CATTLE MARKET HAS FIRMER TONE

The Portland Union Stock Yards Company reports as follows: Receipts for last week have been: cattle 809, calves 19, hogs 2706, sheep 2542, horses 44. A somewhat firmer cattle market last week. Transactions were limited due to the light liquidation. Prime heavy steers went to the killers \$7.75 to \$7.85. Bulk \$7.30 to \$7.60. Butcher stock was also stronger but a true line on market stability is difficult to obtain so long as receipts are small. Demand for cows and heifers stronger. Top loads of cows sold at \$8.85 and heifers in small lots \$7 to \$7.25. Calves have not been a market factor for two weeks, although prices are steady to strong. Generally the entire cattle market had an improved tone but only for choice stock. Size of this week's receipts will determine stability of price range. The hog market continued its ascent last week and reached the highest point Wednesday when several hundred head of choice light swine realized \$9.25. Bulk of sales averaged \$9 to \$9.15 while smooth and rough heavy stuff brought proportionally stiff prices. Market eased off a shade Thursday but closed the week steady from \$9 to \$9.15. Upward trend may be checked but nobody ventures a prediction as to where it will finally settle. Mutton trade was a sticky affair compared with recent periods. Plenty of sheep are arriving but the bulk is contracted. Buyers are bidding steady prices for good weathers and ewes. Best load of wethers sold at \$5.85 and ewes \$4.50. Lamb market is steady to firm at unchanged prices. Choice sheared lambs brought \$6.50 Thursday.

Prevailing Oregon City prices are as follows:

- WHEAT—(Buying) Green salted, 7c to 8c; sheep pelts 75c to \$1.50 each. FEED—(Selling) Shorts \$25; bran \$24; process barley \$27 to \$29 per ton. FLOUR—\$4.50 to \$5. HAY—(Buying) Clover at \$8 and \$9; oat hay best \$11 and \$12; mixed \$9 to \$11; valley timothy \$12 to \$14; selling alfalfa \$13.50 to \$17; Idaho and Eastern Oregon timothy selling \$19.50 to \$23. OATS—\$22.00 to \$26.50; wheat \$9; oil meal selling \$38.00; Shay brook dairy feed \$1.25 per hundred pounds. Whole corn \$29.00. Livestock, Meats. BEEF—(Live weight) steers 7 and 8c; cows 6 and 7 c, bulls 4 to 6c. MUTTON—Sheep 5 to 6 1-2; lambs 6 to 6 1-2c. PORK—Lard 12 and 10c. VEAL—Calves 15c to 13c dressed, according to grade. WEINIES—15c lb; sausage, 15c lb. POULTRY—(buying)—Hens 10-12 to 12-12c; stags slow at 10c; old roosters 7c; broilers 19c. Fruits. APPLES—50c and \$1. DRIED FRUITS—(Buying), Prunes on basis 6 1/2 cents. VEGETABLES. ONIONS—\$1.00 sack. POTATOES—About 35c to 40c f. o. b. shipping points, per hundred, with no sales at going quotations. Butter, Eggs. BUTTER—(14 lbs), Ordinary country butter 25c and 30c; fancy creamery 75c to 85c roll. EGGS—Oregon ranch case count 15c; Oregon ranch candled 16c.

Gray Hairs in Wall Street.

"It seemed to me down in New York the other day," remarked a Cleveland-er who had just returned from the metropolis, "that one might almost recognize Wall street and the financial region by the number of gray haired young men you see. I had occasion to be in several offices on Wall street the other day, and I honestly believe more than half of the young men I saw had gray hair. I noticed the same thing along the street. It may have been just a coincidence, but I couldn't help wondering if they would have been gray just as soon if they had been at some other game for the last few years."—Cleveland Plain Dealer.

CHRISTIAN SCIENCE LECTURE PLEASERS

(Continued from page 1)

ence was given to the world not to exploit a theory, but to relate a discovery; not to upset religions, but to establish salvation; not to confound matrisa medica, but to simplify healing; not to condemn the sinner, but to turn him away from his wickedness, that he might live. "It comes bringing liberty, not bondage; toleration, not bigotry. It tells little of hell, but much of God and love. From cover to cover it contains not one threat; not one word of defamation, detraction or vilification of any man's medicine or any man's religion. Its pages teem with love for God and man. "No man can read it with an open heart, and not be a better man for the reading; no sorrowing one need miss its message of comfort; none tortured by pain or enfeebled by disease need close it in despair. The simple may gather from it wisdom; the wise may gain from it simplicity. "It was written in solitude by a woman whose spiritual hearing was acute enough to catch the words that God has been speaking aloud to dulled mankind ever since time began. The message that rang in her ears was not for her alone, but for all her fellow men living and to live, and she could not nerve another it into silence than the trees that knock their eager leaves when they have the message of spring to unfold. "Emerson says in his essay on 'Character.' 'There was a time when Christianity existed in one child,' and it can be likewise said that there was a time when Christian Science existed in one devoted woman. But she was faithful to her trust, and before giving her discovery to the world she tested it critically. She became a Christian Science practitioner, the only one in all the world, and put her Science to the touchstone of healing the sick. It showed as pure gold. "Then followed the writing of her book, 'Science and Health with Key to the Scriptures,' giving the substance of her discovery to the public in concrete and understandable form. "Men may differ in their understanding of inspiration and revelation and may haggle over their being present day possibilities. They may even deny to woman the spiritual perception accorded to man, but neither wrangling nor disputations nor details have ever brought to poor humanity the rosary of health or the fragrance of gratitude. The book Science and Health, has done both

