GERMANY AS A Once more GERMAN FINANCIAL PERIL through-out the world. The fear is not quite as acute as it was two years ago, when the Morocco dispute carried a portent of war with France and England, but it is great enough to attract the attention of the international bankers everywhere, and to have some effect on every bourse from Berlin to New York. For days it has affected prices adversely on the New York stock exchange. There is a possibility that it will cause the directors of the Bank of England to increase their discount rate at their coming meeting. The settlements in Berlin on April 1, preparations for which have been under way for two weeks are looked forward to with much concern.

One of the immediate causes of Germany's present financial scare is that it is living beyond its means. Its vast military burden is taking effect. An addition of \$250,000,000 annually to this burden, which has just been decided upon as a means of meeting the outlay necessitated by the increase in its army strength, looks to many conservative Germans as the straw which may break the camel's back. The 4 per cent treasury loan of \$100,000,000 which the Imperial Government has just attempted to float has failed, only \$42,500,000 being offered. This setback for the government is rendered especially significant by the fact that it was the first time that any such thing has taken place. The fright is having its legitimate effects. "Runs" are being made on many of the savings banks, several banks have collapsed, mills are shortening their hours of work of closing altogether, and the mercantile houses and the places of amusement are feeling the pressure of hard times.

Some of the financiers are saying that a panic in Germany would have no effect on the United States. They are mistaken. Germany is such a large country and all the big nations

are linked so closely together in these modern days, that a setback for it, or for any of them, would, for a time, cause loss to all. Germany's troubles have begun to register themselves on some of our speculative boards already. During the Morocco scare of 1911, when Great Britain and France withdrew their credits from Germany, Berlin made an appeal to the United States for relief, and the call was instantly heeded. It was said at the time that the United States shipped \$125,000,000 to Germany in that crisis. Germany weathered the storm successfully. Probably we will be called upon now for a large loan, but as we have been furnishing many millions of that metal to Europe and South America recently, we may not be able to contribute so much as we did two years ago.

FORUM OF THE PEOPLE

FATHER DENIES STORY. NEW ERA, March 22.—(Editor of the Enterprise.)—In reply to the statement published in the papers concerning the hazing my son, Reinhart, received at the hands of some boys at school last week. I wish to contradict Mr. McArthur's statement published in last week's papers as he states it is a lie from start to finish and acts perfectly innocent of trouble.

I will state the true facts, as it has been exaggerated and has also been arousing many friends. Monday, February 3, was Reinhart's birthday and on his way home he mentioned the fact to one of the boys who in return answered: "Just wait till tomorrow, we'll fix you."

On Tuesday during the recess hour three large boys went for him as they promised and dragged him from his seat in the school room, while the teacher stood looking on, thinking it quite funny. His clothes were not removed but while jerking him around and standing him on his head part of his clothing slipped up and the boys did strike him and knock him on his bare side. Reinhart remained in school the balance of the afternoon, but feeling very sick, as the teacher admitted himself he could see the boy looked very pale and sickly. The boy complained of feeling very sick and much bruised up, his ribs and body feeling very sore. At the time there was no black and blue marks to be seen on him so I insisted the child go to school again. The next morning he begged of me not to send him as he felt too sick to go. But I tried to cheer him up and so he went.

In the teacher's statement he claims the boy studied and played all day just as hard as all the rest, well, that is not true as the boy and his sister sat all day and was very weak. But I must say that it is a pity that the teacher did not take notice of the boys when they were after Reinhart as he noticed my boy studying. That same evening he came home in a bad condition and went to bed at once. He had a severe headache and fever. Later he became unconscious and remained in this state fully the whole

night. The following morning I called Dr. Mount to see really what the trouble was. The doctor stated that the boy was down with an attack of pneumonia caused from being heated and then thrown on the damp ground next to his bare skin, and his headache and painful ribs were due to the rough handling of those boys. After all this writing came up in the papers I went and talked personally with Mr. McArthur and stated I was sorry that it had been so badly exaggerated in some of the papers. But the teacher never inquired how the boy was getting along or even apologized for the trouble that had taken place. But I think that it is a wonder that a teacher does not know how to keep the rules at school. Mr. McArthur told me a certain truthful boy of 15 years never helped spank Reinhart but only held him down—certainly, only to give the others a good chance. The teacher and his protected boys certainly must think it lots of fun. Well, go ahead boys, rules, teacher, school and all.

