LAST CAR LEAVES FOR OREGON CITY AT MIDNIGHT

William H. Crane, who comes to the Heilig tonight in "The Senator Keeps House."

William H. Crane begins a limited engagement of four nights at the Heilig Theatre on Easter Sunday. He will also give a special ladies' matinee at popular prices on Wednesday afternoon.

Mr. Crane has not been to Portland since he presented his decidedly popular success "Father and the Boys" here several years back. For this visit he will present his newest comedy hit "The Senator Keeps House." It is a delightful story by Martha Morton which happens to fit Mr. Crane to a nicety and brings out all those admirable personal qualities which have endeared this sterling comedian to the American Theatre going public for so many years.

"The Senator Keeps House" was originally produced in New York last season at the Garrick Theatre where

PARTLOW, POPCORN KING, IS HERO

a few minutes before curfew time there was a slight explosion and Mr. Partlow discovered another blaze that was more threatening than the first. Policeman Griffith turned in an alarm and the chemical engine responded. The blaze while more spectacular than the first one did not do any more damage, and the plucky proprietor says he will be ready for his next early this morning as usual.

Michael Long, chief of the fire department, in directing his men, got in front of the hose and the contents struck him in one eye. The member was considerably inflamed, but it is thought will be all right in a day or two. Large crowds witnessed both fires and the spectators marveled at the coolness of Mr. Partlow, who, although in serious danger, did not leave his property.

HOP MARKET QUIET BUT HAS FIRM TONE

The hop market is quiet but very firm. For medium grade buyers continue to offer 15 cents freely. This is the only quality that is being offered at all in the Willamette Valley. The latter grade of goods is not on the market at all. In comparison with mediums the best stock should be worth around 20c a pound, but buyers are unwilling to offer this figure.

Business of late in the hop trade has been confined almost exclusively to the lower grade quality. Brewers need the hops badly and are therefore willing to take anything they can get at present values. With the consumption of beer showing another big increase, the likelihood of an extreme shortage in brewers' stocks before the next crop is available is very strong.

Contracts are moving slowly at 15c a pound, owing to the inability of buyers to secure a greater volume. There is plenty of business available for contracts at this figure and the probable output of 1913 could likely be cleaned up at this figure within a very short time.

Mayor Elmer will be called upon to appoint two fire commissioners who are members of the Council, and who with the first assistant chief will have control of the volunteer fire department to be established under the recently enacted measure. The commissioners are authorized to enroll 200 members of the fire company at once, who will elect a chief, assistant chief, foreman, a secretary and treasurer.

The charter amendment provides for 30 members to the department, and as many honorary and social members as may be elected by the freeman. It is planned to make the department social as well as active, and the two enginehouses social centers.