Dizzy Spells, Liver and Kidney Troubles

Here's a Veronica Water testimonial right at home—Read what Mr. Jensen says—Write him, or go and see him if in doubt about what it will do for you. I have suffered with dizzy spells, Liver and Kidney Troubles and at times I was so badly discouraged that I did not care to live. I had tried every thing that the doctor and my friends had recommended, without results. A short time ago my attention was called to Veronica Water. I at once began its use. Now I have no dizzy spells and I feel like a new man; I say, in fact, Veronica Water saved my life. To my friends who knew of my condition before I began to use Veronica Water it is unnecessary for me to recommend it, but to those who do not know me, I recommend this wonderful water, and say give it a fair trial. Receipt—Care of Bank of Sellwood, 549 Sellwood Ave., Portland, Or. Get it at Huntley's, 50c the bottle, \$5.50 per case of a dozen. \*\*\*

In gracious profession.

It has fallen to my lot to have known his author, intimately in the last few years of her earthly activity. One November day in 1908, Mrs. Eddy called me to her side from my home in Colorado to become a member of that historic household at Chestnut Hill which she once publicly designated "the happiest group of Christian Scientists on earth." I was privileged to share her daily counsels for more than two year, and from the time of my first half hour's heart-to-heart talk with her, down to the afternoon, when standing at her side I saw her marvelous hands shape her last written words, "God is my life! I have never wavered in my conviction that she has been the chosen evangel of Truth, intrusted with those good tidings of great joy that have been waiting man's readiness since the days when Jesus trod the dusty fields of Syria, and sailed the blue waters of Galilee. "The establishment of a great religious organization whose 1200 growing branches belt the globe, the installation of a simple form of service which fills those churches twice each week with throngs of worshippers who are drawn neither by music, eloquence, nor sensational sermonizing; the building up of efficient agencies and institutions for the dissemination and protection of a radically new system of ethics; and the launching of a great metropolitan daily in the interests of clean journalism, whose success has set a new mark in the newspaper world—these things or any of them would give eminence to the life-work of the most ambitious of men. To a modest woman, Mary Baker Eddy, belongs the credit of them all. "But these achievements grand as they are, weighed in the scale with her compared endeavors to bring more and more of peace on earth and good will to men, and to guide us to a clearer and more practical understanding of the Fatherhood of God and the brotherhood of man. The application of her theory to her abuse and condemnation, she brushes aside as cobwebs when she was once assured of the approval of God. "I could by the hour recite to you incidents of Mrs. Eddy's wisdom and sagacity, of her courage and steadfastness, of her wit and humor, of her love for little children and her delight in the beautiful, of the inexpressible charm of her manner and the eloquence of her voice, but it is not of these things that she would have me speak. "It was her desire—almost daily expressed—that her followers should disregard her personality and address their thought to the things of God which she has disclosed to them. She would have us study her books and not her personality. She would have us know her by what she wrote and not by how she looked. Years ago (Continued on Page 4.)

ROD AND GUN CLUB IS ORGANIZED HERE

The Clackamas County Rod and Gun Club was organized Monday night in the rooms of the Commercial Club and 125 enthusiastic members were enrolled. T. J. Myers was elected president. E. Schwab was elected vice president and Charles Bollinger was elected secretary-treasurer. The following were elected on the executive board: T. Osmund, Ralph Parker, Dr. G. H. Charles Wright, John Clark, George Pusey and J. Pollanz. A constitution and bylaws were adopted, that part pertaining to fishing being taken from the Multnomah Anglers Club's constitution with changes to fit the needs of the local organization, and the part that pertained to the American Field Rules which are accepted as standard all over the country. The aim of the new organization is to protect the interests of the amateur sportsman and aid in all ways possible to further the interests of fair and equitable laws. It shall also be the duty of members to aid in enforcing the laws where they are being violated. The meeting was a greater success than had been anticipated and it is evident that the present membership of nearly 150 will soon be doubled as there were many persons who were anxious to join the organization that were unable to attend the meet-

