

Quite Another Thing.

Mrs. Edith Dillard is in Gladstone visiting relatives. She was accompanied by her sister, Miss Maud Gallagher, who has been visiting Mrs. Dillard at her home in Salem for several weeks.

Mrs. Herry Williams has been informed by her aunt, Mrs. Minerva Van Tassel, of Durand, Ill., that the cyclone and the floods did little damage there. Mrs. Williams visited in Durand last summer.

SAID SHE WOULD FAINT

Mrs. Della Long Unable to Stand On Her Feet More Than a Few Minutes at a Time.

Pendergrass, Ga.—Mrs. Della Long, of this place, in a recent letter, says: "For five or six years, I suffered agonies with womanly troubles. Often, I couldn't sit up more than a few minutes at a time, and if I stood on my feet long, I would faint. I took Cardul, and it helped me immediately. Now, I can do my work all the time, and don't suffer like I did." "Take Cardul when you feel ill in any way—weak, tired, miserable, or under the weather. Cardul is a strength-building tonic medicine for women. It has been found to relieve pain and distress caused by womanly troubles, and is an excellent medicine to have on hand at all times.

Cardul acts on the womanly constitution, building up womanly strength, toning up the nerves, and regulating the womanly organs.

Its half century of success is due to merit. It has done good to thousands. Will you try it? It may be just what you need. Ask your druggist about Cardul. He will recommend it.

CATTLE MARKET HAS MUCH FIRMER TONE

The Portland Union Stock yards Company reports as follows: Receipts for last week were: cattle 1212, calves 38, hogs 2103, sheep 2783, horses 33.

Cattle—Market steady to shade firmer. An excellent demand prevailed for prime beef. Top sales were made at \$8 to \$8.25, while bulk of steer offerings graded good to choice and realized \$7.60 to \$7.80. Butcher stuff is equally strong, notably heifers and cows. There has been slim showing in the stuff supplies but packers gave higher bids for the new fancy head on hand. A small lot of Prineville spayed heifers selling at \$7.75 featured. Best cows at \$7.25; bulls \$6; stags \$6.75, and calves at \$9 represents price range.

The hog market has been a sensation. Clearing 16c to 20c, it finally settled at \$9.55 Wednesday. This price range breaks all records since 1910. Bulk of sales have averaged \$9.20 to \$9.40. Outlet considerably broader than supplies as demand has been increased while bulk of country swine has been marketed. Also Missouri River points continue high and all Coast packers are buying pork in Portland. Undertone here is strong and unless the present trade conditions experience a complete change may remain indefinitely.

A steady to firm mutton and lamb market featured principally by one of the smallest runs of the year. Wool yearlings sold up to \$6.75 and ewes \$5.75, sheared stuff brought \$1 less. Demand for choice and fat mutton is steady and unsatisfied. Lamb trade reached the \$8 level as expected, several loads of prime wool stuff brought this price.

M'GRAW TELLS ONE ON DUMMY TAYLOR.

Manager McGraw tells this one on Luther Taylor, the former mite pitcher with the Giants. "We were down in New Orleans," he said, "Taylor and Bresnahan met me. We all had Taylor well enough to learn the mite language, so that we could talk with him. One day we were riding on a street car when a remarkably handsome woman came in and sat opposite us. We watched her with considerable admiration for a minute; then Roger signed to 'Dummy' on his fingers. 'Doesn't she look good to you?' Before either of us could signal back the woman flashed over in the sign language. 'Yes, and you all look good to me. And she got off that car without even glancing at us again.'

JEM DRISCOLL, ONE BOXER WHO ADMITS HE'S GONE

Jem Driscoll, the great British featherweight champion, has retired from the ring, but he is one of the very few veterans who ever admitted they were "all in." A while ago Pedlar Palmer, who was whipped by McGovern, tried to come back and failed. Jabez White, another former British champion, tried the same stunt recently in Birmingham, England.

Peter Maher tried for years to show the public he was "as good as ever." Young Corbett pulled the same stuff, and so did Philly Jack O'Brien, Kid McCoy and Bob Fitzsimmons. And don't forget Jeffries, Mike Schreck and Marvin Hart. They all failed.

COMMON SENSE.

Good common sense is not, as some think, the inborn property of the first comer, a trivial baggage which costs no labor to any one. I compare it to those old popular songs, inimitable and anonymous, which seem to have come from the very hearts of the people. Good sense is the capital slowly and painfully accumulated by the labor of the centuries.—Charles Wagner.

Most Perfect Pun In Existence.

Opinions will continue to differ as to the most perfect pun in existence. It will be hard, however, to find one to beat "Deserve I have find," attributed to the Blue old soldier who conquered the Indies province in 1843. Of course it is ridiculous to suppose that the English Spaniard could ever have made the pun or, having made it, could have made it to do duty as a flourish after a victory, but so the story goes, and it is certainly good enough to be true.—New York Sun.

HIGH PRICED FEATURE No. 10

In upholstering the Overland Model 69T we use only the best grade of leather. Three whole hides are used on a single car. Thus, there can be no blemish spots.

Model 69T cushions are carefully stuffed by hand with first quality hair; then they are stuffed for rugged wear by expensive machinery—specially designed for the purpose.

Good leather, hair and tufting is of little avail without good springs. The spiral seat springs and the pillow springs of the back cushions of the Model 69T are both tied lengthwise and lengthwise and crosswise with wires, and encased in durable canvas duck.

The seat cushions are also ventilated and the leather tufting reinforced by a sturdy canvas foundation.

You will not find better upholstering on cars costing \$1200. f. o. b. factory.

Time and the Rotating Earth.

It has required all the science of the nineteenth and twentieth centuries to produce the perfected watches and chronometers of today, but even they are so variable that they would soon be of no use if they were not constantly corrected by astronomical observations. Man has come back to the point where he began in the measurement of time. The rotating earth is his only standard, and the entire time system of the globe is based upon the tireless watching of the astronomers, who time the passage of the stars over the meridian to the fraction of a second and by electricity flash the news that sets the watches and clocks of the civilized world.—New York Journal.
