## PRESIDENT ASKS CURRENCY ACTION

WILSON WANTS QUESTION CONSIDERED IMMEDIATELY AFTER TARIFF

## EXTRA SESSION WORK TO BE BIG

Recess Appointments Will Be Made At Meeting of Cabinet Today—Adee Now Bryan's First Aide

WASHINGTON, March 20—Encouraged by the rapid progress already made in the preparation of a tariff revision bill, close friends of President Wilson predicted tonight that currency reform measures would be brought before the extra session of Congress.

The President talked informally with some of his callers about the prospects for currency legislation. They went away convinced that while the President would devote himself first and foremost to tariff revision, he now hoped that at least a start on monetary reform, if not actual legislation, would be possible in the extra session.

From the first, the President has believed in the necessity for immediate currency reform and though desirous that Congress should focus its attention and that of the Nation on the tariff question, he never has given up the idea of getting a currency measure before the country within a few months. Some of his friends said today that they were particularly hopeful for currency reform because of the attitude of the Democratic leaders in Congress toward expeditious action on the tariff.

Senator Simmons, chairman of the finance committee, is reported to have said that the tariff could be disposed of within three months. Like the tariff, the currency bill when drawn will be presented as a party measure, carefully worked out by Congressional committees in co-operation with the President. It will not be made public, it is said, until it has been studied closely by members of the cabinet recognized authorities on currency questions, and some of the leading business men of the country in whose

Stockholders Taken on Trip to Newell Canyon and Then Given Banquet at Masonic Temple

Optimism was the keynote of the great meeting of the stockholders of the Clackamas Southern Railway in the banquet hall of the Masonic Temple Thursday night. More than 30 stockholders of the company and friends were present, and it was the unanimous verdict that the road would be in operation to Molalla by Fall. The object of the banquet was to obtain advice of friends of the project regarding the work to be done the coming summer.

Those present had been taken on a special car over the route beyond Newell Creek in the afternoon, and all expressed themselves as being astonished at what had been accomplished. Franklin T. Griffith, general counsel of the Portland Railway, Light & Power Company, declared that the road would be a paying one from the start.

He said that the Portland Railway, Light & Power Company would cooperate with the new line in every way and furnish cars if they were wanted, the company realizing that the Clackamas Southern would be one of its best feeders. P. D. Hunt, traffic manager of the Portland Railway, Light & Power Company, was as enthusiastic as Mr. Griffith over the prospects for the new line. J. W. Moffatt declared that the engineer of the Clackamas Southern had accomplished better results with the capital he had been given than any engineer he had ever known. Mr. Moffatt declared that the part of the line completed was first class in every particular. He has had an experience of more than 30 years in building railways. Others who spoke were B. T. McCain, C. H. Dye, W. S. U'Ren and H. E. Cross. Mr. U'Ren declared that the road should be completed at once and said if the public spirited citizens of this city and county realized what an advantage it would be to them they would subscribe liberally for stock in the railway. S. M. Ramsay said the bridge at Newell Canyon was one of the best railway bridges in the country. The women of the Episcopal Church furnished the dinner.

Victim Says Brother Did Wrong in Shooting Members of Auto Party—Had Been Asylum Inmate

George Roberts, 27 years of age, brother of Jack Roberts, who was hanged several months ago at Salem, was adjudged to be of unsound mind in the county court Thursday afternoon. He was taken to the asylum at Salem. Jack Roberts paid the death penalty for killing George Hastings and Donald Stewart, of Portland, members of an automobile party, on the White House Road at Elk Rock about a year ago. The execution followed an election in which the people by a large majority refused to abrogate capital punishment.

The insane man is almost a "double" of his brother, who was hanged. He is slightly taller, but his expression and face and head are almost the same. Roberts was confined in an asylum in Idaho for several months, and upon his release went to Clarksville to live with his mother, Mrs. J. D. Pfeiffer. He worked on the farm several weeks and finally came to the conclusion that he was not being paid adequately for his services. About a week ago at midnight he left the house, taking with him his clothing, bedclothing, a mattress and other articles. Deputy Sheriff Miles, who made the arrest, declared that Roberts had four loads of clothing and other articles near his home. He wandered about the neighborhood for several days until the residents became alarmed and made a report to the sheriff. Robert's father-in-law swore to the complaint alleging insanity. The young man converses rationally on most subjects. He said his brother did wrong in killing the young men in the automobile, and he cannot understand what led him to commit the crime.

## ELEVATOR TO BE BUILT BY COUNCIL

REPORT THAT RAILWAY WOULD BE CONSTRUCTED WITHOUT FOUNDATION

## ALBRIGHT AND MEYER MAKE DENIALS

Proposition to Change Plan Not Considered and Impossible Under New Law Voted by People

Rumors that the council committee on the public elevator is considering making a report to the council which will be favorable to using the \$12,000 voted by the people last December for a street railway are without foundation. John Albright, chairman of the committee, stated that the rumors were utterly without foundation and that the council committee did not even consider such a scheme. He stated that it would be impossible for the committee to act upon such a proposition, as the money had been voted by the people to be used on an elevator and could not be used any more in aiding the building of a street railway than it could be used in building roads.

F. J. Meyer, another member of the committee, stated that the proposition had not been considered, and said that it would not be possible under the conditions. If such a plan were legal, he might be disposed to consider it. It is understood that the report that will be read before the council next Monday evening will state that the only kind of a conveyance possible for the bluff with the money that has been appropriated, is an ordinary elevator.

## CONGREGATIONALISTS TO OBSERVE GOOD FRIDAY

Good Friday service will be conducted at the Congregational Church this evening at 7:30. The pastor will speak on "The Seven Words from the Cross." There will be singing appropriate to the day. Members of any church not holding services are cordially invited to be present.

Huntley, H. S. Mount, Theodore Osmund, M. D. Latourette and J. R. Humphrys.

## LECTURED FOR KEEPING ILLNESS SECRET

Albert Schief, an employe of the Willamette Pulp & Paper Company, was lectured by Mayor Jones Thursday night for not notifying the authorities that one of his children was suffering from a contagious disease. At the instance of Health Officer Norris Policeman Griffith took the man before the mayor. It is believed that Schief's little girl is suffering from smallpox. The man was taken home and told to stay there until his child recovered. The house has been quarantined.

## VEGETABLES NOT HURT BY COLD WEATHER

The snow storm in Oregon City and vicinity Wednesday morning did no damage. The thermometer did not reach the freezing point along the lower stretches near the river. On the hills back from the river there was a slight freeze, but it is not thought that any appreciable damage has been done to fruit trees and spring vegetables which the warm weather of several weeks ago started well into bud. Although Oregon City has had a few snow storms in March, they usually do very little damage on account of the high temperatures which cause the snow to fast disappear.

We have 5 and 10 acre tracts close in that will make you pretty homes. Get in ahead of the Railroad as prices are sure to rise when the trains get here in June.
