Cooper's New Discovery Drives Away Your Stomach Pains

Many people nowadays are apt to use drugs for quick relief every time they have an ache or a pain. This is only temporary treatment and is bad for the system generally. If persisted in it will lead scores of complaints and even serious illness that might have been avoided. Take the common complaint of constipation--every one knows, or should know, that every dose of a cathartic gives relief only for the time being and in reality it aggravates the trouble. If you take cathartics continually you are liable to have chronic constipation. It is the same way with stomach trouble, headaches, dizziness or liver and kidney disorders. If you have gas on the stomach or pains after eating and take a pepsin tablet, bicarbonate of soda, charcoal, or what not, you are only getting temporary relief. The same thing applies in curing a headache with headache powders. As a matter of fact you are in a worse condition as soon as the acute part of the attack is over.

Cooper's New Discovery

banishes constipation because it is mildly laxative and removes the cause--stomach trouble. It stops pains in the stomach and gas belching because it drives away the catarrhal inflammation which is causing the trouble. It stops headaches, dizziness, improves digestion and makes away with kidney and liver trouble because it puts the body in a healthy condition and there is no longer any cause for disease.

RAILROAD WORK TO BE RESUMED

Continued from page 1) land markets Our ties will practically all be sent to the Portland market, while the timber we bring out will be divided between the Oregon City mill and river shipments for Portland mills. "Hauling this traffic will give the road an excellent revenue from the start, and will also put a large amount of money into the Beaver Creek country. Business men of Oregon City and points in this district should bear in mind that there will be close to half a million dollars of Portland money spent along our line and in Oregon City during the next year, and this money will find its way into local trade channels, and so come back to Oregon City. It will be found that the cordwood and timber business along the Clackamas Southern will boost this section of the country just as similar business boosted and developed the Eagle Creek and Estacada country along the Estacada line." Initial service on the Clackamas Southern will be maintained by steam locomotives, though the electrification of the line will be hastened with all possible speed. It is unlikely, however, that motors will replace engines on the road until after the line has been extended beyond Beaver Creek. The line is being laid with heavy standard construction, and will bear both heavy traffic and high speed. With the completion of the road to

CANEMAH HIGHWAY READY FOR AUTOS

Work on the new roadway leading to Canemah, south of Oregon City, is just about completed and the improvement of Second street from one end of the town to the other is progressing. This is of special interest to motorists, because there is quite an agitation to have the Pacific Highway changed so that it will run through Canemah and thence up the river road. The work is being done by the Portland Railway, Light & Power company who entered into a contract with the people of Canemah and the county court to do the work, providing the company would be allowed to remove its tracks from the town of Canemah. With a fine road leading into the little town, it will be brought much more prominently before the public in the future than it has in the past. Three cluster rights will also be placed along the Canemah road by the company.

PROGRAM READY FOR CONVENTION

A Moyer Suit at \$15

is a suit that you or I can wear with constant satisfaction, for it is a suit that yields a maximum of service at a minimum of cost.

Why should you pay \$20 or \$25 for a suit when you can buy the same fabric in a Moyer suit for \$15.

Service with satisfaction not only in the fabric, but in the fit, the linings and trimmings, and in the thorough American tailoring--a suit built for long wear, for comfort alike in sunshine or in rain.

Come in and have a look at the new ones for Spring that we have opened up. We'll warrant we have your size, and we'll warrant your suit, as well.
