OGLE MINE STOCK FINE INVESTMENT

THIS IS A REAL GOLD MINE, NOT A STOCK JOBBING PROPOSITION

We are going to install a 100-year-old stock plant on our property. We have proven beyond all question of doubt that the ore is there in paying quantities to keep said plant in operation for years to come. This mine is located in our own county and owned by your own people and under these conditions it is bound to be of great benefit to our county as all the money extracted will be distributed right here at home. We have a mine and not a hole in the ground called a mine that so many have bought stock in. When we say a Mine, we mean that the ore bodies are located to the extent that it shows that it will take years to work them out. If you have old stock stored away ask yourself whether it was a hole in the ground or a mine you invested in, and if you will look it up and find your stock is worthless you can't help but see that you invested in a hole in the ground and not a Mine, so don't condemn a mine or place it in the same ranks. Be broader minded. Statistics show that there was produced in the year 1910 over \$127,000,000 in gold and silver in the United States and as this is a fact you cannot say that mining does not pay. If we get our plant in operation this fall it is reasonable to believe that we will be handling 500 tons daily in five years from now, and that means an output of about \$1,000,000 a year. It has taken years of labor to make the mine what it is today and as we are only short \$10,000 to carry on our work to completion we think this a very small amount to ask our friends who have not already helped, to raise. Think it over! Cut out the following contract, sign up for a block of stock and you will congratulate yourself by saying you helped put the finishing touch on the plant that made Ogle Mountain famous.

GOOD FRIDAY IS GOOD TO HUMPHREYS SALEM, Or. March 14.—Because the date of their execution falls on Good Friday, George and Charles Humphrey will be given one more day of life, but they will not receive further clemency at the hands of the Governor. This statement was made by the Governor today, who announced that he had reprieved the Humphrey brothers for one day. They will be executed Saturday, March 22, instead of Friday, March 21, for the murder of Mrs. Eliza Griffith at Philomath, in Benton County. Rev. Barr G. Lee, rector of the Episcopal Church here, has been administering to the condemned men whose family are members of the Episcopal Church. He joined with others in asking for a commutation of the death sentence, and made a final request that if the Governor would not commute the sentence, then to arrange for the executions on some other day than Good Friday. Rev. Mr. Lee said he desired to be with the two men at the last and he would be unable to be at the prison on that day. This is the first time that the Governor has definitely stated that he would not commute the sentence of death in this case. Attorney H. J. Parkinson, who defended the brothers, and others have been pleading for clemency for the men.

BRIDGE IS AIDED BY APPROPRIATION (Continued from Page 1.) amount of ferry tolls in crossing the river," he said today. A meeting will be called within a few days for a joint session of the Portland and Vancouver bridge committees, when the matter of raising the money for the bridge will be thoroughly canvassed. The counties of Cowlitz and Skamania cannot be expected, say the local bridge advocates, to raise more than \$50,000 each, and with Clarke County to raise \$350,000 there would still be a balance of \$300,000 to be provided for. To provide this the bridge committee will find a means, members say.

COUNTRY MILLERS SHADE MILLSTUFFS

Country millers are shading the price of millstuffs in order to effect quicker sale. City mills are generally quoting bran down to \$20 in large lots and \$21 in small lots per ton. Shorts are quoted at \$22 for large lots and a dollar more for small purchases. While the market is inclined to sag, city interests with extensive storage facilities are able to command the price asked. There is not enough doing in the wheat trade at this time to firmly establish quotations. Nominally speaking bids or club range from \$5 to \$6c a bushel, but in isolated instances a fraction above this has been paid. Average bids for bluestem range from 98 to 99c a bushel, tidewater track basis. Business is done at fractionally higher basis at some points in the country, but generally speaking trade is at a standstill. Coarse grains are quiet at unchanged prices. No new developments are shown in the flour situation. There was some talk of advancing quotations but this is denied by leading millers. Trade in patent, while slow, is better than last year at this same period.

ARE YOU TIRED OF TAKING CALOMEL, SALTS AND PILLS FOR BILIOUSNESS AND STOMACH TROUBLE?

Then take the advice of Mr. Rothenberger of Portland. Read what he has to say about Veronica Water: "STOMACH TROUBLE—My praise for Veronica Water cannot be too strong, and I would not be without it in my family. My wife was very sick in bed for six months, and could scarcely take store in her stomach. She was so weak that she could not stand on her feet. The doctors gave up all hope of her recovery. Everybody in our neighborhood knew of her condition. My attention was called to Veronica Water, and from the time my wife started to use this wonderful water she began to improve in health. She is now about to begin on the third case, and she is out of bed and able to go out calling on friends. She eats regularly and has movements of bowels, something that she could not have for some time. I have recommended Veronica Water to everybody who comes in my store, and I cannot praise it too highly. It is not only the best, but the cheapest treatment I ever had for the stomach and bowels. Anybody who will call on me in my store I will gladly tell them how my wife suffered, and the condition she is in today respectively. H. R. ROTHENBERGER, Dealer in and Manufacturer of Boots and Shoes, 2926 E. Stark St., Portland, Or. Sold by Huntley Bros. Co.
