in-Mr. Weed also called attention to our unimproved parks, another gift of nature, and of Dr. McLoughlin. Only one or two are having anything done to them and apparently only three of the six have ever been touched by the hand of man. There is no reason why McLoughlin Park, der the care of the Woman's Club, should be the only public beauty spot in the city. Library Park, as it might be called, is just now in chaos, result-ing from the erection of the library building. Who is to put it in order and make it a fit environment for the building? The two parks by the Barclay and High schools afford splendid opportunity for simple landscape gardening, in conjunction with the adjoining school grounds. Who will do if there is no Park Commission? The school grounds Mr. Weed said "bad". He said this, I think, were simply because they are bare, cheer-less and characterless. Nothing in them but the walks that cross them. Here is a chance, not only for city work, but for civic work. If the children were interested in improv-
