SOUTHPAWS LIKE OLD DELIVERY

Star Left Hand Pitchers Sidetrack the Spittball.

LEFTY RUSSELL USES IT.

Former \$12,000 Twister of Connie Mack's Athletics and Now of the Naps Said to Be the Only Big Leaguer Who Possesses Wet Delivery.

Lefty Russell, for whom it is alleged Connie Mack paid \$12,000, to Baltimore some years ago, only to have the player develop a sore arm causing his relegation to the minors again, is said to have been the only southpaw in the major league possessing the ability to have a part side splitter.

Why it is that more left handers do not use the spittball always has been a mystery. No doubt there is much in the statement that its constant use puts a left pitching arm to the bad.

Miss Ethel Greaves has put me in a very embarrassing position, as far as courting another girl is concerned. "How is that?" "She will neither keep my love nor return it."

Heart to Heart Talks

By JAMES A. EDGERTON

HONESTY AND NERVE.

I recently heard of a man being chosen to a responsible position, and the two points concerning which his references were questioned were his honesty and nerve.

Special training is important, but a man may be ever so well equipped and still be a crook. If so his special knowledge may make him all the more dangerous.

But if he is straight and possesses moral courage he can gain the training and knowledge necessary.

His foundations are sound, and the superstructure can be reared in safety. If he lacks these cornerstones of character, however, the edifice he erects will be in constant danger of collapse.

It is like the house builded upon the rock and the house builded upon the sand.

When the storm of adversity or temptation comes, as come it may with all, which house do you think will stand and which will go down?

Honesty and nerve! You may strip a man of everything except these two and he will still be a tower of strength.

It is in the power of each of us to have these two requisites of success.

They do not depend on acquired knowledge or even on intellect. They depend alone on purpose and will.

Employers are, coming more and more to demand these fundamentals of character.

Any man can be honest. Even if he has made slips in the past, each day is a new day, and he can resolve to be honest every moment of his future.

Money honesty is not enough. He must be honest with himself, claim nothing he does not possess, seem only what he is.

Any man can have nerve. Napoleon once remarked in effect that the bravest soldier is he who trembles before the danger, but who goes in and does his duty despite his trembling.

The man who is afraid, but who faces the music, has moral bravery, which is the only sort that counts in the last analysis.

Honesty and nerve! The one will keep a man straight himself, and the other will enable him to face his crooked associate and defeat or expose him.

Success is a cube. The eight corners are: Integrity, Courage, Vision, Energy, Ability, Invention, Interest, Perseverance.

And the greatest of these are integrity and courage, which are but other names for honesty and nerve.

His Dilemma. "Miss Angie has put me in a very embarrassing position, as far as courting another girl is concerned."

"How is that?" "She will neither keep my love nor return it."

rewards. "Did your boy win any medals at school?"

"No," replied Mr. Groucher. "But I am going to see that the teacher who put up with him all the term gets one."

The Naval Cat. The dreaded "cat" is probably the best known of the old naval punishments.

Speaks For Itself. When you see a man and a woman sitting together in the theater, solemnly reading the jokes on the program between the acts, you don't have to be a mind reader to know they are married.

Blue Eyes and Black. In Spain they have a proverb "Blue eyes say 'Love me or I die,' black eyes say 'Love me or I kill thee.'"

LIVE STOCK MARKET IS STEADY TO FIRM

The Portland Union Stock Yards Company reports as follows: Receipts for the week have been: cattle 1939, calves 44, hogs 2927, sheep 4321, horses 51.

Market steady to firm. Receipts have been somewhat more liberal than week before last. Bulk of trading was done in the steer division.

Prices averaged high, between \$7.75 and \$8. Strictly prime beefs invariably realized \$8.25. Butcher stock was active although the small number of cows and heifers offering was a disappointment.

Bulls, stags and calves went to the shambles at steady prices.

Swine trading steady to a shade lower toward the close. Market opened with a rush Monday when tops brought \$9.80 and advanced to \$9.00.

Recent runs have been liberal enough to supply packers immediate needs, the latter was a factor of the late market and succeeded in pushing the range back to \$9.75.

The market is considered steady on this basis with possibilities for advance or decline.

Mutton market steady to stronger with a remarkably short supply. Buyers want prime stock but it seems to be scarce.

Liquidation is doubtless retarded by the lambing season in the sheep raising districts at this time. Prime wool yearlings selling at \$7.75 and ewes at \$6 featured. Not a single lamb sale was made. Market is strong \$7 to \$8.

Meanwhile, the State Department is giving careful study to the probable effect of the proposed legislation upon the existing treaty between the United States and Japan. The officials have no doubt that if the California legislature enacts a state law in conflict with the existing treaty, its action promptly would be nullified by the United States courts. Article one of the treaty provides that citizens of each nation shall have liberty to enter, travel and reside in the other and among other things "to own, or lease and occupy houses, manufactories, warehouses and shops, to employ agents of their choice, to lease land for residential and commercial purposes, etc." The issue may turn upon the application to agricultural lands or farms of the phrase "to lease lands for residential and commercial purposes." Another point that is under consideration is the eligibility of the Japanese to American citizenship for if they are eligible, then the proposed California legislation admittedly would not meet the demand of the Californian for the exclusion of the Japanese from their state.
