PEACE ASKED BY LEADER OF REBELS

GOVERNOR OF PROVINCE WOULD RECOGNIZE HUERTA AS PRESIDENT

OROZCO IS GIVEN BIG OVATION

Final Conferences Regarding Peace Settlement Will be Held This Week at National Palace

MEXICO CITY, March 12.—Surrounded by government troops, Venustiano Carranza, the rebel governor of Coahuila, who refused to recognize the Huerta administration and initiated what appeared to be a formidable revolt, is suing for peace, according to official reports. Carranza is declared to have 2000 men.

Manuel Garza Aldape, named as Minister of Agriculture, who was sent North by the government to effect a reconciliation, has telegraphed to President Huerta asking for a pardon for the rebellious Governor. Alberto Guajardo, commander of the rurales, who joined the Carranza movement, is reported officially to have surrendered.

Pascual Orozco, Jr., returned to the capital tonight and was greeted by the men who have been fighting him for a year.

Orozco has signed no agreement of peace, but it is expected he will do so. Suspicious regarding negotiations with others than the principals, he had entered into only partial terms with the commissioners sent North by the government.

The final conferences regarding a peace settlement between Orozco and the government will be held this week, probably at the National Palace. Orozco and his advisers will try to exact the best possible terms, but it is believed that the revolution, so far as they are concerned, is ended.

EXTRA SESSION TO 7TH STREET WORK BEGIN APRIL 10 IS CONSIDERED

SPEAKER UNDERWOOD URGES POSTPONEMENT AT MEETING WITH PRESIDENT

TARIFF TO BE FIRST CONSIDERED

Wilson Gives Careful Consideration to Appointment of Collector of Customs at Port of New York

WASHINGTON, March 12.—Representative Oscar Underwood, the Democratic majority leader of the White House, had his first conference at the White House today with President Wilson.

President Wilson was urged by Representative Underwood to postpone the date of the extra session of Congress at least one week. As a result of Underwood's suggestion recently the President had fixed upon April 1. Underwood advised the President that the ways and means committee would require more time in preparing the new tariff bills.

Inasmuch as Wilson had said he would be guided by the counsel of House leaders, it was regarded as practically certain today that the new Congress would not convene before April 10. Underwood discussed with the President the advisability of including anything more than the tariff in his first message to Congress.

The President's proclamation is expected to point out that the extra session is called to revise the tariff alone. Underwood assured him today that the House leaders would be able to confine the attention of Congress

COUNCIL RECEIVES PLANS FOR IMPROVEMENT OF THOROUGHFARE

TOOZE URGES SEWER IN DISTRICT 10

Proposed Grade of John Adams Street Eliminates Heavy Cut at Corner of Tenth Street

The city engineer's office handed in a report with plans and specifications for the improvement of Seventh Street from High to Division Streets at a meeting of the city council Wednesday night. In his report City Engineer Noble gave the plans and estimates for two ways of improving the street, these being by macadamizing the street and by giving it a hard surface such as that on lower Main Street. The estimated cost for the macadam work was a little in excess of \$23,000, while that for hard surface was \$35,836. Both of the estimates call for cement sidewalks and curbs and all other improvements connected with the street. After some discussion the council deferred action until next week, so as to give the property owners on the street a chance to express their views.

Councilman Tooze called attention to the proposed sewer for district No. 10. This sewer has been urged to take care of the Kansas City, Elyville and High School districts. Mr. Tooze said that there was no more important subject before the council than that which would provide for a disposition of the sewage of that dis-

Friedmann Tells of "Cure."
 OTTAWA, Ont., March 12.—Dr. Friedrick F. Friedmann, of Berlin, discussed today before the Canadian Association for the Prevention of Tuberculosis his treatment for tuberculosis, the manner of its discovery and the precautions he took to insure its harmlessness. He said he had spent 23 years in research work to find a tuberculin that was not toxic and virulent, and having found it tried it first of all on himself.

He discarded human tubercle bacilli he said, after many experiments, because he feared the results were too dangerous. The end of his research came, he asserted, when he found a bacillus which originated in a coldblooded animal, the turtle, which bacillus became a virulent and a-toxic after frequent transplantation.

LANDSBOROUGH IS SPEAKER AT REVIVAL

Two services were held in the series of revival meetings in the Methodist Church Wednesday. There was a meeting of women in the church parlors in the afternoon. About thirty were present. The pastor spoke. At 7:30 o'clock the Rev. J. R. Landsborough preached on "What is Christianity?" The sermon made a deep impression upon all who heard it. There was a large congregation, one of the largest of the week.

There will be services this evening at 7:30. The Revs. Wievesiek and Clark will speak, and the people of their churches have been invited to attend the services. The meetings are growing in interest. The announcement of a "Family Service" Sunday is attracting attention.

MOLALLA SEEKS TO BE MADE CITY

Molalla probably will make application in a few weeks to be incorporated as a city of the fourth class. A move to have the place incorporated was halted some time ago on the advice of lawyers. It is the desire of many of the residents to have control of local conditions. Molalla is one of the thriftiest communities in the county and the indications are that it will have a remarkable growth in the near future.