We send our children to school to be taught, that's what we are paying taxes for and not to fight. And I would advise the teacher at New Era to keep soap and water on hand in case this happens again as he made the statement in the papers the bruised spots could be washed off. But no child will stay in bed over a week, for the fun of it even if Mr. McArthur does have these kind of ideas. MRS. KEIL.

of visitors to the morgues and hospitals. The storm appeared to have started at Fifty-fourth and Center Streets. From there it traveled north, veering slightly to the east to Leavenworth Street. Then it took a north-

eastly course to Fortieth and Farnum Streets, sweeping its way through everything. Still traveling a little east of north, it covered a course from Fortieth Street east to Thirty-fourth Street, a distance of six blocks.

Weeping women and children are massed at undertaking rooms, seeking missing relatives, and the scenes being enacted are the most pathetic Omaha has ever witnessed.

The police declare that looting was carried on all through the night, and a number of shops were arrested. The police station is crowded with sightseers, who tell of robberies perpetrated while the panic reigned after the storm.

It is impossible to estimate the damage done by fire following the storm. The Idlewild Club building at Twenty-fourth and Lake Streets was wrecked by the cyclone and then burned.

The Auditorium and the Y. M. C. A. Buildings were opened to refugees this afternoon.

A thorough investigation confirmed the report that the damage to property here would reach \$10,000,000. The storm area here was six blocks wide and nearly every house in its path was razed or badly damaged.

Bodies of victims were found today hundreds of yards from where the wind struck. The cries of injured persons drew rescuers to many different points simultaneously.

The cyclone caused many freak accidents. Some houses were unscathed, while others adjoining were crumpled like eggshells. In one section of the city the lower story of a house was demolished, the upper part settling in its place. Trees were wrenched up by the roots and driven through brick buildings.

President Wilson at His Desk, Facing Duties of His Position

Photo copyright, 1913, by American Press Association.

HERE you see President Wilson at his desk in the White House office ready for work as the first employee of the land. He has sat just like this for days since his inauguration listening to the solicitations of senators and representatives and men of note who urged him to appoint this man or that to various important jobs at his disposal. Hundreds of office seekers were barred from facing the president at his desk by his own order issued right after he took hold, when he decreed that he would see no job hunter unless personally sent for or recommended by heads of departments

CARDUI WORKED LIKE A CHARM After Operation Failed to Help, Cardui Worked Like a Charm.

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times, I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer. I went to the hospital, and they operated on me, but I got no better. They said medicines would do me no good, and I thought I would have to die. At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pains. Cardui worked like a charm."

There must be merit in this purely vegetable, tonic remedy, for women—Cardui—for it has been in successful use for more than 50 years, for the treatment of womanly weakness and disease.

Please try it, for your troubles. R. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

American Architecture Bad Taste

By MATUSNOSUKE MORIYAMA, Noted Japanese Architect

GENERALLY speaking, there is no architecture in America in the real sense of the term. WHEN I SAY THAT THERE IS NO ARCHITECTURE IN THIS COUNTRY I MAKE A CLEAR DISTINCTION BETWEEN A PRODUCT OF ARCHITECTURE AND A MERE BUILDING. THERE ARE MANY IMMENSE BUILDINGS IN AMERICA, BUT THERE ARE FEW THAT CAN BE RIGHTFULLY REGARDED AS THE PRODUCTS OF ARCHITECTURE PROPER. MOST OF THEM ARE NOTHING BUT MERE ACCUMULATIONS OF WOOD, STONE, IRON AND CLAY, BECAUSE THEY HAVE NO ARTISTIC VALUE AT ALL.

I think there are two reasons why America hasn't high class architecture. In the first place, America has no history in comparison with the European countries. Many of the famous buildings in Europe are the products of many generations. We should not expect such buildings in the United States. In the second place, the American people as a whole have NOT SUCH A DELICATE AESTHETIC TASTE AS THE EUROPEAN PEOPLES.
