To band hall Saturday evening, April 19. all who have called Mr. Freytag has given a formula for a wash that will rib the tubers of this trouble, and those who have followed his advice are already reporting good results.

said Mr. Freytag, in talking of this at 3 o'clock. branch of his work, "and so I am Miss Katie Junker, who is attend-quite familiar with the problems that ing high school in Portland, spent confront many of the local agricultur- Saturday and Sunday at home. ists. I am glad to be of whatever asgreat help to the work this bureau is trying to do. The more assistance I can give the farmers towards raising better crops, the better will be the county yield, and so the finer will be the reports that we send out of our trust that it will be a good lesson progress here. Thus, it is that I am always glad to do whatever lies in my power for the assistance of those who ask for advice."

FISHERMEN WEEP;

Local fishermen are really and truly peeved at the weather. Rain is supposed to assist in making good fishing-atleast it used to be said that fish always bit better on a raiy day. But there are exceptious to every rule, and the present weather is one of the exceptions. According to anglers who are after trout and other things beside the fish that swim in the Willamette, his living by stock raising, selling the rain of Friday has put sport "on the blink" for a day or two.

"It is this way," said one of the local enthusiasts, who delights to tramp in the frigid water of the small living, but they can't for fear they streams back in the hills. "The rain, will be put in the pound in the city streams back in the hills. "The rain, coming when the ground is all softened un by the usual winter weather, has carried a lot of surface mud and silt into the streams, and the result is that the water is so murky that the fish can't see flies or bait. Maybe they can smell it, but the fish I have been after haven't got very good smellers, and I can't catch a thing. I went out this morning and tried, but Washington, D. C. He is expected I didn't have any luck. In fact when home in May. I looked at the muddy water I knew wouldn't have any luck, and my nunch was right."

weather forecaster doesn't give the fishermen much hope, either. He has studied the stars, consulted his toods in the big glass bottle, squinted at the barometer, and held his finger, wet, up in the wind, and has come to the conclusion that there is going to be some more rain. Therefore, fishing probably won't be particularly good fishing until it quits

MINSTRELS WANT MORE COMEDIANS

There wil be a rehearsal of the Minstrel show, which is to be given by the members of the Commercial club, Saturday evening in the Commercial club parlors. There has been plenty of good talent at the past rehearsals, but there is still room for more.

M. D. Latourette said Friday that every member of the club who had any talent should turn out and help make the event a success, as they are all needed.

The proceeds from the first night will be given to the publicity department of the club, to be used in advertising.

The above is a picture of Prof. F. E. Billington, of Eugene, who will be one of the principle speakers at the Oregon State Sunday School Convention, which will be held in this city, April 24, 25 and 26. This convention will be attended by delegates from practically every Sunday school in the state and preparations are being made to entertain 500. A host of first class speakers have been engaged to deliver the lectures during the session. Every person who is at all able, should arrange to hear some of these lechad next highest. tures as they will be highly instruc-

These wide stretches of bright emerald seem to betoken the wealth of happy congratulations were given the nutrition and a comfort that lies hidden within, and when one reflects that many of these fields, smiling so brightly in the sunshine now, were a year ago frowning wastes of jungle or of blackened stumps, the rapidity with which our state is developing, comes

forcibly into the mind. Cheering reports concerning the railroad are constantly reaching us telling that not alone in things agricultural is our vicinity progressing, but that the tedious journey through water and mud to the railroad town is to exist, only in memory, very soon. There is one messenger, however, whose visit to our place has instead of bringing gladness to us, taken a

bright young life from our midst. Miss Mary Stier, whose illness was mentioned in last week's issue of the Enterprise, died last Tuesday morning in the twentieth year of her age. Miss Stier had, in her school days, been a pupil in the Eby District and was much beloved by classmates and teachers alike. Her early death has cast a gloom over the entire neighbor hood. Other members of Mr. Stier's family are ill with the same fever that proved fatal to the beloved daughter. Friends and neighbors of the afflicted family wish to express despest sym-

pathy with them in their trouble.