OGLE MINE STOCK FINE INVESTMENT

THIS IS A REAL GOLD MINE, NOT A STOCK JOBBING PROPOSITION

If you are looking for a sure thing sure thing that the stock will be off here are a few things for you to think over. It is a sure thing that a plant is going to be put on the property of the Ogle Mountain Mining Company. It is a sure thing that our home people have furnished the money to put the ore in sight. It is a sure thing that the same people have signed for a good block of stock to install the plant. It is a sure thing that some one is going to furnish the balance. It is a sure thing that if our home people don't furnish the balance some one will, and it is a sure thing that if outside capital furnishes it, just that much of the output will be sent away from home. It is a sure thing that the price of stock is going higher, and it is a sure thing that the stock will be off the market as soon as we have the required amount to install the plant. Under these conditions don't you think it would be a wise idea to get in and help finance the proposition? We are not here to beg, but are here with a business proposition that will stand the test of any reputable mining engineer. This we know as the mine has stood the tests and been pronounced all O. K. by reputable engineers. You don't need to be afraid to pay 70 cents a share, for it is going higher beyond all question of doubt. The men that back their own judgment with their own money are the men to place your money with if you want to win and if you place your money with us that is what you will be doing. Look out for the men that do all the talking and never put up their own coin. The men at the head of this proposition are putting up what they can and are going to put in their time installing the plant. Besides\* this we have men that are going to furnish teams to help do the hauling and take their pay in stock, also men that are going to work on the construction work and get their pay the same way. These men see a future ahead or they would not do this. They are not doing this for their own health or for fun. Under these conditions don't you think it would be a good place to invest a few dollars on the following terms?

Cooper's New Discovery Drives Away Your Stomach Pains

Many people nowadays are apt to use drugs for quick relief every time they have an ache or a pain. This is only temporary treatment and is bad for the system generally. If persisted in it will lead scores of complaints and even serious illness that might have been avoided. Take the common complaint of constipation—every one knows, or should know, that every dose of a cathartic gives relief only for the time being and in reality it aggravates the trouble. If you take cathartics continually you are liable to have chronic constipation. It is the same way with stomach trouble, headaches, dizziness or liver and kidney disorders. If you have gas on the stomach or pains after eating and take a pepsin tablet, bicarbonate of soda, charcoal, or what not, you are only getting temporary relief. The same thing applies in curing a headache with headache powders. As a matter of fact you are in a worse condition as soon as the acute part of the attack is over.

Cooper's New Discovery

banishes constipation because it is mildly laxative and removes the cause—stomach trouble. It stops pains in the stomach and gas belching because it drives away the catarrhal inflammation which is causing the trouble. It stops headaches, dizziness, improves digestion and makes away with kidney and liver trouble because it puts the body in a healthy condition and there is no longer any cause for disease.

which would practically be a benefit to all east side residents. Miss Farnum was a business caller at the county seat Tuesday. A special school meeting will be held at the school house on Monday evening, March 24th. Mr. and Mrs. Madden have leased their cottage on the east side of the car line and are contemplating building a modern home at this place. Mrs. Donahoe of Portland, spent last week at her summer home making some improvements for their stay during the summer season. Mr. and Mrs. A. C. MacFarland entertained a few friends Monday evening. Cards were the diversion of the evening. Refreshments were served at the end of the game. On Wednesday afternoon Mrs. MacFarland entertained with a luncheon her guest of honor being Mrs. Paulinbaum of Oakland, who is visiting a niece in Portland. Mrs. Henry Smith will return home to The Dalles Wednesday after a ten days visit with home folks. Walter Beckner of Newberg, was a week end visitor at the Hugh Roberts home. Mr. Beckner is to be the builder of the new house of the Roberts family which will be built this summer. The regular meeting of the community club was held on Wednesday evening. The wives and daughters of the members have been admitted to membership. The club holds its meetings the first Wednesday of the month at the Batdorf hall. Mr. and Mrs. J. Bernard will take possession of the new bungalow on Hull avenue this week. The Adult Bible class on Thursday evening was well attended and Luke II was the topic. This community Bible class is under the leadership of C. S. Bergstresser. Miss Leah McGovern is quite ill at her home in Milwaukie. Mrs. Charles Redmond has been called to her bedside. Mr. Bernard of Latourelle, and sister, Mrs. Browner of Portland, have been recent visitors at the Lodge. Of much interest to the Lodge people as well as visitors, is a trip through the greenhouses of Mr. Byron. The sweet peas which are from fifteen to eighteen feet high are full of blooms of the most delicate shades and as Mr. Byron has devoted most of his time to the culture of sweet peas, he has been handsomely rewarded by very large blossoms and he finds a ready market for these choice flowers in Portland. Mr. Byron has devoted a great deal of time to the culture of violets of both varieties and these blossoms are in such demand he makes a trip to Portland every day with flowers.

LIVED ON RAW EGGS

Mr. Richard's Experience With Different Diets. Peaches and Buttermilk for Three Years.

Cecilton, Md.—Mr. George Richards, of this place, during the past 12 years, has probably tried more different diets than the average person would ever use in a lifetime. What he has to say about his experiments, most therefore be highly interesting to anyone suffering from indigestion or stomach troubles of any kind. He says: "For more than 12 years I suffered with stomach troubles, and paid hundreds of dollars for doctor bills and medicines. I was also operated on for piles. I lived on dried peaches and buttermilk for nearly three years. The only thing that would not give me pain was raw eggs. I was a physical wreck. I could not sleep, and was as near crazy as a man could well be. I must say that after taking two 25-cent packages of Theodor's Black-Draught, it did me more good than all I ever spent for other medicines. I have been working daily on the farm ever since, and I am as hard as iron." This purely vegetable remedy has been in successful use for more than 70 years. Try it. But be sure that it's "Theodor's."
